

MAXIM[®]

HCL Disinfecting Bowl Cleaner

Features:

Disinfects

Deodorizes

Virucidal

Description

This product is an acid disinfectant bathroom toilet bowl cleaner, especially formulated to kill many germs* commonly found in hospital and industrial environments. This product may be used on washable hard, non-porous surfaces such as: Shower stalls, shower doors, curtains, bathtubs, glazed tiles, chrome plated intakes, toilets, toilet bowl surfaces, urinals, portable toilets, glazed porcelain and plumbing fixtures.

Directions

Disinfection/*Virucidal Directions:

- 1 Apply 1 to 2 ounces to hard inanimate, non-porous surfaces thoroughly wetting surfaces with a cloth, mop, sponge or sprayer.
- 2 For heavily soiled areas, a preliminary cleaning is required.
- 3 For sprayer applications use a coarse spray device.
- 4 Allow surfaces to remain wet for 10 minutes.
- 5 Spray 6-8 inches from surface.
- 6 Rub with brush, sponge or cloth.
- 7 Do not breathe spray.
