

New Sharpeners

Swordfish

Dual Power

Code 40098

Battery and mains operated. This dual power Swordfish sharpener comes complete with cable and plug for mains usage, but also works on 4x AA batteries. It's petite size means this elegant sharpener fits discreetly on any size desk. Mains for heavy usage, battery power for portability – the choice is now yours!

FEATURES

- Safety cover over pencil insert
- Strong, long-lasting helical blade
- For 8 to 11mm diameter pencils
- Auto stop when pencil tip is sharp

Mains Operated Vertical

Code 40096

Designer flair for the home and office. This sleek and trendy powerful sharpener will add instant interest to all working environments. The vertical design does not only support the sharpening process through gravity, it also helps to save space on your desk.

FEATURES

- Auto On / Off
- Effective thermal cut-out system
- For standard (8mm) diameter pencils
- Strong sharp helical blade

Sharpeners 2006/2007

A Sn@pake Brand

The Swordfish range of pencil sharpeners has been designed to meet all needs – from the simplest everyday sharpener to the most sophisticated tool for professionals. The most important element of a pencil sharpener is its blade. The Swordfish blade therefore has been engineered from the highest quality steel to ensure precision sharpening.

Swordfish sharpeners are stylish in design and reliable in function to give your pencil the point you require.
