The Industry's Best Overall Value!

Certification Icon Descriptions

- 
HACCP – Hazard Analysis Critical Control Points is a systematic approach to food safety. This approach utilizes seven principles and practices for analyzing a food process and determining the hazards within that process. (www.nal.usda.gov/fnic/foodborne/haccp/index.shtml)
- 
OSHA – The Occupational Safety and Health Administration works with employers and employees to create better, safer and healthier working environments in the United States. OSHA Sanitation Regulations (Standards - 29 CFR) state that any receptacle used for putrescible solid or liquid waste or refuse shall be so constructed that it does not leak and may be thoroughly cleaned and maintained in a sanitary condition. Such a receptacle shall be equipped with a solid, tight-fitting cover, unless it can be maintained in a sanitary condition without a cover. (www.osha.gov)
- 
DERMA-TEK®– This smooth surface, nonporous design is tough, durable and seamless – making it easy to clean and keep clean and provides a professional appearance. Plus, Derma-Tek® will not absorb chemicals, liquids or odors and will not rust, dent, chip or corrode.
- 
NSF – National Sanitation Foundation is an independent testing laboratory that lists products which meet their criteria for cleanability and sanitation in the areas of food contact and splash zone. Continental® manufactures products that meet the following NSF Standards: "Standard 2: Food Equipment" and "Standard 21:Thermoplastic Refuse Containers". (www.nsf.org)
- 
USDA – The United States Department of Agriculture sets regulations for the construction and material of equipment for use and/or contact with meat, poultry and dairy production and the hazards within that process. (www.usda.gov)
- 
FACTORY MUTUAL – FM is an independent testing agency that approves covered containers based on their ability to withstand an internal fire by the elimination/reduction of oxygen intake, to remain upright if tilted and to maintain shape and contain its contents throughout a specific temperature range. (www.fmglobal.com)
- 
UNDERWRITERS LABORATORY – The Continental® UL Classified Wastebaskets meet the UL performance criteria for open, non-metallic wastepaper containers and their ability to contain a fire. (www.ul.com)
- 
CALIFORNIA STATE FIRE MARSHAL – The State of California is often believed to be the most stringent of all the United States on their fire codes. Once a product has obtained UL and/or FM approval, they are submitted to California for acceptance. (<http://www.osfm.fire.ca.gov>)
- 
UN/DOT – The United Nations Economic & Social Council issues the UN Recommendations on the Transport of Dangerous Goods, which form the basis for most regional and national regulatory schemes. Following the UN Model, the DOT divides regulated hazardous materials into nine classes, some of which are further subdivided. Hazardous materials in transportation must be placarded and have specified packaging & labelling.

Represents products that provide sustainability advantages, either by their application or through the materials from which they are made.

The Industry's Best Overall Value!

Continental Commercial Products® is a long-time leading supplier of cleaning and food service equipment products. For over 50 years, the industry has relied on our brands to provide exceptional products at an outstanding value.

A large selection of plastic cleaning, floor care, food service equipment and receptacle products

The most diverse line of non-woven floor pad and hand pad products in the market today

The Wilen® brand of mops and microfiber offers a wide array of products for any cleaning situation and budget

A U.S. based manufacturer with worldwide distribution and service, we are widely recognized as the best overall value in the industry because we offer a unique combination of:

- A **Complete** line-up of products
- Flexible and willing to **Customize** for private label and OEM
- **Innovative** ideas that are functional and attractive
- **EARTHONE™** our suite of green cleaning products that support sustainability

MOP BUCKETS & WRINGERS

Continental's comprehensive line of mop buckets and wringers are the industry standard for durable construction and quality made in the USA. Designed with efficiency and durability in mind, our innovative wringers maximize mechanical advantage, reduce worker strain and increase productivity. Our patented mop handle rest keeps the mop handle in place during transportation and storage.

WRINGERS

[A] SPLASH GUARD™ SIDE-PRESS WRINGER

Accommodates 12 to 32 ounce mops. Mop handle holder is molded into wringer front. Ergonomic handle design for leverage and comfort. Wringer nests in bucket for economic storage and shipment. Fits Continental® 26, 35 and 44 quart mop buckets.

[B] DOWN-PRESS WRINGER

Accommodates a variety of mops. Extended handle design for leverage and comfort. Utilizes gears to increase leverage and reduce fatigue. Wringer nests in bucket for economic storage and shipment. SW2 fits Continental® 26 quart mop buckets. SW7 fits 26, 35 and 44 quart mop buckets.

