RADIANS®

WELCOME TO RADIANS

LEADING THE WAY TO A SAFER TOMORROW

In 20 years, Radians has become a major leader in the safety industry by manufacturing high performance Personal Protective Equipment (PPE) for the industrial, construction, and safety markets. Fostering a culture of innovation, flexibility, and excellence, we create products, services and experiences that are leading the way to a safer tomorrow.

We manufacture premium product lines, such as DEWALT® and Crossfire®, and performance value brands. Our comprehensive line of safety equipment provides a variety of PPE solutions to satisfy style demands, comfort requirements, compliance concerns, and price considerations of end users.

You are important to us. We don't take our relationships and partnerships for granted. We are continuously evolving and expanding our product lines, our capabilities, and our processes to be your top tier supplier of quality safety solutions for the end user while consistently meeting our partners' expectations.

CONTENTS

OUR COMMITMENT TO YOU

- Our products are manufactured in ISO-certified facilities and have passed strict ANSI testing to ensure maximum protection and performance.
- Our numerous brands and extensive line of safety gear will help you create a solutions-oriented safety program.
- Our world class customer service, product managers, safety specialists and outside sales team will support and train you.
- Our automated warehouse improves the speed and accuracy of your orders.
- Our Made in USA manufacturing capabilities provide fast turn-around times and the choice to buy American-made PPE.
- Our customization programs offer fast and economical solutions for imprinting. Plus, our online software called My-Viz lets you design custom vests and T-shirts that Radians will fabricate for you quickly.
- Our programs will help you gain a competitive edge, such as no additional charges for drop shipments and same-day shipping of in-stock items if ordered by 5 p.m., CST.

BRANDS THE INDUSTRY TRUSTS

RADIANS IS PASSIONATE ABOUT OUR PRODUCTS AND CAPABILITIES

RADIANS: Whether your workplace environment is inside a manufacturing plant or outdoors in a hazardous construction work zone area, Radians offers a comprehensive line of quality safety gear to minimize exposure to workplace hazards to help keep you safe.

CROSSFIRE: Crossfire Eyewear by Radians is an industry leader in designing eyewear that affords the end-user a seamless link between the latest in style and cutting edge technology for superior optical clarity.

DEWALT: Recognized around the world, DEWALT has always had the toughest tools to help you get the job done. With DEWALT Protective Gear, now you can make sure that the toughest jobs are done safely. DEWALT protective gear is engineered for comfort, durability and above all, safety.

RADWEAR: Radians' commitment to innovation and manufacturing in the USA is easy to see in our high visibility apparel for fire, law enforcement, emergency, construction, transportation, highway, industrial and other specialty markets.

ARCTIC RADWEAR: If your work, lifestyle, or sport activities expose you to high levels of heat, protect yourself against heat stress with Arctic Radwear cooling products by Radians.

NORDIC BLAZE: Nordic Blaze warming gear is designed to keep you warm in cold and harsh environments. The ergonomically designed product includes several features for added warmth, comfort and protection.

VISIONAID: VisionAid lens cleaning systems are available in disposable or permanent stations, emergency eyewash stations, and pre-moistened towelettes. VisionAid products are made in the USA.

RADWEAR™ CUSTOM APPAREL DESIGNER

CUSTOMIZE YOUR PROTECTION

Do you have a special safety situation that calls for a uniquely designed safety vest or T-shirt? If so, Radians' My-Viz Custom Designer is the perfect tool. We will manufacture customized safety solutions in the USA quickly and affordably.

YOU DESIGN IT—WE BUILD IT

- ✓ Intuitive online software to create your Vest or T-Shirt
- ✓ Quick Turn-around Times - Made in USA
- ✓ Low Minimums
- ✓ Affordable Costs
- ✓ Complete Customization

CREATING YOUR CUSTOM VEST OR T-SHIRT IS QUICK & EASY!

- ✓ Choose your style of vest or t-shirt
- ✓ Pick a color combination
- ✓ Find the right fabric for your needs
- ✓ Select the style of reflective tape
- ✓ Choose your pockets and accessories
- ✓ Place your custom imprinting message

Visit www.my-viz.com and activate your account today.

- Up to 15 colors (Embroidery)
- Up to 6 colors (Imprinting)
- Fastest turn-around time in the industry

MANUFACTURING PPE IN THE USA

Over the past decade, Radians has delivered on its commitment to bring US made products to the PPE market. From Radwear custom high visibility vests to Radians foam earplugs to Vision-Aid lens cleaning products, Radians is investing in our manufacturing footprint in the USA. And we are committed to continuing this trend.

