

MOULD SHIELD

KILLS & PREVENTS MOULD REGROWTH

SCRUBB Mould Shield is a deep-acting fungicidal treatment that kills even invisible mould spores and roots, and forms a long-lasting barrier that prevents mould from recurring on cleaned surfaces.

- Kills mould to the roots
- Prevents mould regrowth
- Leaves a protective barrier

DIRECTIONS FOR USE:

For best results, first remove visible mould spores and staining using SCRUBB Mould Remover, following the label directions. Wipe up excess, rinse (water-resistant surfaces only) and dry the area, then apply SCRUBB Mould Shield, ensuring that the entire area to be treated has been wetted with the cleaner. Leave to dry naturally. Prevent access by children and pets until the area is dry. Repeat application every 6 months, or when mould reappears. SCRUBB Mould Shield may also be used as a regular preventative treatment to guard against the onset of mould in shower enclosures, around windows, in refrigerators (ensure surfaces are dry before food contact), and in garages or damp areas.

Keep out of reach of children. Do not breathe spray. Do not get in eyes, on skin, or on clothing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

INGREDIENTS:

Biocidal Active Ingredient: didecyldimethylammonium chloride [CAS 7173-51-5] 0.3 g/100g.

ROI Poisons Information: For information or to report a poisoning incident contact The National Poisons Information Centre (01 8092166). Use biocides safely and sustainably.

It is illegal to use this product for uses or in a manner other than prescribed on this label.
