// Features

Matter, All-Round Compatibility

With Matter support, using one app to control all smart devices is no longer a fantasy. Integrate Tapo P304M into your favorite ecosystems to create a unified smart home.

Free Up Your Hands with Voice Control

Free up your hands by using simple voice commands with Alexa, Siri®, or Google Assistant.

Works with **Apple Home**   works with **alexa**   works with **Google Home**

// Features

Zero-Crossing Detection

Zero-crossing detection technology increases the lifespan of relays by over 9 times* compared to other sockets, addressing a key issue in smart plug failures. This industrial-grade circuit safety control is the first of its kind in consumer products, so you never have to worry about equipment damage from relay failure.
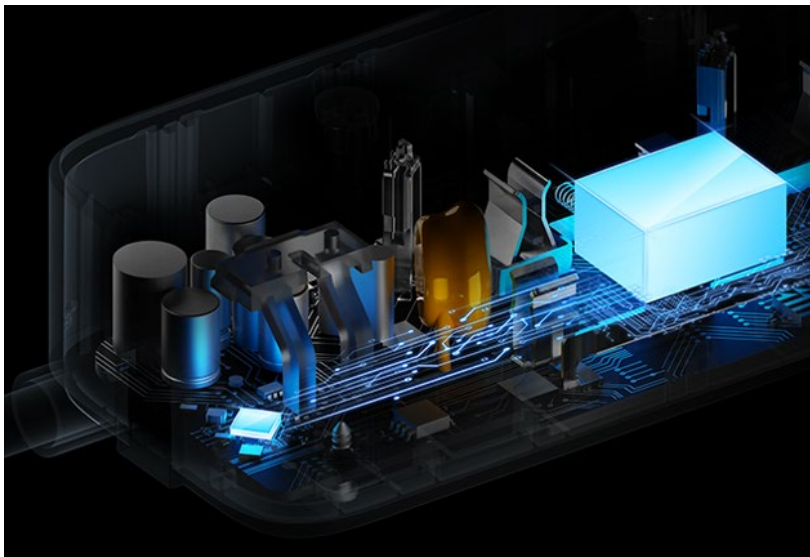

Save Money wth Insightful Energy Monitoring

Provides detailed power consumption insights through intuitive data visualizations. Supports singular and periodic billing for accurate estimates. Tracks high-energy devices, schedules off-peak operation, and reduces energy costs.

*Based on Tapo's lab results, actual effect may vary depending on working conditions and environments. It is mainly suitable for capacitive load devices, such as lights, TVs, computers, chargers, etc.

// Features

Live Smarter by Presetting Time

The Schedule and Timer features enable you to create weekly schedules and countdown plans, adding convenience to your life. With the enhanced Auto-Off feature, your connected devices will automatically turn off if left on for a set time, ensuring your safety and saving energy.
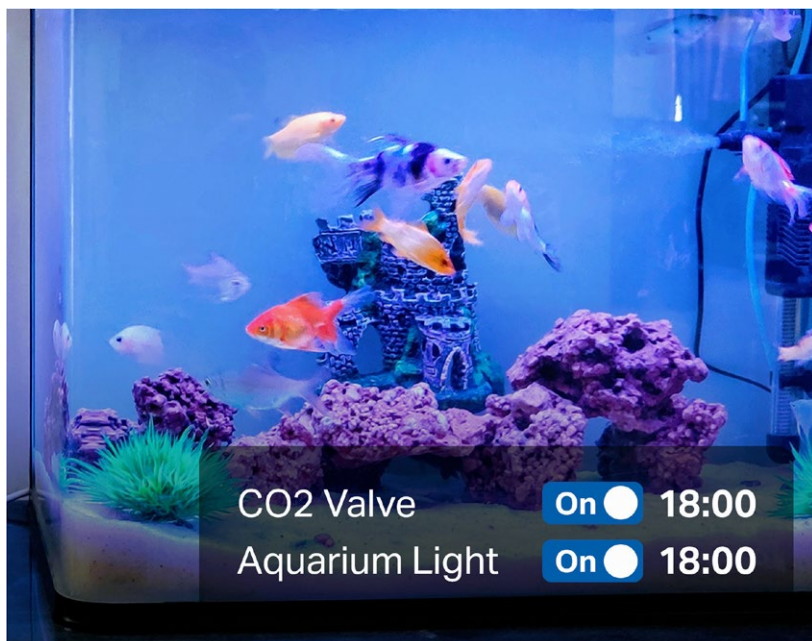

4 x Individual Smart Outlets

4 × individual smart outlets that can be controlled separately allow you to control the exact connected devices according to your needs.

5-Way Safety Guarantee

Rigorously lab tested and safe to use. Update your device to the latest firmware to benefit from power protection, built-in surge protection, overload protection, overheat protection, and V-0 (UL94) flame-retardant material.
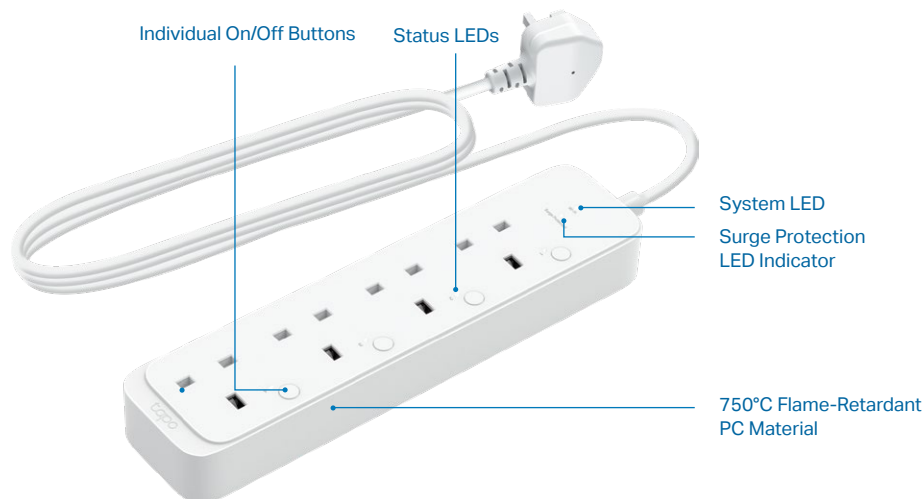

Remote Control

Easily manage your connected devices wherever you are via the Tapo app. Designed to simplify your life and help eliminate potential safety hazards.

// Specifications

Technical

- Input: 250V~, 50/60Hz, 13A

- Output: 13A Maximum Load

- Construction of Switch: Micro-gap(μ)

- |T3| Surge Protection Device

- U_{OC}: 6kV U_P: 1.20kV(L-N)

- U_C: 250V~ I_L: 13A

- Cable Size: 3x1.5mm^2

Individual On/Off Buttons   Status LEDs

System LED

Surge Protection
LED Indicator

750°C Flame-Retardant
PC Material

Wireless

- Wireless Standards: IEEE 802.11b, 802.11g, 802.11n

- Protocols:

  IEEE 802.11b/g/n, 2.4 GHz Wi-Fi, Bluetooth (for setup only)

- Wireless Security:

  No Security; WEP; WPA/WPA2-PSK; WPA2/WPA3 mix;
  WPA3-SAE; WPA3 only

Others

- Package Contents:

  Tapo P304M X 1

  Quick Start Guide

- Dimensions:

  260 x 62.7 x31.4 mm (without cord)

- Power Cord Length: 1.5 m

- Certifications: CE, RoHS, UKCA

- Operating Temperature: 0 ºC–40 ºC

- Operating Humidity: 10%–90% RH, Non-condensing