BENEFITS OF MANUFACTURING RADIANS PRODUCTS IN THE USA

- Faster turn-around times
- Optimal control of the manufacturing process to ensure a quality product
- Giving you the choice to choose USA vs. Imported products
- Creating jobs in America and improving the American economy

FOAM EARPLUGS

HIGH VISIBILITY

EYEWEAR

HARD HATS

LENS CLEANING

To maintain and grow our leadership status, Radians tests all of our products against the current regulatory standards for the regions where the product will be marketed. All glasses, high-visibility materials, fire retardant materials, and EU products are tested by third party independent laboratories.

At our corporate headquarters, Radians has installed a state-of-the-art hearing protection laboratory which is accredited through the National Voluntary Laboratory Accreditation Program (NVLAP Lab 500090-0) for testing of hearing protection products to ANSI S3.19 and ANSI S12.6. Radians also maintains in-house testing facilities to ensure continued compliance with applicable optical and high-impact standards for eyewear in addition to third party eyewear testing.

With our focus on product quality, regulatory standards, and testing, you can be confident Radians' products meet or exceed all necessary requirements to ensure your safety.

WAREHOUSE AUTOMATION

INCREASED EFFICIENCY & CUSTOMER SERVICE

To help us consistently meet and exceed our partners' expectations, Radians is always evolving. Radians recent investment in an automated warehouse solution increases levels of customer service and satisfaction.

- Real-Time Shipping Information
- Expedite same day orders more efficiently
- Improve speed and accuracy of orders
- Reduce error in shortages and overages

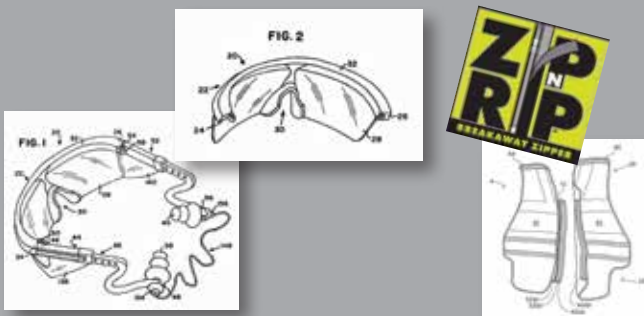

QUALITY ASSURANCE

The International Organization for Standardization (ISO) 9001:2008 specifies requirements for a quality management system where an organization needs to demonstrate its ability to consistently provide product that meets customer and applicable statutory and regulatory requirements.

PRODUCT INNOVATION

Radians is not only a manufacturer and supplier of quality safety products, we develop and design new products:

- To satisfy our customers' changing safety needs.
- To stay abreast of evolving market trends.
- To produce the highest quality PPE products at lowest possible costs to offer a value proposition.

The Radians brand is synonymous with market leadership, quality and reliability, and is sold exclusively through authorized distributors.

- 24/7 online ordering
- Check on status of orders
- Instant access to stock availability
- View invoices and purchase history
- Track shipments

ONLINE MARKETING TOOLS

Radians' website provides valuable information, resources and images on all of our products and capabilities.

- Interactive and downloadable PDF catalogs
- Individual product sales sheets
- Downloadable high resolution product images
- Search engine
- Product videos
- Imprinting locations
- RadLink distributor portal

CUSTOM MARKETING FLYER PROGRAM

Just as Radians can customize your safety products with your brand and logo, we can also produce custom marketing materials in-house.

SOCIAL MEDIA

You can learn about new products, our people, and trade shows we are attending. Plus, we periodically have Facebook contests where you can win cool PPE.

WEBSITE & MARKETING

HAND PROTECTION

Radians is expanding our line of hand protection to provide gloves that keep workers' hands protected from common workplace hazards. The National Safety Council estimates that the direct cost of a laceration is \$10,000 including care and missing six days of work, which is the average time off for a hand injury.

You can look to us for performance gloves that protect your workers' hands while not compromising comfort and dexterity. We offer a variety of materials and coatings for various job applications, including nitrile, latex, Polyurethane coatings, and cut resistant fibers.

STANDARDS & TESTING

Standardized testing of gloves ensures that the proper glove can be selected based on the hazards present. Testing includes ratings for abrasion, cut, tear, and puncture. New versions of the EN388 and ANSI/ISEA 107 standards improve cut testing to rate much higher cut levels, align cut test results between ANSI and EN cut test methods, and add ratings for vibration and impact resistance.

