

PROTEQTM

MEDICAL PPE

QUALITY ASSURED

NITRILE GLOVES

- *Ambidextrous glove with textured fingertips for an enhanced grip*
- *Beaded cuff for easy donning and increased tear resistance*
- *Complies with EN 455*
- *AQL 1.5*

Proteqt™ nitrile gloves are designed with a soft, flexible, yet durable nitrile polymer to ensure user comfort and additional safety benefits. The gloves are powder-free and contain no natural rubber latex, making them an excellent alternative for those who suffer with type I allergies.

LATEX GLOVES

- *Low levels of extractable proteins and chemical residue*
- *Excellent tactile sensitivity*
- *Complies with EN 455 and ISO 11193*
- *AQL 1.5*

Proteqt™ Latex powder free examination gloves offer the perfect combination of strength, elasticity, and resistance. The level of comfort and protection ensures the gloves perform well in high risk, heavy-duty situations.

VINYL GLOVES

- *A soft and pliable glove which offers practical protection for a wide range of applications*
- *Ambidextrous glove with beaded cuff*
- *Complies with EN 455*
- *AQL 1.5*

Proteqt™ Vinyl Gloves are powder-free and offer practical protection for many applications. The glove is 100% synthetic and free from latex proteins, yet still offers a high level of tactile sensitivity.

FACE MASKS

- *Certified and tested Type IIR.*
- *As recommended by WHO.*
- *Over 98% moisture resistant filters.*

Proteqt™ three layered disposable face masks are made from soft, comfortable material that help create a physical barrier between the mouth and nose of the wearer to prevent the spread of airborne viruses and bacteria. The middle layer is a melt-blown polymer that acts as the filter between two non-woven layers.

The pleated design allows the user to expand the mask so it fits comfortably over the nose and chin. Plastic nose clip can be adjusted to fit the curve of the face. Elasticated ear loops secure the mask to the head.

Multifunctional CDU

INFECTION CONTROL PACKS

The Proteqt™ Infection Control Pack is a single use kit designed to help reduce the spread of infectious diseases. Each pack contains a 3 ply non-woven face mask, a pair of medical grade disposable gloves and an alcohol hand gel sachet 5ml to limit the three key methods of contagion: Coughs, sneezes, and touch.

Proteqt™ Infection Control Packs are suitable for personal use when travelling between different contact points or for distribution to multiple users in high-volume traffic areas, such as workplaces, hospitality, and retail stores.
