# HAND SANITIZING ALCOHOL FREE WIPES

## HAND SANITIZING ALCOHOL FREE WIPES

*Wet Wipes for Every Surface*

**WipesPlus® gently cleans while killing germs.**

We touch surfaces and one another, making us both human and potential carriers of germs and bacteria. Running to a restroom to wash hands before and after each touch is not convenient, but providing Hand Sanitizing Wipes is a more effective and efficient way to kill germs.

The FDA approved, water based formula kills 99.9% of germs without potable water. Our convenient wet wipe is far more effective than a hand sanitizing gel because it cleans the hands while it sanitizes.

Beyond killing germs, our wipes are lint free and gentle to the touch. Aloe Vera is used to moisturize the skin and create a pleasant scent, which encourages frequent use thereby lowering the risks of cross contamination.

To encourage use, we recommend placement in convenient locations such as:

- Hospitals, Ambulatory Care Centers, Nursing Homes
- Supermarkets
- Day Care Centers, Nursery Schools, Senior Centers
- Schools, Universities, Libraries
- Spas, Hotels & Resorts, Fitness Centers
- Offices, Call Centers, Waiting Areas