UNDERSTANDING THE NEW ANSI/ISEA 105 AND EN388 4 Revisions to the new Cut Level Standards you need to know.

The reason for these changes is to give users a more accurate picture as to the cut resistance level of their gloves. The addition of four new designations allow for greater clarification for higher cut level gloves.

While these changes have recently taken effect, no direct time line has been specified to have gloves tested to the new standard. However, in order to have the A# designation, previously rated gloves must be retested.

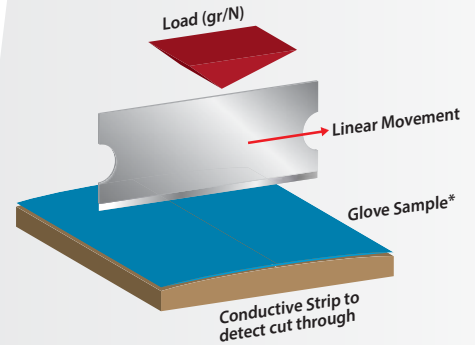

Although previous ANSI tests were done on a different machine, the TDM100 (depicted to the right) will be used in both ANSI/ISEA 105-2016 and Revised EN388 tests. This leads to more accurate test results, and greater continuity between the two standards.

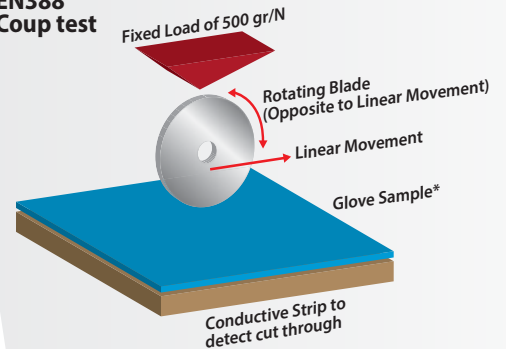

ANSI cut levels have increased from five to nine. In addition to the old numerical designation (1-5), the new standards incorporate the alphabetical designation (A1-A9). See the chart below for a graphic depiction of these levels.

CUT PROTECTION GLOVES

WITH
Dyneema®

LET'S CREATE THE WORLD'S SAFEST HANDS

WORLD'S MOST ADVANCED CUT RESISTANT FIBER

Dyneema® Diamond Technology offers maximum protection over traditional materials like aramid, leather, nylon and polyethylene with glass fiber.

It can achieve levels B, C and D based on the latest EN388 2016 standard and levels A2, A3 and A4 on the new ANSI/ISEA 105-2016 standard without the use of glass or steel fiber reinforcement, which may break during use causing skin irritation.

GREATER COMFORT & DEXTERITY

Dyneema® Diamond Technology fibers are thinner than generic HMPE fibers and 40% less dense than aramid fibers, making them more comfortable, thinner and cooler to the touch, while still providing advanced cut protection.

It also promotes skin-like dexterity, allowing users to perform delicate and precise tasks efficiently.

HIGHER DURABILITY & COST EFFICIENCY

Cut resistant gloves made with Dyneema® Diamond Technology offer greater abrasion and U.V. resistance and higher durability in comparison to gloves made with leather, aramid and polyethylene with glass fiber.

They can also be laundered and reused multiple times without losing their performance, maximizing cost efficiency.

DYNEEMA® DIAMOND TECHNOLOGY (A4)

KEVLAR (A2)

THE ADDITION OF STEEL OR FIBERGLASS IS NEEDED TO ACHIEVE HIGHER CUT SCORES

Black Dyneema® Diamond Technology

A Whole New Level Of Cut Protection Performance & Enhanced Comfort

Dyneema® Diamond Technology, the world's most advanced cut resistant fiber, introduces the latest range of black fibers that delivers the next level up in uncompromising protection and user comfort.

Innovated For Heavy Duty Performance & Enhanced Comfort

Black Dyneema® Diamond Technology is the first high performance fiber in the market that delivers this level of cut protection without steel or glass fiber reinforcements. This means maximum protection without the discomfort of steel fibers, as well as the brittleness and short protection lifespan of glass fibers.

HEARING PROTECTION

Although hearing protection regulations have been in place for decades, Noise Induced Hearing Loss (NIHL) is still a major occupational illness. Hearing loss is imperceptible at first with no pain or trauma. Unfortunately, once hearing damage occurs, it is irreversible; and your lifestyle at work and at home can be negatively impacted.

