

WorkForce Pro WF-M5190DW

DATASHEET / BROCHURE

This business inkjet benefits from up to 80% lower power consumption¹, with fast print speeds. Increased productivity with lower intervention.

Take advantage of low power consumption, a low Total Cost of Ownership (TCO), fast print speeds and features designed for easy business integration with the new WorkForce Pro WF-M5190DW. This business inkjet printer benefits from automatic double-sided printing, making any job easy and efficient, and PDL compatibility, including PCL and Adobe PostScript 3.

Ecological

The WF-M5190DW uses up to 80 percent less power than competitive mono lasers¹ thanks, in part, to its no heat technology. No Ozone gas is emitted and an improved quiet print mode and no fan noise during or after printing make it ideal for the work environment.

Low running costs

The WF-M5190DW's high-capacity ink cartridges of up to 10,000 pages² allow you to print for longer and lower your running costs. And there are fewer parts to replace than a laser.

Save time

This efficient business printer has print speeds of up to 34ppm, (20ppm ISO print speed³). Its maximum paper capacity of 580 sheets means less time is spent refilling, and a monthly duty cycle of up to 35,000 pages⁴ means you can print lots in confidence.

Built for business

PrecisionCore technology powers the output quality that Epson is known for, at the speeds required for office, commercial and industrial printing. Prints dry fast thanks to the DURABrite Ultra ink. Wi-Fi Direct™ capability lets you print from supported wireless devices without connecting to a router. Email Print for Enterprise⁵ allows you to securely send documents directly to the printer. Available with direct printing and pull print modes, this secure system integrates seamlessly into your existing IT infrastructure.
