

MSA Fall Protection Custom Logo Harnesses

Logo MSA Full-Body Harnesses to assist in managing safety assets on the jobsite or in your facility while showcasing your company pride.

Logo Artwork Submission and Authorization

Please read the following information about preferred artwork formats and check the appropriate boxes indicating what you supplied to MSA to create your custom logo heat transfer. Send your completed form and artwork to placeorder@msanet.com.

For best results:

- Save files in their native format, such as: CorelDRAW, Illustrator, or Photoshop. (PC-compatible files only).
- Save all rasterized files, such as JPEG, TIFF, etc., at 300 dpi minimum. The higher the resolution, the better the reproduction quality will be.
- Include the Pantone Matching System (PMS) numbers of your colors, since colors may not translate exactly by e-mail.
- Send your artwork to the MSA distributor who is taking your order.
- Include the font style, if possible.

Logo Placement

Logo placement is limited to the harness backstrap as shown in the image above.
