

FLOOR CARE

LOW FOAM ammoniated STRIPPER

Specially formulated for use in
automatic floor scrubbing machines

Removing floor finish is easy with this stripper because it utilizes the time proven ingredient of ammonia. This concentrated product aggressively removes water emulsion floor finishes, waxes and sealers. It rapidly penetrates and breaks down multiple layers of detergent resistant, metal-interlocked, polymer floor finishes. The finish is emulsified and is easily removed with a wet-vac. In dilution, this product is safe to use on all resilient and non-resilient surfaces.

Features	-	Related Benefits
Fast acting emulsifier	-	Easy to use
Water based ammoniated stripper	-	Powerful
Low foaming	-	Easy pick-up
Use on traditional finishes and sealers	-	Versatile

Areas of Use -

- Use on resilient and non resilient floor finishes
- Restaurants, hotels, motels, offices
- Hospitals, nursing homes, doctors offices
- Schools, universities, child care centers
- Grocery stores, malls, retail stores

To Use -

Use 9 ounces stripper to 1 gallon of water (9:15). Apply with mop or floor machine. For fastest removal of wax or finish, use floor machine and abrasive pad. Use stronger dilution up to 1 part stripper to 3 parts water for areas with multiple coats of finish. Pickup soiled scrubbing solution with mop or wet vac. Rinse floor thoroughly before refinishing. **For applications, see label for complete directions and use only as directed.**

Specification Data

Available Sizes - 4/1G	Physical State - Liquid
Color - Clear Purple	Fragrance - Ammonia
Ammoniated - Yes	Corrosive - No
Specific Gravity - 1.012	pH - 12.90
