Canadian Headquarters
Sealed Air - Canada
3755 Laird Road
Mississauga, Ontario L5L 0B3
Phone: 1-800-668-7171

2. EXEMPTION STATEMENT

This product is considered an "article" under OSHA's regulations at 29 CFR §1910.1200(c). Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees. SDSs are not required for articles in accordance with OSHA's regulations at 29 CFR §1910.1200(b)(6)(v). In Canada, WHMIS-controlled products are regulated under the Hazardous Products Act (HPA) and associated Hazardous Products Regulations (CPR). Section 13 of the HPA requires suppliers to transmit SDSs to customers. However, this product is classified as non-hazardous, is not WHMIS-controlled under the HPA, and does not require an SDS to be transmitted. You may be sure that every effort is made to provide customers with a product which is properly labeled and safe for its intended use. It is the user's responsibility to determine safe conditions for use of this product and assume liability for loss, injury, damage or expense resulting from any misuse of the product.
