## ACOUSTIC SOLUTIONS

We are all born with an ability to focus. But as much as we would like to retain that skill forever, life itself proves to be very loud, colourful and sometimes just too interesting for us to be able to avoid distractions forever. Being able to concentrate is something we need to fight for, especially in open offices. And the best weapon for winning that fight is not stronger coffee or cooler office perks, it's offering your employees a real chance to focus.

## ACOUSTIC HUBS

Privacy can be difficult to find in a modern, open plan office. From the smallest hub, which is like a telephone booth and adequate for one person, to the largest which can accommodate groups, Silen can be adapted and customised to fit your own office requirements, creating multiple working zones in one place. Silen hubs are perfect dividers for work and relaxation areas, and you can just activate the wheels and roll your private retreat easily wherever you're in the mood.

The simplistic beauty of the Piano Chords hanging acoustic panels is that they are available in five unique natural and geometric designs with a selection of colours, styles, and endless design possibilities. Piano Chords are hung from the ceiling with brackets and act as a dividing curtain to provide the necessary combination of sound absorption and attenuation to control noise in interior environments.

Can be mixed and matched to create unique designs and add colour

Lightweight and easy to fit to ceilings with supplied fittings

Seamless combination of acoustics and aesthetics with 5 pattern options

Ideal for absorbing sound in open plan office environments