STANDARDS & TESTING

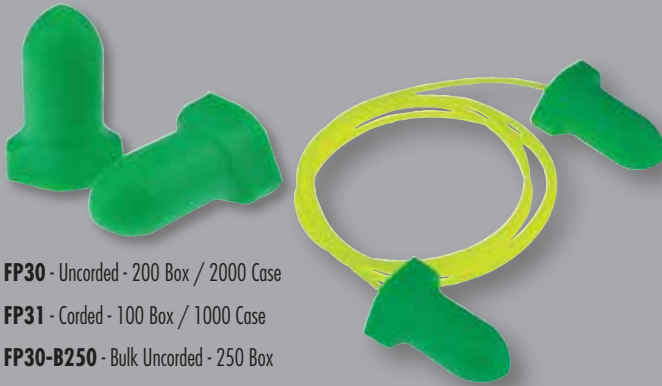

- TESTED - Radians tests all of our products against the current regulatory standards for their specific marketed regions.
- UNIQUE - Radians has installed a state-of-the-art hearing protection laboratory accredited through National Voluntary Laboratory Accreditation Program (NVLAP Lab 500090-0) for testing of hearing protection products to ANSI S3.19 and ANSI S12.6.
- FOCUSED - Radians focuses intently on product quality, regulatory standards, and testing.

PRODUCT CATEGORIES

- NRR 32** - NRR - Noise Reduction Rating: The higher the rating, the better the protection
- ELECTRONIC** - Electronic Hearing Protection allows for hearing normal conversation while dampening noises over 85dB
- DIGITAL** - Digital LCD Display for ease of use
- 3.5MM JACK** - 3.5mm auxiliary port for relay or music devices
- MP3** - MP3 or other music device ready
- ADJUSTABLE** - Adjustable headband for custom fit
- COMPACT** - Folds into smaller unit for compact storage

PROTECTIVE EYEWEAR

Since the premium eyewear market is a multi-billion dollar market, it's apparent that millions of people have a self-expressive connection with their premium eyewear and place extreme importance on brand recognition. Brand recognition of eyewear goes beyond lifestyle and plays a serious role in the industrial markets because premium brands are a catalyst for compliance.

To meet worker expectation for premium style, all day comfort, and extreme protection, Radians offers affordable premium brands, such as Crossfire and DEWALT.

STANDARDS & TESTING

- All safety glasses and goggles meet the high impact requirements of ANSI Z87.1 (Z87+).
- Select styles have also been tested for compliance with additional military / international standards including VO Ballistics (0.15 caliber), CSA Z94.3, EN166, and AS/NZS 1337.
- Eyeglasses are NOT safety glasses unless both the lenses and frame are in compliance with the specifications for safety eyewear described in the ANSI Z87.1 standard.

STANDARD	IMPACT SPEED	CALIBER / SIZE	PROJECTILE
ANSI Z87 + High Velocity	150 feet / second	0.25 inch diameter steel ball (25 caliber)	
	45 meters / second		
Mil-PRF-31013 VO Ballistic	640 - 660 feet / second	0.15 inch diameter steel projectile (15 caliber)	
	195 meters / second		
High Mass Impact	17.6 oz / 50 in height	17.6 oz / 500 g pointed projectile dropped	
	500 g / 127cm height		

ICON LEGEND

Complies with ANSI Z87.1 Standards

Available with Scratch Resistant Hard Coat

Provides 99.9% UVA and UVB Protection

Provides enhanced vision by filtering damaging blue rays

Prevents lenses from fogging

Meets VO Ballistic Standards Mil-PRF-32432

Complies with CSA Z94.3 Standards

Provides protection against dust and debris

Can be worn over prescription eyewear

Made in the USA

Polarized lens prevents glare

PROTECTIVE EYEWEAR

Our approach to design affords the end user a seamless link between the latest in style and cutting edge technology.

- Advanced lens coatings for superior scratch resistant and anti-fog properties.
- High-end materials for polycarbonate lenses, rubber nosepieces and frames.
- Polarized and High Definition lens options for enhanced optical clarity.
- De-centered cut lenses to match the focal point with actual line of sight, again ensuring optical clarity.
- 99.9% UVA and UVB protection.
- Stylized lens colors and cool frames that premium-brand consumers love.
- All safety glasses are ANSI Z87.1 certified.

