

Great Performance at a Great Price

Insight* Variable ADF – Digital Welding Helmet

The Jackson Safety* Insight* Welding Helmet perfectly fits your professional needs and your budget. With its variable Auto-Darkening Filter, easy-to-use digital controls, and an ultra-lightweight shell, you will discover the true value of this welding helmet for yourself.

- Variable shade 9-13
- Viewing area of 3.94" x 2.36" offers unobstructed view during all stages of welding process without lifting hood
- Easy to use digital controls
- Sensitivity and delay adjustments for different tasks and durations
- 4 independent sensors
- 2-Year warranty on ADF

Insight* Variable Auto-Darkening Filter – Digital Welding Helmet

HSL 100
Narrow shell design
for work in tight spaces

HXL 100
6oz. ultra lightweight shell
helps reduce neck tension

370 Headgear
is one of the most comfortable headgear units in the market

Extended front
increases throat protection from sparks, slag and other physical hazards

Touch only system
No need to remove the hat as you change PPE

Convenient, all-in-one hard hat interchange system
helps reduce parts inventory

Features:

- Variable shade 9-13 to shield and protect eyes from radiant energy during weld
- Viewing area of 3.94" x 2.36" offers unobstructed views during all stages of welding process without lifting hood
- Sensitivity and delay adjustments for different tasks and durations
- Weld and Grind modes
- Four independent sensors reduce blockage possibility
- Lithium batteries with easy access
- Solar assist provides additional energy source
- Low-battery indicator light
- Compatible with HSL 100 and HLX 100 shells
- Meets ANSI Z87.1 – 2010 Standard and is CSA compliant

Hard Hat Interchange System
Let's you easily, remove or switch between welding helmet or face shield without removing your hard hat

Jackson Safety* Auto-Darkening Filter (ADF) Warning

- Provides limited eye protection. Additional protective devices are required for full eye coverage and protection.
- Should not be worn to protect from other hazards including, but not limited to, airborne dusts or mists, liquid splashes, impact hazards and sports activities.

The selection and use of welding personal protective equipment must be based on a hazard assessment of the wearer's work environment conducted by the wearer, or for an industrial environment, an appropriately trained individual for your employer or organization in accordance with OSHA regulations 29 CFR 1910.133 and ANSI Standard No. Z87.1. Make sure the ADF is installed properly into the helmet shell and is clean. If the ADF is scratched or damaged, do not use it and replace it with a new one. Do not use the ADF without the Jackson Safety* brand internal and external safety plates. To clean, wipe only with a soft cloth. Do not immerse ADF in liquids.
