

Test-certificate for DIN 33870

The refilled toner module

MLT-D1082S, Art. No. 4207289

Samsung ML-1640

from

Pelikan

has been tested successfully
and fulfills all DIN 33870 criteria.

The yield ratio is **1.0**

The toner passed the Ames test successfully.

The security data sheet is numbered with
27-205_EN

Product Certifications

Pelikan cartridges conform to all established international standards. Safety and compatibility with OEM equipment is confirmed by independent authorities.

At the same time Pelikan is continually checking the market for its additional environmental, technical and/or ecological needs. Beside the AMES approved toner powder, roughly 70 toner cartridges are Nordic Swan certified one of the most important certifications in the European market today.

The cartridge

MLT-D1082S
Art. No. 4207289

from
Pelikan

was developed and is manufactured with
high demand on quality and ecology.

CE Marking

CE Marking (originally EC mark) is a mandatory conformity mark for products sold within the European Economic Area (EEA). CE marking signifies that the manufacturer has ensured that the product meets all the requirements of the applicable EC Directives. The letters "CE" denotes "Conformite Europeenne" ("European Conformity").

We confirm that Toner modules and Ink cartridges are considered as consumables and disposed independently from the relevant printer as these are not, by themselves, capable of any electromagnetic interference in communications of any kind. (Chapter I, Article I, Paragraph 3 of the above mentioned legislation). Therefore the European Directive 2004/108/EC (CE marking) does not apply to these products.

Because of this disposition the Pelikan Toner and Inkjet consumables are in compliance with the EU directive 2004/108/EC.

A handwritten signature in blue ink, appearing to read 'Stammbach', enclosed within a thin blue rectangular border.
