

MSDS

Material Safety Data Sheet

Product - HP 6615

Revised on : 2009.05.31

1. Identification of the substance / preparation and company

2. Composition / Information on ingredients

Chem. Characteristics : Solution of water (Originally Solution), Evaporation rate (Butyl Acetate =1)

3. Hazards

Specific hazards : n.a.

4. First aid measures

After contact with skin : Normally wash with water
After contact with eyes : Normally wash with water

5. Fire-fighting measures

Supplementary advises : Not flammable

6. Accidental release measures

Methods for cleaning / taking up : Normally wash with water

7. Handling and storage

Advice on safe handling : Sweep up and place in a waste disposal container
Supplementary advises for storage conditions : None

8. Exposure controls / personal protection

Protective equipment : None

MSDS

Material Safety Data Sheet

Product - HP 6615

Revised on : 2009.05.31

9. Physical and chemical properties

Appearance : liquid
Colour : BLACK
Smell : None
Flash point : Not applicable
Self inflammable : None
Vapor Density : Not applicable
Solubility in water : Originally Solution
PH-value : 7.0 - 8.5

10. Stability and Reactivity

Hazardous decomposition products : Unstable

11. Toxicological information

Toxicological tests : n.a.

12. Ecological information

Details to elimination : n.a.
Ecotoxic effect : n.a.
Further remarks : None

13. Disposal considerations

Uncleaned packing : Normally wash with water

14. Transport information

There is no health hazard in normal use condition, keep separated from food

15. Other information

This information is based on our present state of knowledge.
