

InCharge™ lockers

Secure charging solutions

Product Datasheet

InCharge™ - Secure workplace charging

Lockers are fully portable as a single unit - simply place the unit in a convenient location, plug the unit into a power point and the lockers are ready for use.

With trailing cables, the risk of theft and health and safety issues, finding access to safe and protected power points is a common problem in today's workplace.

In Charge™ Lockers are specifically designed to help overcome this and provide a secure, easy and safe solution.

The range consists of

- Tool Lockers.
- Laptop Charging Units.
- Small Item Lockers.

UKCA/CE marking is a declaration by Whittan that In Charge™ Lockers meet all the appropriate provisions of the relevant legislation implementing certain UK and European Directives.

Lockers have been tested and conform to the requirements of the British Standard for Clothes Lockers BS 4680: 1996 'Standard Duty'.

ActiveCoat antimicrobial technology is incorporated into all our locker products at the time of manufacture, offering constant protection against a wide range of bacteria.

Each compartment is fitted with either one or two standard UK three-pin sockets depending on the locker size.

All doors are independently earthed to the locker body.

Choice of locks to suit different applications.

Power lead is supplied with fitted RCD plug. Lead plugs into the In Charge™ Locker enabling easy replacement of the lead if damaged. Plugs into standard UK domestic supply.

Each shelf has an additional front-to-rear reinforcing box section to strength.

Tool lockers

Designed for use in site cabins on building sites or in locations which have high usage of trades using cordless tools, these lockers keep expensive battery chargers safe.

- Choose from four, six or eight-doors.
- Single or double UK socket in four door locker, single UK socket in six or eight-door lockers.
- Key-operated cam locks fitted as standard. Other locks available, see back page.
- Available in nests of one or two.

Lock options and door colours

Lock options

Standard Camlock
Simple and economical cam lock provides user access with a key. The lock is supplied with two keys and a master key is available.

Standard Latch Lock (Padlock)
Transfers responsibility for locking to the user. The user is required to secure the locker with a padlock (not supplied).

4-Dial Multi-User Manual Combination
This solution is ideal for facilities where keys are not desirable. The lock can be reset whenever the locker is open allowing the combination number to be changed if required. Master key for instant access and no fuss code reset.

Coin return or keep
Ideal when lockers have 'shared' users. The key is released when coin is inserted. Key is captive again when the door is reopened and the coin is returned or retained.
Can be fitted to tool lockers and 4 door small item locker only.

Accessories

Sloping tops for lockers

Sloping tops are essential in hygiene sensitive locations (such as hospitals and the food industry). The slope prevents items and litter being left on locker tops and makes cleaning easier. Sloping tops increase the overall height of the locker.

Standard colours

ActiveCoat antimicrobial technology is incorporated into all our locker products at the time of manufacture, offering constant protection against a wide range of bacteria.

Door colours- Body colour is Light Grey

Light Grey
(RAL 7035)

Electric Blue
(BS 20 E 51)

Dark Grey
(BS 00A11)

Burgundy
(RAL 3003)

Black
(RAL 9005)

Important note regarding locker installations

Wherever possible lockers should be secured to ensure stability. Single lockers should ideally be fixed back to a wall. Runs of lockers should be fixed together side-to-side and either fixed back to a wall or fixed back-to-back to another run of lockers.

Consultation, design & quotation?

At Whittan we design storage solutions every day, and with over 70 years' experience, we have developed a level of expertise for you to draw on.

Our cutting edge Design360 software package, allows us to provide you with a quick, accurate proposal that showcase solutions clearly.

Unlike many specialists who charge for bespoke storage design work, our services provide your ideal storage design free of charge, along with a detailed quotation.

Our experience allows us to work with you, to achieve the optimum solution based on your requirements, to meet your timescale and budget.
