

GBC TB500 Heavy Duty Thermal Binding Machine

This heavy duty thermal binding machine effortlessly binds documents of up to 500 sheets using a range of GBC Thermal bind covers.

Designed to meet the demands of medium to high volume usage, the GBC TB500 Thermal Binder is designed for medium to high volume usage, and delivers a polished 'perfect bound' finish to documents and presentations. The simple yet intuitive controls feature an auto cut-off function when no document is loaded. With the capability to bind up to 500 x 70gsm A4 sheets at a time or multiple smaller ones simultaneously, this thermal binder ensures efficiency and versatility for professional document assembly. Silver colour.
