#### Standard disclaimers

All Specifications subject to change without notice. All brand and product names are trademarks of their respective companies.

#### Footnotes:

- Foomores: (1) Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.
- <sup>[2]</sup> The fastest speed in Hi-Speed USB on Windows PC. Transfer time to computer is not included.
- Included. Connecting the bundled USB cable to the port corresponding to USB3.0 and above on PC. Color document scan speed: (Color A4 300dpi) is measured with ISO/IEC 29183 Target-A. Color photo scan speed: (4\*x6\* 300dpi) is measured with ISO//ISC 10000 1000 1000 1000 1000 10 SCID No.2. Scan speed indicates the time measured between pressing the scan button of the scanner driver and the on-screen status display turns off. Scan speed may vary depending on system configuration, interface, software, scan mode settings and document size etc.
- [4] Increasing the scanning resolution will limit the maximum possible scanning area. Preprocessing time is not included.
- [6] Internet connection or CD-ROM drive is required to install the software for Windows. Internet connection is required to use all the user's guide.
- TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager comes with the operating system.
