## Connectivity Equals Productivity

Thin laptops are great, but their lack of connection ports can be a problem. Well, no more. With the Trust Dalyx 7-in-1 Adapter your productivity will increase seven-fold thanks to the included HDMI, Ethernet, memory card, USB and USB-C connections.

## Fast Data Transfers

Because of the fast connection types on the Dalyx 7-in-1 Adapter you'll transfer files with a speed of up to 5Gbps via USB. Or use the Ethernet port to connect your laptop to your home or office network for fast Internet access. And because of the HDMI 1.4 connection, you can even connect a 4K monitor with HDR so your photos look more colourful than ever.

## With Powerful Passthrough

By connecting the Dalyx to the USB-C port on your laptop, you won't even lose the ability to charge the battery. One of the seven ports is a USB-C connector that supports a power input of up to 5A/100W making it very suitable to pass through the electricity of your power supply.

## Always On The Go

If you are constantly on the move, the Trust Dalyx 7-in-1 Adapter won't slow you down one bit. Its small form factor, combined with the sturdy aluminium housing, means you'll take it anywhere you'll go. It doesn't need an additional power supply and when you're out on a photoshoot or even on vacation, the included card reader will make sure you can back-up your pictures without hassle.
