

# PRODUCT SALES SHEET

## A00317 Foam & Fabric Spray Adhesive

## Adhesives & Sealants

### Features

- Nonchlorinated Web Spray Formula with Medium Solids
- Fast Tack, Quick Adhesion for Temporary or Permanent Bonds
- Waterproof & With Orange Coverage Indicator
- Flexible & Non-Dimpling
- Hexane Free Formula

### Description

This product is specially formulated for the needs of the professional upholsterer. The product combines a super high solids, orange dyed adhesive with a wide web spray for positive control of coverage and application and minimal overspray. Fast tack and high bond strength enable users of the product to maintain speed during assembly without waiting excessively for adhesives to set. The waterproof and flexible adhesive is nondimpling and will remain in place after years of service without compression. The super high solids formula will yield maximum coverage in a production adhesive. Ideally suited for bonding urethane or latex foam to themselves or to other materials such as metal, plastic, fiberboard, wood, and more. In addition, this product is made without using chlorinated solvents, ozone depleters, or carcinogens.

TECHNICAL INFO:		
Physical Properties	Appearance	Web Spray
	Color	Straw
	Odor/Fragrance	Ketone
	pH	N/A
	Spray Pattern	Web
Environmental Profile	Glycol Ether Content	No
	Biodegradability	No
	Chlorinated Solvents	No
	Green Status	None
	Recyclable Packaging	Yes
Regulatory Compliance	% VOC By Weight	54.9
	VOC Restricted Regions	None
	Food Processing Suitability	N/A
	EPA #	N/A
	Flammability per CPSC	Extremely Flammable
	NFPA Code 30B Storage Level	3