[C] INSTITUTIONAL WRINGER

Accommodates 12 to 32 ounce mops. Funnel-type wringer design uses no moving parts and is completely metal-free for improved safety. Fits Continental® 35 quart bucket.

WET MOPS

Wilen's comprehensive product line features a mop for any job and any budget. We offer a wide variety of yarns as well as new products to help users do their job more efficiently. From premium looped-end mops to economic cut-end mops, we have a mop for any application.

Choosing the Best Value in Wet Mops

YARN	ADVANTAGES	DISADVANTAGES	USES
Cotton	Good absorption and retention. Low initial cost.	Requires break-in. Lints and dries slow, promotes mildew and deterioration.	General use. Picking up liquids. Scrubbing.
Rayon	Quick absorption and release. Dries fast, mildew resistant. Cleaner yarn, lints less.	Shrinks when laundered. Less liquid retention.	Applying liquids (finishes, disinfectants).
Synthetic	Long staple fiber for superior tensile strength, no lint.	Higher cost. Poor absorption.	Rough surfaces.
Blends	Ideal balance for price, performance and durability. Synthetic fibers add durability and color.	May shrink (unless pre-shrunk).	Professionals who require better and longer lasting mops.

Use our [Looped-End Application Guide \(below\)](#), and our [Cut-End Application Guide \(page 7\)](#), to help select the right mop for your needs.

On the chart above, 5 represents the highest quality and 1 represents the lowest.

Yarn

Certain yarns do a specific task better than other yarns. That's why there is such a variety of mops. To get maximum efficiency and value from a wet mop, it is important to select the right yarn for the job.

Yarn Ply

Yarn ply indicates the number of strands twisted together to make a single yarn strand. More plies give added strength, though higher ply numbers do not necessarily mean higher quality yarn. More strands may add durability but they also decrease absorbency. It's generally recommended to choose a higher quality yarn than a high ply, low quality yarn.

Twist

A yarn's "twist" is a result of how tightly the fiber strands are wound together. While a tightly twisted yarn might be stronger and last longer, its absorbency may be decreased. Like yarn ply, the best value isn't determined by the yarn's twist, but by the type and quality of the yarn and the mop's construction. A mop with looped-end construction enables the yarn to have a loose twist while eliminating fraying.

ADDITIONAL CASE PACK OPTIONS

See our Price List for details.

MicroBlocker™

Locked into the yarn are fibers containing a registered antimicrobial additive. The additive protects the mop head from deterioration by inhibiting the growth of stain and odor causing bacteria, mold, mildew, and yeast in and on the mop head.

Sizes

A mop's size should be in relation to the job to be performed, the mop wringer being used and the user's size. Cut-end mops are sized by their approximate weight in ounces. Looped-end mops are sized by industry standards since they absorb and retain much more while also covering a greater surface area than a cut-end mop of comparable weight.

Cut-end

The cut-end is the standard, most popular and economical (initially) mop style. Cut-end mops fray and unravel, increasing the lint factor and leaving loose strands behind. In addition, without tailbands, cut-end mops cover less area per pass. Since cut-end mops cannot be laundered, they are often considered 'disposable' and thrown away when their useful life is over.

Looped-End

The looped-end mop is designed for superior performance and extended life. There are no ends to fray or unravel as the mop sweeps over the floor surface in a wide, even path. Looped-end mops can be laundered for longer life and cleaner appearance. The initial investment is soon compensated with lower replacement, reduced labor cost and increased performance.

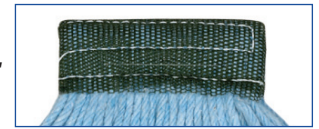

Headbands

1 1/4" headbands are available for stirrup-type handles and are useful on finishing-type mops such as our FastTrack™ looped-end mop. The 5" width headbands are compatible with clamp and jaw-type handles. The synthetic mesh material provides non-abrasive scrubbing to help dislodge dirt and to allow quick drying of yarns. Abrasive scrubbing pads can also be included.

