FLOOR CARE

LEVEL BEST®

ULTRA HIGH SOLIDS FLOOR FINISH

A single coat of this floor finish is so continuous that it acts as a sealer and a finish. A second coat is necessary only if the flooring has been poorly maintained or otherwise abused. This ultra high solids floor finish is a tough and flexible metal cross-linked acrylic, formulated to dry to a brilliant gloss. Buffing is not required to bring out a shine. However, buffing as a part of regular maintenance procedures prolongs the life of the floor.

This finish is non-yellowing and detergent resistant. It is easily repairable. Worn-out traffic areas can be recoated at anytime without stripping. Removal of this finish is easy by using an active amine or ammoniated floor stripper.

FEATURES	-	RELATED BENEFITS
Time tested polymer technology	-	Long lasting, deep, lustrous gloss
Outstanding slip resistance	-	Reduces liability potential
Positioned as a value floor finish	-	Outstanding features for an average price
Acts as a sealer and finish in one	-	Saves time and cost of labor
Designed for high traffic	-	Excellent gloss and scuff resistance
High speed burnishable	-	For a conventional maintenance program

AREAS OF USE -
Use with electric burnisher maintenance routines
- Restaurants, hotels, motels, offices
- Hospitals, nursing homes, doctors offices
- Schools, universities, child care centers
- Grocery stores, malls, retail stores

TO USE -
Apply finish in a uniform, thin coat to stripped floor. Two to four coats are recommended for initial application. **For applications, see label for complete directions and use only as directed.**

SPECIFICATION DATA

Available Sizes -	4/1G, 5G, 55G	Physical State -	Liquid
Color -	Milky White	Fragrance -	Acrylic
Total solids -	24.5%	Metal Interlocked -	Yes
Initial Gloss -	Excellent	Burnisher Response -	Excellent
Slip Resistance -	Exceeds ASTM 2047	Traffic Area -	High
Specific Gravity -	1.04	pH -	8.1
