Product Installation

Nail free wall mounted

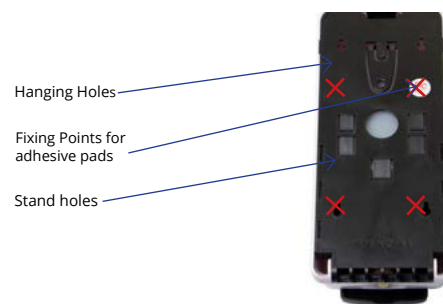

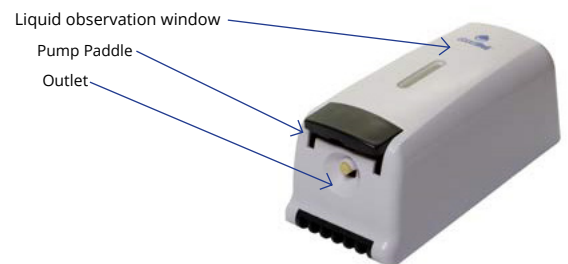

1. Tear off the film from one side of the adhesive pads and stick them in suitable position on the wall.
2. Peel off the film from the other of the pads and fit the dispenser to them, ensuring the pads fix to the fixing points shown in the illustration.

Screw wall mounted

1. Drill holes at a suitable position according to the centre distance of 72mm.
2. Insert screw into plastic expansion sleeve.
3. As shown in image, use screws to attach the dispenser firmly to the wall at the anchor points shown.

Filling the Sanitiser

1. Use the key provided to open the dispenser.
2. Unplug the reservoir top and fill with hand sanitiser.
3. Reinstall the reservoir top and close the front cover.
