6.2 **Environmental** precautions:

Take precautionary measures against discharges into the environment

- 6.3 Methods and material for containment and cleaning up
- 6.3.1 **For containment:** No specific hazards foreseen
- 6.3.2 For cleaning up:

Vacuum spilled toner while minimising dust formation. If vacuum is used, the motor must be rated as dust tight. A conductive hose bonded to the machine should be used to reduce static build up. Transfer carefully into a sealable waste container. Residue can be removed with cold water and soap. Garments may be washed or dry-cleaned, after removal of any loose toner.

6.3.3 **Other information:** 

None

6.4 Reference to other sections:

Section 8

#### **SECTION 7: Handling and Storage**

7.1 Precautions for Safe Handling:

Handle with care

Use with adequate ventilation

Avoid inhalation of dust and contact with eyes and skin

Keep containers closed when not in use

Keep away from sources of heat, sparks and open flames

7.2 Conditions for safe storage, including any incompatibilities:

Store at room temperature in original container, dry and tightly closed.

Do not store with oxidisers

7.3 Specific end uses:

Never eat, drink or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, using the toilet, or applying cosmetics