FRAME TECHNOLOGY

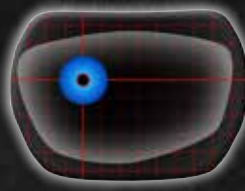

- TPR Technology increases the grip to keep glasses on your face.
- All polycarbonate lenses provide 99.9% UV protection and comply with ANSI Z87.1 standards.
- Hard Coat provides scratch resistance.
- Flexible and durable Nylon materials on frames provide added durability and protection.

ENHANCED OPTICAL CLARITY

The optically correct portion of the lens blank is pinpointed and marked at the focal point.

The de-centered lens is cut to match the focal point with actual line of sight, ensuring optical clarity.

HD LENS TECHNOLOGY

Crossfire® High Definition (HD) Lens Technology provides enhanced vision by filtering the most damaging blue rays and allowing for more transmission of the High Definition light spectrum.

RADIANS

GOGGLES

WHY GOGGLES?

Close-fitting goggles can limit a worker's exposure to airborne toxins and contaminants, including gasoline, oil, and industrial chemicals.

All of our styles have indirect or built-in ventilation systems for breathability; anti-fog coatings are available too. Several styles are designed to fit over most prescription glasses.

SMALLER FRAMES

WHY SMALLER FRAMES?

Radians understands that many workers have smaller or narrower face shapes. You can outfit them for safety and increase compliancy with our smaller framed safety glasses. After all, no worker wants to wear a safety glass that doesn't fit properly.

RAINWEAR APPAREL

RAINWEAR WORKERS WANT TO WEAR

Radians Industrial Rainwear line is a commitment in uncompromisable protection. We are focused on quality, value, and service while continually addressing functional wearability. Whether your work requires an economical option in disposable protection, durable protection from a hazardous environment, or High Visibility rated protection in inclement weather, we have you covered.

ANSI/ISEA 107-2015 Class 3 Standards:
 Background Fabric: 1240 Square Inches
 Reflective Material: 310 Square Inches Minimum
 Reflective Width: 2 Inches

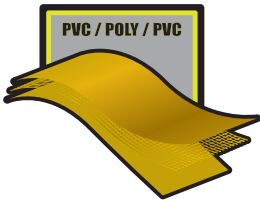

ANSI/ISEA 107-2015 Class E Standards:
 Background requirement: 465sq" s
 Reflective Requirement: 108sq" s
 Class E Pants, when combined with a Class 2 Garment create a Class 3 Ensemble.

Self Extinguishing Treated Fabric
 Synthetic Material Treated to be Self Extinguishing. Self Extinguishing performance determined utilizing ASTM D6413 with criteria of <2.0 second flame out and <6" Char Length. This garment should never be used where risk of arc flash or Flash Fire hazards maybe present.

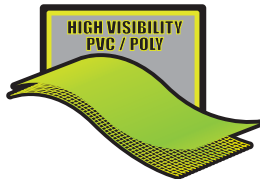

FABRIC ICONS

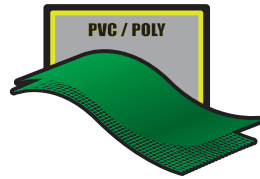

Polyester Scrim provides added stability between two layers of Self-Extinguishing PVC for industrial strength at an affordable price.

APPLICATIONS: Construction, General Purpose, Food Processing

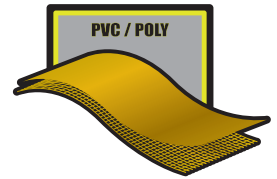

High Visibility PVC Exterior which provides visibility and long-lasting results with a polyester interior that adds dependable protection.

APPLICATIONS: Petrochemical, Chemical Applications, Environmental Clean-Up

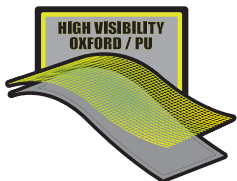

Heavy Duty for protection in hazardous conditions which require extra performance, yet soft and flexible for comfort.

APPLICATIONS: Petrochemical, Chemical Applications, Environmental Clean-Up

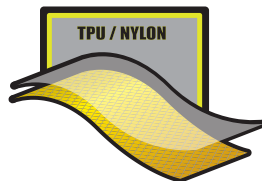

PVC Exterior and Polyester Interior provide a general purpose level of defense for shielding against harsh environments.

APPLICATIONS: Petrochemical, Chemical Applications, Environmental Clean-Up

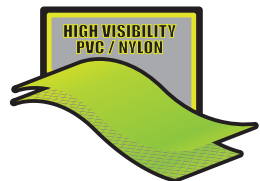

High Visibility, Abrasion Resistant exterior that is lightweight and weatherproof with a PU interior coating.

