- Easy organisation of files

- Job status info (e.g. finished, pending, cancel job)

- 3 pedal USB foot pedal for hands free player control
- Professional audio transcription player

- DSS file management using separate folders
- Author ID setting by software

Comfortable transcription for your business

The basic transcription kit AS-2400 guarantees a convenient transcription of audio files. The included 3 button USB foot pedal allows the user to control the DSS Player Standard software with his foot to have the hands free for fast typewriting. The lightweight (28g) E-102 stereo under-the-chin head phone is comfortable to wear even over hours and does not harm the user's haircut. The simple graphical user interface allows a quick start into the audio transcription world of professionals. Several audio codecs established in professional dictation are supported.

Specifications
