

GBC Ultima 35 EzLoad™ A3 Laminator

The Ultima 35 EzLoad™ A3 laminator is ideal for schools, busy offices, and environments with high volume lamination requirements. This lamination machine provides versatile, economical and consistently high-quality laminating results. As a heavy duty laminator designed for documents up to A3 width, you can laminate paper of various shapes, sizes, banners, posters and more. With unique Ezload technology, the lamination roll film is simple and quick to load; available in thicknesses from 42.5 to 125 micron. Featuring a fast warm-up time, the laminator will be ready to use in just 90 seconds.

Attributes

- Unique EzLoad™ technology makes loading lamination roll film quick and simple.
- Fast warm-up time; internal heat rollers are ready to laminate in just 90 seconds.
- Laminate ad hoc shapes and sizes up to A3 wide.