APPLICATIONS: General Purpose, Construction, Municipalities

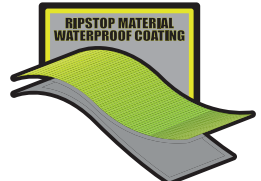

Comfortable, flexible and lightweight TPU exterior provides industrial strength protection from hazardous environmental conditions.

APPLICATIONS: Food Processing, Sanitation Clean-Up Applications

High Visibility PVC Exterior for resistance against the elements with the added strength of a lightweight Nylon interior.

APPLICATIONS: Construction, Municipalities, Telecommunications

High Visibility, Rugged and Abrasion resistant exterior with a waterproof, breathable coating interior for added comfort.

APPLICATIONS: Construction, Municipalities, Telecommunications

THE LEADER IN HIGH VISIBILITY

Radians' unwavering commitment to preventing struck-by accidents is evident in the breadth of products developed for Fire, Law Enforcement, emergency response, construction, transportation, fixed industry, and other specialty markets.

- Trusted Brand
- Worldwide Marketing Support
- Premium Designs

- Leader in High Visibility
- Obsessive Quality
- Innovative Solutions

STANDARDS & TESTING

ANSI/ISEA 107-2015 STANDARD:

Numerous workers in a wide range of applications are exposed to hazards resulting from low light conditions. ANSI/ISEA 107-2015 is the safety standard for design and specification of protective clothing intended to help protect workers from "struck-by" hazards.

Type R HVSA provides high visibility protection for workers who require greater visibility under inclement weather conditions, when backgrounds are complex and when tasks divert attention from traffic.

Type P HVSA provides additional options for emergency responders, incident responders and law enforcement who have competing hazards or require access to special equipment.

ANSI/ISEA 107-2015 Type R Class 2 Standards:
Background Fabric: 775 Square Inches
(540 Sq In - Small Sizes)
Reflective Material: 201 Square Inches Minimum
Reflective Width: 1.37 Inches

ANSI/ISEA 107-2015 Type P Class 2 Standards:
Background Fabric: 450 Square Inches
Reflective Material: 201 Square Inches Minimum
Reflective Width: 2 Inches

ANSI/ISEA 107-2015 Type R Class 3 Standards:
Background Fabric: 1240 Square Inches
(1000 Sq In - Small Sizes)
Reflective Material: 310 Square Inches Minimum
Reflective Width: 2 Inches

ANSI/ISEA 107-2015 Type P Class 3 Standards:
Background Fabric: 775 Square Inches
(540 Sq In - Small Sizes)
Reflective Material: 310 Square Inches Minimum
Reflective Width: 2 Inches

Type O is intended to enhance conspicuity for workers in occupational environments which pose struck-by hazards from moving vehicles, but which will not include exposure to traffic on public access highways or roadway temporary traffic control (TTC) zones.

ANSI/ISEA 107-2015 Type O Class 1 Standards:
Background Fabric: 217 Square Inches
Reflective Material: 155 Square Inches Minimum
Reflective Width: 1 Inch Split

CUSTOM IMPRINTING

AVAILABLE FOR ALL SKUS

MATERIALS

SOLID POLYESTER

Solid woven polyester high visibility material to provide extra durability.

MESH POLYESTER

Mesh polyester high visibility material to provide extra breathability.

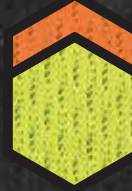

HYDROWICK JERSEY

Feels like cotton! Hydrowick moisture management. 5.6 oz 100% polyester lightweight and comfortable. Compliant to 50 washes.

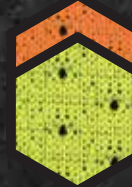

HV-43 RIPSTOP

Solid woven polyester high visibility material with reinforced grids to provide extra durability.

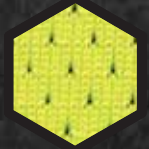

BIRDSEYE MESH

Maximizes airflow to quickly evaporate moisture. Enhanced fibers pull moisture away from the skin to keep you comfortably dry.

ORIGINAL BREEZELITE

Cool Mesh with PFM technology and high wicking moisture management. 100% polyester. Certified to 75 washes.

ULTRA BREEZELITE II

Poly/Spandex comfortable cool mesh. High Performance. High Quality Premium Fabric. Permachill Permanent Wicking. Certified to 75 washes.

