1

2

Step 1
Place the hinges into the pre drilled holes on the inside face of the door panel.

Step 2
Attach the hinges using the 3.5 x 15mm wood screws, 2 screws per hinge.

3

Step 3
Attach leather handle to door using binding screws provided.

Slotted part of screw to the inside of door.

4

Step 4
Attach the hinge plates to the pre drilled holes on the inside face of the bookcase side panels, these plates are fitted with pre attached screws.

Ensure the plate is fitted as per diagram 1.

Step 5

Attach door to the unit. Diagrams 2 & 3 show how to lock the hinge to the plate. Always lock the top hinge into place first before repeating for bottom hinge.

Once the door is attached insert the door stop peg to prevent the door from closing in too far.

Ensure the hook of the hinge locates into the hinge plate.

Diagram 2

Fasten the hinge to the plate by applying pressure here.
