

# MAXIM<sup>®</sup>

## High Temp Rinse Additive

### Features:

*Highly Concentrated*

*Easily Dispensed*

*Low Foam Surfactant and No Silicone Defoamers*

### Description

This product is a liquid concentrate that is added by rinse injector to the final rinse water of a dishwashing machine. Formulated for use under a variety of conditions, this product also works in conjunction with most automatic dispensing equipment.

This product effectively reduces the surface tension of water, so that instead of spotting the water runs off, leaving dishware dry and clean.

### Directions

- 1 Follow the equipment manufacturer's instructions for injecting into your dish machine.
- 2 Use requirements will vary depending on type of machine and water conditions.
- 3 See your warewash specialist for specific use requirements.
- 4 As a starting point, use 0.5 oz. of product per 10 gallons of water.

### Applications

#### Increases rinse efficiency for:

- > High temp dishmachines
- > Low temp dishmachines
- > Most automatic dispensing equipment

### Specifications

Color .....	Green
Fragrance .....	None
pH Range .....	3.0 - 3.5
Dilution .....	0.5 oz./10 gal.
Density .....	8.45

### Packaging

4/1 gallon	334000-41
5 gallon	334000-05
