SUSTAINABILITY IS IN OUR DNA

**BI-SILQUE CRADLE TO CRADLE
CERTIFIED™ DECLARATION**

WE ARE THE LEADING MANUFACTURER OF
ECO-FRIENDLY PRESENTATION AND DISPLAY
PRODUCTS

SUSTAINABILITY IS IN OUR DNA

RESPONSIBLE SOURCING

We work to optimise the social and ecological impact of how our raw materials and sub-components inputs are sourced.

PRODUCT STEWARDSHIP

We develop and make available the most preferred line of environmentally responsible products and packaging.

ENVIRONMENTAL FOOTPRINT

We minimise our own environmental footprint by focusing on Recycling, Biofuel Cogeneration and Green Energy.

CUSTOMER PARTNERSHIPS

We are recognised as the partner of choice for customers wishing to place a priority on sustainability.

EMPLOYMENT PRACTISES

We develop our internal capability and expertise to deliver on our sustainability objectives.

COMMUNITY IMPACT

We empower our business units to support local activities which promote positive change.

ECO-FRIENDLY MATERIALS

CORK

- Sustainable material by excellence
- Organic, natural, recyclable, non-toxic and renewable material

WOOD

- MDF (Medium Density Fiberboard) mostly made from post and pre industrial waste
- Environmental impact has improved over the years: low formaldehyde emissions

ALUMINIUM

- Products mostly made from industrial waste
- Made according to the highest environmental standards

PAPER

- Products made from recycled paper or from materials obtained in sustainable forests

CERAMIC STEEL

- Surfaces with a very low concentration of heavy metals
- Combination of durability, superior visibility, exceptionally smooth writing/erasing and resistance to chemicals

CRADLE TO CRADLE CERTIFIED™

The Cradle to Cradle Certified™ Product Standard guides designers and manufacturers through a continual improvement process that looks at a product through five quality categories:

MATERIAL HEALTH

- Elimination of all toxic and unidentified chemicals throughout the production process

PRODUCT CIRCULARITY

- Combustible waste collected throughout the production process
- Unusable waste turned into briquettes
- Most of our packaging is recyclable

RENEWABLE ENERGY & CLIMATE

- We incinerate approx. 250 tons of our production waste material
- Energy self generated through waste equates to almost 750,000 kwh per year

SOCIAL FAIRNESS

- We adhere to European human rights requirements and we are proud of our manufacturing clean air programs

WATER STEWARDSHIP

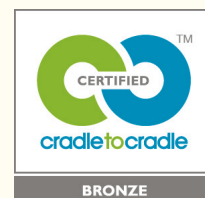

- At each level, progress is made towards cleaning up effluent to drinking water standard

OUR PRODUCT LEVELS OF ACHIEVEMENT

Cradle to Cradle Certified™ Silver certificate, which means that it has a **Material Reutilisation Score greater than 50**, as per explanation in the following site:

www.c2ccertified.org/get-certified/levels/silver/v3_0

Cradle to Cradle Certified™ Bronze certificate, which means that it has a **Material Reutilisation Score greater than 35**, as per explanation in the following site:

www.c2ccertified.org/get-certified/levels/bronze/v3_0

Each and everyone of us have the responsibility to make a change in our business and become part of the solution, by reducing our environmental footprint.

André Vasconcelos
Bi-silque's CEO
