

## Responds to your air

SensorPod™ air quality readings are displayed on the illuminated disc. Know when your air is good, moderate or poor and have the peace of mind that your purifier responds accordingly.

● 100+ : POOR

EPA AIR QUALITY INDEX

● 50 - 100 : MODERATE

● 0 - 50 : GOOD

EXPERIENCE THE DIFFERENCE

air purifiers reimagined

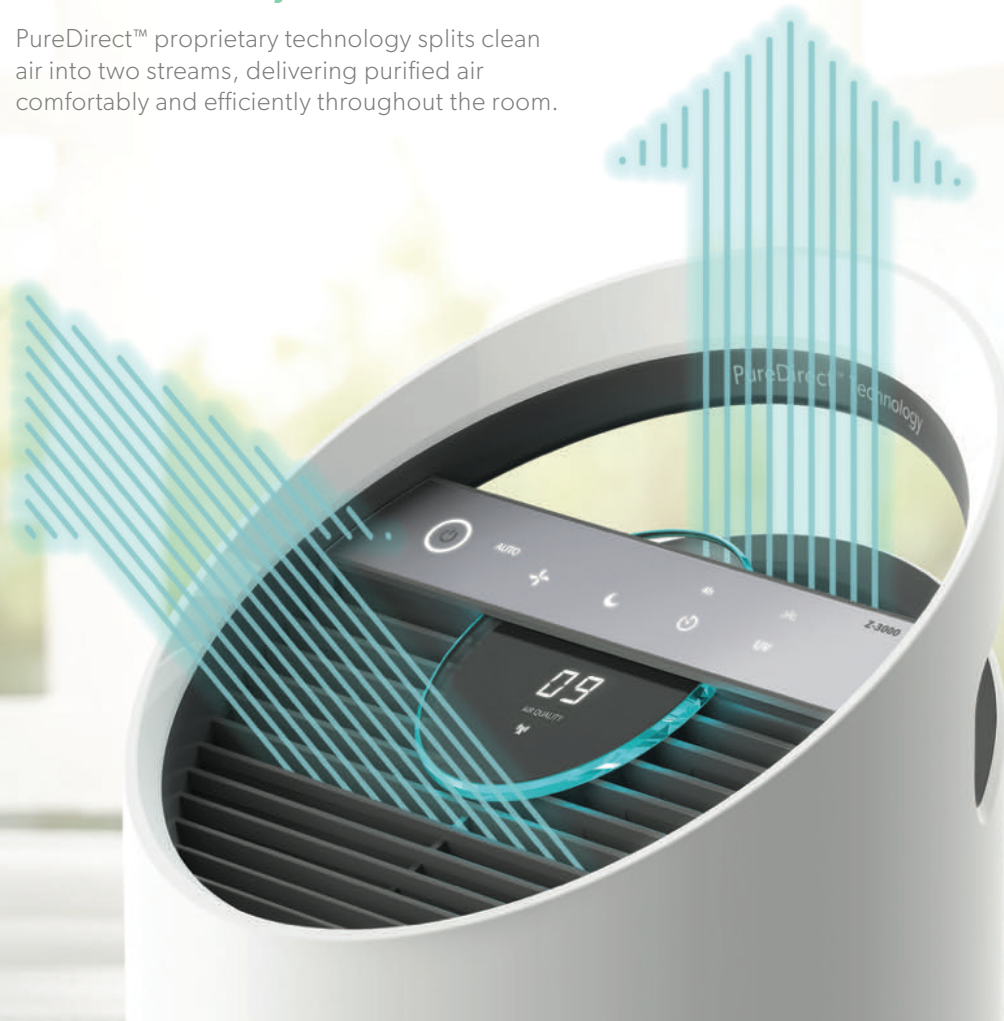

## Senses pollutants

Clean air should be everywhere, not just near the purifier. Placed across the room, SensorPod™ measures pollutants away from the purifier, then communicates with the purifier to ensure the full room benefits from purified air.

## Clean air everywhere

PureDirect™ proprietary technology splits clean air into two streams, delivering purified air comfortably and efficiently throughout the room.

## Captures and destroys pollutants\*

360 degree DuPont™ filtration captures pollutants such as allergens, VOC gases and microscopic particles. UltraViolet sterilisation destroys germs and viruses that can build up on the filter, preventing re-circulation of live germs.

WASHABLE PREFILTER

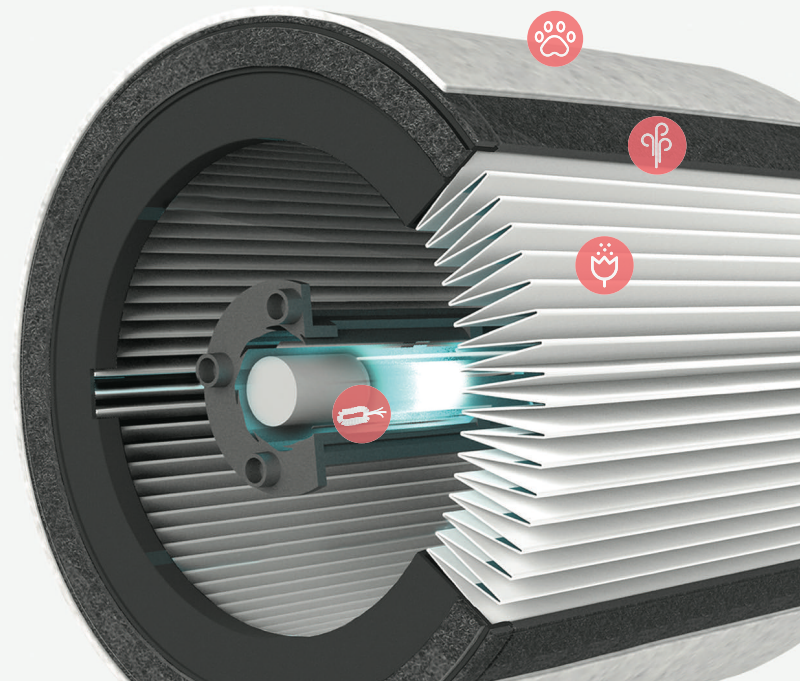

CARBON FILTER

HEPA FILTER

UV STERILISATION

\*In laboratory testing, UV lamp killed >98.8% of Staphylococcus aureus and Pseudomonas aeruginosa.

Note: Features differ from model to model. Refer to chart for details.
