devolo MAGIC 1

devolo Magic 1 LAN 1-1

- **Via unseen pathways:** the innovative Powerline technology gets you on the Internet anywhere in the house via the fastest and most reliable route - for a multi-media experience of the very best quality.
- **Fantastic performance:** surf the net at up to 1200 Mbps! Streaming, gaming, home office - and all of them magically easier, faster and more reliable than ever before.
- **All-in:** connect your static devices such as smart TVs, consoles or PCs via the Gigabit LAN connection.
- **We've thought of everything:** thanks to the integrated power socket, you won't lose out on any power connections.
- **Copes easily with long distances:** effortlessly handles extremely long distances up to 400 metres so that you always have a strong connection. From the cellar to the attic and down to the garage - simply all through the house.
- **Organises the setup:** Simply plug into the power socket - and thanks to the smart Plug & Play, the adapters connect to each other in just a few seconds.
- **Top-end technology from Germany:** since 2002, devolo has been developing innovative products with passion for millions of happy, networked customers all over Europe. With more than 300 awards to its name.
- **A real team worker:** compatible with all routers, devolo Magic adapters and HomeGrid Forum-certified products. dLAN® Powerline adapters and other HomePlug AV products are not supported. Different technologies can be used in parallel in a single household.
- **Our promise:** 3-Year manufacturer's warranty.
