

Safescan 55 LED

UV LED Counterfeit Detector.
Powerful. Bright. Convenient.

Protect your business against counterfeits. The Safescan 55 LED offers the brightest UV detection yet. So you can verify banknotes, credit cards, passports, driving licenses, and other identification documents with complete confidence. A truly powerful detector that - thanks to the automatic motion sensor - is always ready when you need it.

UV counterfeit detection

Energy-saving motion sensor

Compact design

Powered by USB-C

- Counterfeit detector with powerful UV detection
Illuminates hidden ultraviolet features
- Verifies banknotes, credit cards, passports, driving licenses, and other identification documents
- Only turns on when you need it thanks to the automatic motion sensor
- Automatically turns off to save energy
- Compatible with most USB power sources such as computers, laptops, cash registers, and power banks

Three powerful LED lights illuminate the UV features of banknotes.

The bright ultraviolet light helps verify credit cards, passports, and more.

The intelligent motion sensor automatically turns on the lights on and off.