REFLECTIVE TAPE

SEGMENTED: Provides Extra Comfort and Moveability

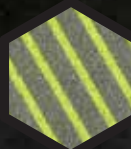

LAMINATED: Provides Extra Comfort

SEWN ON: Provides Maximum Durability

FR 5535

Laminated 2" Comfort Trim Segmented Reflective Material for FR Vests & T-Shirts.

5510

Laminated 2" Comfort Trim Segmented Reflective Material.

FR 8735

Laminated 2" Fire Retardant Reflective Material for FR Vests & T-shirts.

8712

Laminated 2" Reflective Material. Most Popular Tape.

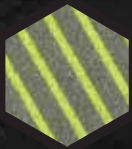

FR 8935

Sewn On 2" Fire Retardant Reflective Material for FR Vests.

8906

Sewn On 2" Reflective Material for Vests.

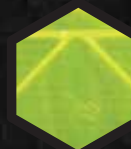

5530

Industrial Laundered Laminated 2" Comfort Trim Segmented Reflective Material.

9720

Laminated 2" Reflective Material for T-shirts. Industrial Laundered.

PRISMATIC

High Gloss Prismatic Tape Available in Silver, Lime, or Orange.

DEWALT

GEAR™

FLAME RETARDANT

FR OVERVIEW: ASTM F1506 Inherently Flame Retardant Material:

Standard Performance Specification for:

- Apparel for use by Electrical Workers exposed to momentary electric arc and related thermal hazards.
- ASTM F1506 uses vertical flame test ASTM D6413 to determine flammability.
- Fabric must self extinguish in less than 2 seconds after flame has been removed.
- Char length must be less than 6 inches.
- No melting or dripping can be observed.

ASTM F1506 was developed for fabric intended for NFPA 70E standards and applications requiring arc rating greater than 4.0 cal.

NFPA 70E HRC Hazard Risk Category Levels:

HRC level is determined by the minimum amount of calories per square centimeter (ATPV or Cal/cm²) a treated garment must pass through with a 50% probability of a 2nd or 3rd degree burn occurring, thus the protective level of the treated clothing. The higher the ATPV, the higher the HRC level attained, the greater the protection.

Hazard Risk Category	Common FR clothing at this level	Min ATPV (Cal/cm ²)
HRC 1	FR shirt and FR pants; Or FR coveralls; Single base layer of FR protection	4
HRC 2	FR under garments (undershirt, underwear), FR shirt, and FR pants; FR under garments, FR coveralls; 2 or more layers of FR protection	8

HIGH VIS

Inherently Flame Resistant (IFR) - ASTM 1506

- Inherently more difficult to ignite than normal clothing.
- FR properties introduced during the initial stages of fiber formation.
- Flame resistant for the life of the fiber / garment.
- Flame resistance is not altered by variations in laundering conditions or environment.

Flame Resistant Fabric / Clothing - Intended to Provide a Range of Protection

- Reduces exposure to flame.
- Create barrier to heat.
- Resistant to breaking open when exposed to flame.

SV92

BASIC MODACRYLIC FR CLASS 2 VEST

Sizes: M, L, XL, 2X, 3X, 4X, 5X

- Hook & Loop Closure
- Available in Hi-Viz Orange and Hi-Viz Green
- 6.2 oz. Modacrylic Aramid Blend
- 3M[®] Scotchlite[™] FR Reflective Tape
- Meets ASTM F1506
- Fabric Certified to ANSI 107-2015
- Retro Reflective Material Certified to ANSI 107-2015
- ARC Rating 5.5 Cal/CM²
- 50 Wash Max

FOR SE D6413 VESTS, PLEASE REFER TO PAGE 16.

GlenGuard[®] Hi-Vis - Modacrylic

- Primary material for hazards requiring IFR and ANSI 107.
- All components are IFR and will last the life of the garment.
- Meets ASTM 1506 after 50 launderings.
- Meets ANSI 107 - 2015 after 50 launderings.
- Protected by 4 US patents.

GEAR™

HEATED WORK GEAR

Powered by 20V MAX* or 12V MAX* batteries, **DEWALT HEATED JACKETS** provide hours of warmth and comfort when the temperature dips. Constructed from heavy-duty materials, these jackets stand up to tough jobsite conditions and are stylish enough to wear around town.

3-Zone Up to 7 hours of runtime on low setting using the 20V MAX* compact 1.5 Ah battery.

2 USB POWER PORTS FOR CHARGING PORTABLE ELECTRONICS

4-Zone Up to 5.5 hours of runtime on low setting using the 20V MAX* compact 1.5 Ah battery.

