

# Suma<sup>®</sup> Break-Up<sup>®</sup> II D3.5

Heavy Duty  
Foaming  
Grease-  
Release  
Cleaner

General purpose, solvenated degreaser suitable for manual cleaning of all heavily soiled surfaces in the kitchen.

## Features

- Foam away fats, oils, grease, dirt, grime, soap scum from walls, floors and equipment

## Benefits

- Cuts fast through fats, grease and tallow
- Heavy Duty foam clings to surfaces

## Applications

- Use to clean and degrease hoods, filters, other stainless steel surfaces, floors, walls, and other kitchen surfaces
- For use in food preparation environments such as supermarkets, restaurants, butcher shops and food processing plants

# Suma® Break-Up® II D3.5

## Heavy Duty Foaming Grease-Release Cleaner

### Use Directions

#### Cleaning Hoods, Filters, Other Stainless Steel Surfaces, Walls, and Other Kitchen Surfaces

- Dilute 1.5–8.0 oz. per 1 gallon (11.7–62.5 mL/L) depending on soil level.

#### Spray Foam Cleaning

- Pour Suma® Break-Up® II D3.5 cleaner into Break-Up® kit container or ensure its proper connection to the Time-Mizer™ wall-mounted unit.
- Apply foam liberally to all washable surfaces.
- Allow foam to cling for at least five minutes, but do not allow foam to dry.
- Rinse all surfaces thoroughly with potable water.

#### Mop and Bucket

- Dilute 6 oz. of cleaner per gallon of hot water (1:20).
- Using a mop or sponge, apply product liberally to the surface.
- Allow product to penetrate soil.
- Scrub with brush or floor machine as necessary.
- Pick up solution with mop, rinse with potable water.

#### Soak Cleaning

- Dilute 6 oz. of cleaner per gallon of hot water (1:20) into bucket or sink.
- Soak parts, use brush or sponge as necessary.
- Immerse parts in potable rinse water.
- **NOTE:** When cleaning floors, position “wet floor” signs around area to be cleaned. Exercise caution as wet surfaces may be slippery.

#### Surfaces

- If necessary, prescrape surface to remove gross soils. Allow surface to cool to room temperature.
- Dispense proper strength solution of product in a bucket or spray bottle if diluting product.
- Spray or spread diluted product onto surface and allow to stand for several minutes. Do not allow surface to dry. Reapply product if necessary.
- Wipe surface with a cloth. Repeat as necessary until surface is clean.
- Rinse thoroughly with water.
- After rinsing, non-food contact surfaces may be wiped dry or allowed to air dry. If the surface is a food contact surface, sanitize the surface per federal, state, and local health requirements and allow to air dry.

#### Floor Cleaning

- Sweep floor.
- Fill mop bucket with proper strength solution of product.
- Post “wet floor” signs and using a clean mop, apply the cleaning solution generously to the floor, overlapping mop strokes. Allow the product to penetrate and lift soils. For best results, scrub floor with a brush, especially if the floor has grout.
- Pick up soil and excess cleaner with a tightly wrung out mop, wringing it out frequently, or squeegee to floor drain. Rinse or damp mop floor clean. Dry mop or squeegee floor dry before reuse. Once dry, remove “wet floor” signs.
- **For Food Plant Use:** All food contact surfaces must be thoroughly rinsed with potable water after treatment with this product. Avoid contamination of food during use or storage.

### Product Specifications

Description	
Certification	Kosher, NSF, Halal
Color/Form	Clear yellow, liquid
pH	12.5 (Concentrate) 12.4 (Use Dilution 1:16)
Scent	Solvent
Shelf Life	2 years

### Available Items

SKU Code	Description/Package Size	Dilution
95499058	4 x 1 gallon / 3.78 L Containers	1:20, 1:16–1:85

### Safety Reminder

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use, and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDSs are available on-line at [www.sealedair.com](http://www.sealedair.com) or by calling 888 352 2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up to date shipping information.
