Repositionable Self-Adhesive Technology

HOPAX

ISO9001:2008

Company Profile

Since it was founded in 1975, Taiwan Hopax Chemicals Co. has been a specialty chemicals manufacturer for high-tech industry. In order to continue its success in providing VALUE products and services in specialty and fine chemicals throughout the world, Hopax allocates more than 7% of its revenue for developing advanced technologies and innovative products.

The endless efforts have paid off handsomely, for example, HOPAX has successfully developed several new business divisions through the effective integration of its own technologies. Hopax have developed over 150 new products in the last ten years, which are distributed by three divisions:

1. Fine Chemicals (for bio-technologies, colour imaging, pharmaceutical and electronic industries).
2. Paper Additives and Water Treatments.
3. Stick'N Repositionable Self-stick Products.

More than 20 patents in most of the major global markets now cover the innovated products. All the divisions are now able to operate according to ISO-9001 and ISO-14001 standards. In year 2000, the Taiwan Government honoured Hopax as one of the top 30 best performance related industrial companies in Taiwan, for its excellent performance in "Technology Innovation", "Automation Production", "Quality Assurance", "Environmental Control" and "Global Competitiveness". We work hard to deliver the values of INNOVATION, QUALITY, SPEED and FLEXIBILITY. Hopax, like a growing tree, has been enjoying high growth rates during the past five years. We appreciate all the support from our business partners and we really like to invite all our partners to share the VALUE we can deliver and to enjoy success with us.

Innovation Leader in new products development

Stick'n Brand Story

**Based on a strong backbone of knowledge
the fundamental essence of Sticky Notes**

HOPAX is renowned for being an expert in paper-making chemicals, with a long history of providing a full range of chemical solutions for our customers' paper mills, in response to various paper manufacturing requirements. This is the foundation stone for creating the future development of Stick'n repositionable notes.

"Gaining a thorough understanding of the characteristics of different types of paper became one of our major competencies. In addition to that, our knowledge of chemicals, with our core competence in emulsion polymerization adhesive technology, enabled us to achieve the perfect combination of paper and adhesive; thus, the creation of Stick'n sticky notes!" said Dr. Alex Kuo, the CEO of HOPAX.

New Identity and Value

For the past 28 years, Stick'n has built a solid foundation by offering a variety of innovative self-stick products to our customers. In 2011, we moved forward with the renewed energy and confidence that the fresher, more modern and colorful Stick'n logo visually represented. We developed our commitment to our new slogan, "Sticking Close to You," which reflects the essence of the brand promise: to provide creative products which can change how we live our lives, as they become little assistants, helping people to enjoy more wonderful and convenient ways of communicating messages to one another.

The rebranding not only conveyed the Stick'n values to customers, but also successfully increased sales to our global business partners, as a result of higher brand awareness.

Innovate with Stick'n

Stick'n is well recognized as one of the most innovative partners for many of our customers when they aim to grow their business. Stick'n established this presence by insisting on inventing at least three new products annually since 1987. Film Index and Clearnotes™ were the first of many breakthroughs in extending paper-based sticky notes to transparent and writeable plastic material. Self-stick Infoboard™ changes our perception from notes that are sticky, to creating a surface that something can be stuck on to. "Penfree" Notes provide a note that does not require a pen!

Over time, Stick'n has developed from modest beginnings to become the second-largest sticky notes manufacturing company in the world, with the reputation of "always offering something new".

Join Us

We are dedicated to bringing more innovative products to consumers and customers, with continuous quality improvements. In addition, our Partnership Marketing Service Development Program has been developed to provide support to our distributors worldwide. Many of the Stick'n partners have used the marketing materials that we have created to achieve a higher sales; this set of versatile tools enhance communications to consumers.

With the best interests of our customers at heart, we are poised to fulfill your needs, today and in the future. We welcome you to join us.

12 Zodiac Animals new

TWELVE ZODIAC ANIMALS

The twelve animals of the zodiac is the most well-known Chinese myth. Each animal is assigned by year. According to the legend, the Jade Emperor ordered a race to assign calendar signs and the first twelve to arrive first would be selected. The first in the rank is a Rat and the last is a Pig. Not only in China, the legend of the twelve zodiac animals is also popular in several East Asian countries.

Paper cutting can be traced back a thousand years in China, yet it remains as a beloved element of decoration. The twelve animals of the zodiac is one of the most popular themes of papercutting, alongside other legends.

HOPAX

Film Index

Originally from HOPAX

Back in 1998, there was a very creative scientist working in the HOPAX lab who dealt with hundreds of pages of technical data and reports on a daily basis. He was struggling to keep his notes and documents better organized while he was working in the office or when he was travelling.

At the time, Pop-up flags made page marking easier and very helpful in the management of his documents. However, he strongly felt that with the dispenser attached, Pop-up flags were very inconvenient to carry around. "How could I make a dispenser-free film index, so that it would be more convenient to use and be environmentally friendly?"

His desire for a better solution motivated him and a group of experienced engineers in Hopax to create the design and quality specifications of the first film index, which has become the world standard today. Unlike Pop-up flags with a dispenser attached, film index is thinner and portable. And its function isn't limited to indexing and labeling. Film index is also a great aid for highlighting.

Film Index is one of the most popular and successful items in the world's re-positionable product history. Until now, the number of Film Index we've sold could take us to the Moon and back 8 times!
