Kids' Menu Placemats

Print customized kids menus on your copier. Go to www.hoffmaster.com/kids-menuplacemat and download the document and open. Type your menu into the box on the template, and print! Note – the same template is used for all three designs. Each case will include an instruction sheet, or you can find the instructions in the template. All printers and copiers operate differently, so be sure to test one or two sheets, instead of printing the whole case.

Finding the perfect fit

To ensure the proper match between baking pan and baking paper, we have provided the measurements for all baking papers offered. Measurements include Blank (overall diameter), Base Diameter and Wall Height. To get the correct measurements from an existing baking cup, flatten out the baking cup and lay it on a hard surface. Using a ruler, measure the three dimensions shown to the right. The same principals apply to measuring oblong products, using the chart to the right.

Parchment Cake Decorating Triangles

are superior to cloth pastry bags for decorating cakes and pastries. They are flexible, pliable and require no cleanup. Cut one sheet in half to make two smaller bags.

Cake Circles

line the bottom of round cake pans, facilitating easy cleanup and eliminating the need to grease the pan. Wax provides good release. Parchment combines release, wet strength and grease resistance.
