In its paper and plastic manufacturing plants, Exacompta integrates antimicrobial technology for a range of filing and storage systems protected against bacteria, mould, fungi and viruses.

Clean'Safe products stop the spread of bacteria and viruses and can eliminate them by more than 99%. The files remain safe for everyone to use.

Protected from bacteria and viruses, the filing products are also environmentally friendly, FSC certified. To differentiate the products on the shelves, they are marketed with an insert mentioning the antimicrobial attributes.
