

Achieve odourless and hassle-free urinals

URIZAP is a patented, world-first microbial formulation that eliminates urinal blockages and foul odours, with regular use preventing recurrence.

Suitable for all types of urinals, URIZAP digests built-up uric acid without the need for harsh chemicals.

One scoop a week, with one cup of water, is all it takes to maintain free-flowing urinals!

Before URIZAP

6 weeks after URIZAP

The benefits

*Figures based on 1,000 urinals excl. upstream & downstream benefits

Between 10 and 30 million litres of water saved per year

Around 11,200 litres of chemicals saved per year

About 14 tonnes of single-use plastic saved per year

On average 25 tonnes of carbon emissions reduced per year

Depending on location, 50-400% cost savings
