Nordic Swan Ecolabel

The Nordic Eco-label, the Swan, shows that the manufacturer has carefully considered long-term environmental programme, involving all the staff and covering the business philosophy.

This environmental programme reduces and optimizes the use of resources, and replaces products with large environmental impact with more environmental compatibles alternatives. As an independent body, the Nordic Swan organisation checks the environmental achievements.

Product Certifications

Pelikan cartridges conform to all established international standards. Safety and compatibility with OEM equipment is confirmed by independent authorities.

At the same time Pelikan is continually checking the market for its additional environmental, technical and/or ecological needs. Beside the AMES approved toner powder, roughly 120 toner cartridges are Nordic Swan certified one of the most important certifications in the European market today.

CE Marking

CE Marking (originally EC mark) is a mandatory conformity mark for products sold within the European Economic Area (EEA). CE marking signifies that the manufacturer has ensured that the product meets all the requirements of the applicable EC Directives. The letters "CE" denotes "Conformite Europeenne" ("European Conformity").

We confirm that Toner modules and Ink cartridges are considered as consumables and disposed independently from the relevant printer as these are not, by themselves, capable of any electromagnetic interference in communications of any kind. (Chapter I, Article I, Paragraph 3 of the above mentioned legislation). Therefore the European Directive 2004/108/EC (CE marking) does not apply to these products.

Because of this disposition the Pelikan Toner and Inkjet consumables are in compliance with the EU directive 2004/108/EC.
