## Designed for Clarity

The Clarity Active Stylus has been specifically designed for use with ALOGIC Clarity monitors with touch support. The stylus attaches magnetically to the front of ALOGIC Clarity touch enabled monitors to ensure it is always on hand and ready for use. The Clarity Active Stylus is also compatible with Microsoft Surface devices and other touch enabled devices that support MPP protocol styluses.

## Drawing Precision with Palm Rejection and Tilt Sensitivity

With tilt and pressure sensitivity, the Clarity Active Stylus Pen makes sketching, digital painting, annotating or just jotting down notes quick and enjoyable on a Clarity Touch monitor or Microsoft Surface™.

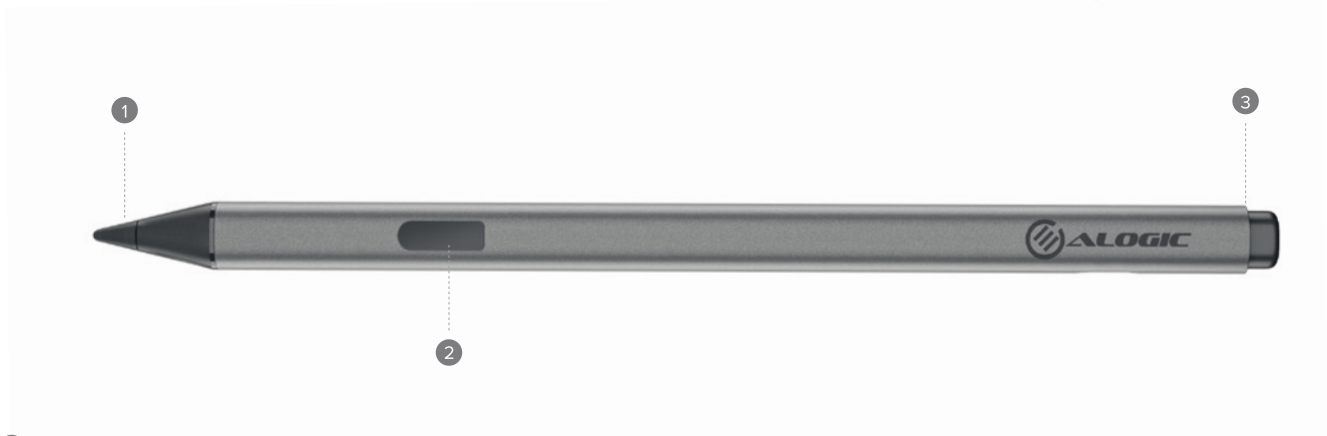

## The Artist's Best Friend

The ALOGIC Clarity Active Stylus Pen provides the ultimate experience for writing, drawing, annotation and more on ALOGIC Clarity touch monitors and Microsoft Surface devices. A perfect aid to creativity, learning and productivity, the design sits perfectly in the hand and is ideal for everyday use.

## Ultra Build Quality

The ALOGIC Clarity Active Stylus Pen is crafted from high quality materials guaranteeing a longer lifespan from daily wear and tear. The pressure sensors in the pens have been tested to withstand 30,000 impressions on a glass screen and the replaceable tips can withstand 5km or more of writing on screen.

- 1 Replaceable tip      3 Eraser  
2 Quick Action Button

### Physical Characteristics
