Headband Style

Capmount

Maintenance/Cleaning:

Clean the earmuff by using warm water and soap. Some products may harden or damage the cushion and be sure that the soap used does not irritate your skin. Components should be dried prior to use.

The earmuffs must be stored dry and clean, for example in its original packaging. Store your earmuffs in normal room temperature away from direct sunlight. Do not leave your earmuffs in areas where it can be exposed to damage.

Hearing protectors should be inspected prior to use for damage or deterioration. Damaged or worn parts should be replaced prior to use. The noise reduction will only be obtained if the earmuffs are in good order and worn as directed. Ear muffs, and in particular cushions, may deteriorate with use and should be examined at frequent intervals for cracking and leakage. Hygiene kit/cushions should be replaced twice a year or when the cushion show signs of damage or hardening.

Fitting and Adjustments:

To achieve optimal comfort and best effect from this hearing protector, you must use, maintain and adjust the protector according to the following instructions.

Push the slot adapter into the helmet's accessory slot until it snaps into place. Place the earmuffs over the ears and press inwards until you hear a click. Adjust the earmuffs so the helmet fits comfortably on your head. Ensure that the ears are completely enclosed by the earmuffs and that you have even pressure around the ears.

Workmanship Requirement:

Hearing protection shall be made in accordance with reasonable industry practice with respect to defects or dirt and contamination. Hearing Protection should be packaged as specified having described design, suspension and color in the appropriate quantity as listed.
