Complete range of wiping solutions for  
your toughest cleaning tasks

Chicopee<sup>®</sup> True Confidence<sup>™</sup>

[chicopee.com](http://chicopee.com)

# Global Leadership

Delivering the right solutions to meet ever-evolving demands

For more than a century, the name Chicopee® has been synonymous with unrivaled expertise inventing technologies, developing new wiping applications.

Today, Chicopee continues to uphold its legacy of innovation by bringing you a full line of wiping product solutions that support your industrial demands.

With innovative products engineered for strength and absorption, Chicopee's industrial towels help support your toughest wiping challenges associated with grease, grime and oil. Whether you are looking for a more effective option for extended-use shop towels or a more durable option than cotton or paper towels, Chicopee has what you need. At Chicopee, we are committed to supporting your business with products that are designed to help improve productivity and efficiency while helping to maintain a safer and healthier workplace.

## INDUSTRIAL REVOLUTION

### FIRST

Through the introduction of mechanical production facilities with the help of water and steam power

### SECOND

Through the introduction of a division labor and mass production with the help of electric energy

### THIRD

Through the use of electronic and IT systems that further automate production

### FOURTH

Through the use of cyber-physical systems

Time

## CHICOPEE® EVOLUTION

Founding of the original Chicopee® cotton mill

1823

Johnson & Johnson acquires Chicopee®, non-woven supplier for World War I

1916

3D non-woven fabrics with woven-like apertures. Keyback® invented

1951

Commercialized EFP fabric 450 for GHC and clean room

1983

Invention of high pressure entangling technology led to the creation of the Chix® foodservice towel

1979

First non-woven foodservice towel Chix® wet wipes

1957

APEX® imaging developed advanced 3D fabrics creating easier-to-rinse and more durable towels

1993

Co-Development of Swiffer® floor wipe with P&G

1999

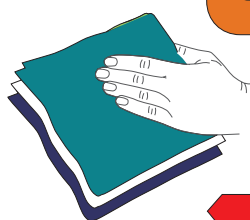

Launch of Spinlace Hydroentangled continuous filament wipes

2008

Commercialized Microfiber "wipe dry" fabric

2013

# CHICOPEE®

Launches global portfolio to support industrial wiping needs

2016 - EVOLUTION

# Your Operational Challenges

As with any change, the need for progress occurs in a ripple effect

## Evolution of manufacturing drives innovation in cleaning tools

Since the start of the industrial age to present day, the global manufacturing sector has undergone tremendous changes.

The key changes affecting manufacturing in the past decade alone are:

- Large developing economies leaped into the first tier of manufacturing nations
- A severe recession choked off demand
- Manufacturing employment fell at an accelerated rate in advanced economies

Still, manufacturing remains critically important to both the developing and the advanced world. In the former, it continues to provide a pathway from subsistence agriculture to rising incomes and living standards. In the latter, it remains a vital source of innovation and competitiveness, making outsized contributions to research and development, exports, and productivity growth. These changes bring both opportunities and challenges - and neither business leaders nor policy makers can rely on old responses in the new manufacturing environment. From machines to automation, the need to keep a facility contaminate-free cost-efficiently has seen its challenges from environment, process, and tools to even, people.

**"Are your cleaning supplies meeting the demands and cleanliness goals of your facility?"**

The challenge becomes whether or not you have the right tools to meet the growing emphasis on safer, cleaner and sustainable practices within your operation and industry.

Your facility's cleanliness is directly related to product efficiency, machine performance, safety issues in a plant and finished product quality. Your need for cleaning for efficacy and efficiency has been the driver for the innovation of cleaning technology. Disposable wipers are one cleaning innovation that helps provide a facility with clean and sustainable solutions.

# The Chicopee Solution

Chicopee offers the right Wiper for your cleaning needs

Chicopee has the broadest line of industrial wipers that are engineered to deliver the strength and efficiency you need from the removal of grease and grime on machinery, to fingerprints on a chrome grille. Whether you are looking to support a 5S system, adopt lean manufacturing methods or trying to create a more sustainable environment through the decrease of water and energy consumption in the workplace, Chicopee offers the right Wiper for your cleaning needs.

# DURAWIPE® Shop Towels

Premium shop towel - Longest lasting, most durable

Twice as strong as the leading wiper, Durawipe Shop Towels are ideal replacement for laundered shop towels and for use in heavy duty general purpose applications. It's enhanced performance and thickness allows for superior oil and water absorbency, substantial draping for ease-of-use and are ideal for managing grime pickup on rough surfaces. Tear resistant and designed to wash and use repeatedly, these towels are easy to rinse and low linting proving the ultimate performance for your toughest wiping needs.
