

- The B123-001-60 has been designed for use with Tripp Lite P568-Series HDMI cables. To ensure maximum distance and performance, it is recommended that you use Tripp Lite P568-Series HDMI cabling. For distances over 75-ft, 24AWG cable such as Tripp Lite's [P568-100-HD](#) is required.
- Although most installations will not require power, a Micro USB port is provided in the event power is needed. Using a Micro USB cable (such as Tripp Lite's UR05C-Series), connect the Micro USB port to a USB wall charger, the USB port on your monitor, or the USB port on a computer.