INCLUDES BATTERY FUEL GAUGE

PROVIDE HOURS OF CORE BODY WARMTH AND CONTINUOUS HEAT

LED CONTROLLER OFFERS 3 TEMPERATURE SETTINGS WITH PRE-HEAT FUNCTION

DURABLE WIND RESISTANT OUTER SHELL. SELECT STYLES ARE ALSO WATER RESISTANT

* With respect to 20V MAX*, maximum initial battery voltage (measured without a workload) is 20 volts. Nominal voltage is 18.
 * With respect to 12V MAX*, maximum initial battery voltage (measured without a workload) is 12 volts. Nominal voltage is 10.8.
 **Actual run time varies depending on battery type and heat setting

RADIANS®

HEAD PROTECTION

ANSI/ISEA Z89.1-2014

1. Class E (Electrical) - Previously Class B - Designed to reduce danger of contact with high voltage sources and is proof tested to 20,000 volts.

2. Class G (General) - Previously Class A - Designed to protect against contact with low voltage and is proof tested to 2,200 volts.

3. Class C (Conductive) - Does not offer protection against contact with electrical conductors.

TYPE I (Top Impact):

- Reduces the force of an impact to the top of the wearer's head.

TYPE II (Top and Lateral Impact):

- Reduces the force of an impact to the top and sides of the wearer's head.

Impact Energy Attenuation

Measures helmet crown's capability to reduce the force of an impact from falling objects to the top of a wearer's head.

Apex Penetration

Measures helmet crown's capability to resist penetration.

Flammability

Measures the resistance to burning or combustion when exposed to an ignition source.

Electrical Insulation

Measures electrical shock resistance capability of helmet. Helmet Types I & II:

**STAY WARM.
STAY SAFE.**

The Nordic Blaze™ line includes HARD HAT LINERS and a 3 IN 1 BALACLAVA DESIGN that easily converts into a neck gator or face shield.

DESIGNED TO KEEP YOU WARM IN COLD AND HARSH ENVIRONMENTS.

The ergonomically designed line includes several features and options for added warmth, comfort, and protection. These features include breathable mesh for heat exhaust distribution, chin strap for stability while wearing hard hats, hook and loop that easily attaches to internal hard hat system and shoulder length hard hat liners for added head and neck protection.

THERMAL BALACLAVA

RWL22SE

3-in-1 Design

Balaclava - Face Shield - Neck Gator

Nordic Thermal Fleece

for added warmth and comfort

Ergonomic Design

to combat wearer fatigue

Improved Fit

works perfectly under hard hats

Garment is made from Polyester. Treated to be Self-Extinguishing as defined by ASTM D6413 (<2.0 s flameout / <6" Char Length). This garment should never be used where an arc flash or flash fire hazard is present. Self Extinguishing: will burn if exposed to flame, but will not continue to burn after the source of ignition is removed.

SHOULDER LENGTH THERMAL HARD HAT LINER

RWL17

Inner Nordic Fleece Thermal Liner keeps in heat
Quilted Outer Layer blocks out chilly weather
Hook & Loop Neck Closure for added protection
Hook and Loop attaches to internal hard hat system
Extended Ergonomic Design for head and neck protection

THERMAL HARD HAT LINER

RWL19

Lightweight Ergonomic Design allows for added comfort
Hook and Loop attaches to internal hard hat system
Chin Strap for stability while wearing hard hats
Dual Layer Liner provides added warmth
Outer Layer blocks out wind
Inner Nordic Fleece Thermal Liner allows for added comfort

 **COOLS BODY TEMPERATURE**

 **MOISTURE MANAGEMENT**

Combat Heat Stress & Fatigue with an Intense Cooling Experience

WARNING SIGNS of HEAT STRESS:

- *Throbbing Headache*
- *Nausea*
- *Fainting*
- *Lack of Thirst*
- *Increased Heart Rate*
- *Difficulty Focusing*
- *Irritable*

OSHA lists temperatures over 91 as a moderate risk and advises to implement precautions that reduce heat stress.

If your work, lifestyle or sport activities expose you to high levels of heat, protect yourself against heat stress with Arctic Radwear™ cooling products by Radians®.

Radians Arctic Radwear™ cooling products are made with Advanced ARCTIC™ Technology that accelerates the evaporative cooling process to combat heat stress. Just soak in water for 2 - 3 minutes and then experience cooling relief for up to 5 hours. The Arctic Radwear™ products are designed to keep you cool during hot outdoor activities, such as construction work, tough workouts, or any strenuous activity.
