

## Presco 500 Ultra Low Volume Fogger

Use the Presco 500 for disinfection, pest control, odour control and plant protection.

The Presco 500 works by expelling a fine, almost invisible mist into the atmosphere which eventually settles on all surfaces including those impossible to reach by conventional methods.

The machine is compact, and robust, making it ideal for constant commercial use, whilst equally suited to an office or domestic environment. The large 5 litre tank and powerful 1400w 230v electric motor allow the covering of larger areas with ease.

Whilst comfortable as a hand held fogger the 500 can be positioned on the floor or counter-top. The cone is height adjustable allowing it the fog to be directed for best effect.

Setting the flow rate control at level 2 will produce a dry fog, suitable for areas such as offices or where textiles or other sensitive materials / merchandise are exposed.

The ability to adjust the fogger output from 9 µm up to a fog 49 µm, and flow rate up to 49 litres per hour makes this machine suitable for the application of disinfectants, biocides, fungicides and pesticides.

Regular fogging with a Defra approved disin-fectant such a Presco 5812 as will help prevent the cross-infection of viruses such as MRSA, Coronavirus (human and feline), Strangles, Ringworm and many more.

### SPECIFICATIONS

Motor	1400w, 220v AC, 50hz
Tank Capacity	5 Litre
Output Flow Rate	0-49 l/h
Droplet Size	9-49 micron
Empty Weight	5.3 kg
Dimensions	50 x 17 x 50 Cm
