

Test-certificate for DIN 33871-1

The refilled inkjet cartridge

**LC123M,
Art. No. 4111050**

Brother DCP-J4110DW

from

Pelikan

has been tested successfully
and fulfills all DIN 33871-1 criteria.

The yield is **1.2**

The security data sheet is numbered with
29-901_EN

CE Marking

CE Marking (originally EC mark) is a mandatory conformity mark for products sold within the European Economic Area (EEA). CE marking signifies that the manufacturer has ensured that the product meets all the requirements of the applicable EC Directives. The letters "CE" denotes "Conformite Europeenne" ("European Conformity").

We confirm that Toner modules and Ink cartridges are considered as consumables and disposed independently from the relevant printer as these are not, by themselves, capable of any electromagnetic interference in communications of any kind. (Chapter I, Article I, Paragraph 3 of the above mentioned legislation). Therefore the European Directive 2004/108/EC (CE marking) does not apply to these products.

Because of this disposition the Pelikan Toner and Inkjet consumables are in compliance with the EU directive 2004/108/EC.

A handwritten signature in blue ink, appearing to read "Dr. O. Lehmann".