Narrow Headband

Wide Headband

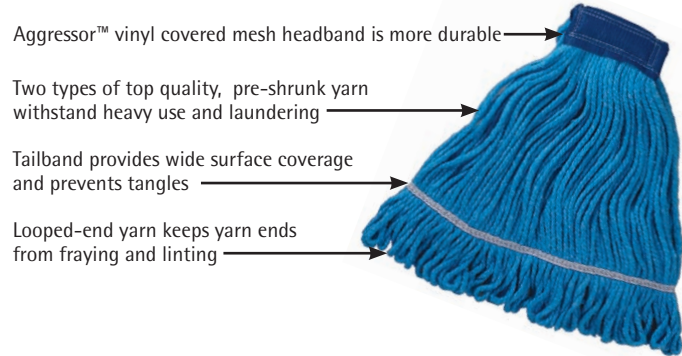

Looped-End Mops

LAUNDERABLE, PRE-SHRUNK MOPS

Our line of pre-shrunk, looped-end mops is designed to meet the needs of the health care industry and other users who launder mops. These mops may be laundered repeatedly while maintaining their clean appearance, low lint factor, absorbency and strength without shrinking. They also save money by outlasting incut-end mops up to eight times and reducing labor costs by up to one half!

Size	Equivalent Ounces	Band Color	Approximate Lbs./Dz.
Small	8-10	Red	10
Medium	16-20	Green	15
Large	24-32	Blue	18
X-Large	32-40	Yellow	23

Sustainability

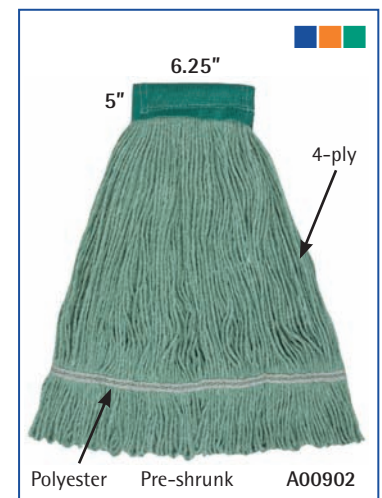

All Wilen® wet mops have green attributes that promote and enhance a comprehensive sustainability program. This is a clear differentiator. Many competitors feature only one family of mops with green attributes. You can be sure that Wilen wet mops are environmentally friendly and are constructed with a level of quality that ensures durability.

LOOPED-END WET MOPS

FANTASTIC™ **EARTHTONE™**

The Fantastic™ is constructed of a super absorbent, 4-ply conditioned rayon/synthetic yarn. Uniform twist and high-quality construction make it ideal for disinfecting and all purpose cleaning. Quick drying yarn resists the growth of mildew and bacteria.

[C] SUPER LOOPER™

EARTHTONE™

Designed for easy access into tight spaces. The Super Looper™ mop goes where conventional mops can't and saves you money by using standard threaded handles. It also saves labor by using blended looped-end yarn and a tailband to cover more surface area and soak up to three times more liquid than cut-end mops while outlasting them over eight times. Perfect for restaurants, hotels, restrooms, offices, classrooms, or anywhere a small mop is needed.

Brand	Item #	Size	Yarn Color	Case Pack	Case Weight	Case Cubic Ft.	Stock Item

Accepts threaded handles only. Found on page 51

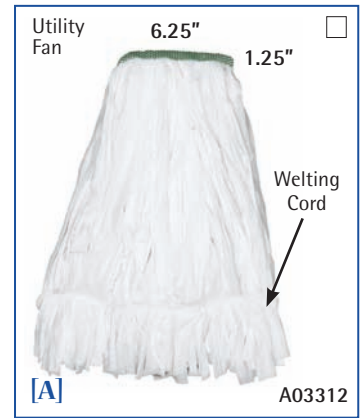

SPECIALTY MOPS

[A] ROUGH RIDER™ EARTHTONE™

New generation wet mop features knitted strands that out-perform and outlast conventional wet mops. Rough Rider™ stands up to any floor surface including stone, concrete, raised and textured.

Premium/Lint Free - Durable nylon/synthetic material is highly absorbent. Ideal for healthcare, as well as concrete and raised floor surfaces. Low lint material also makes it ideal for electronic, graphic and optical environments.

Utility Fan With Welting Cord - Very absorbent cotton strands make the Utility Fan great for food service and other general maintenance uses. Economical mop delivers high performance for maximum mopping efficiency.

FLOOR FINISH WET MOPS

LIQUID APPLICATION MOPS

When it's time to apply finishes and sealers, use a tool designed for the job. Our conventional style finish mops provide a smooth, clean finish while outlasting conventional cut-end mops over eight times. For larger finish jobs, the Floor Finish Flat Mop provides performance and economy. You'll get a better finish with less effort.

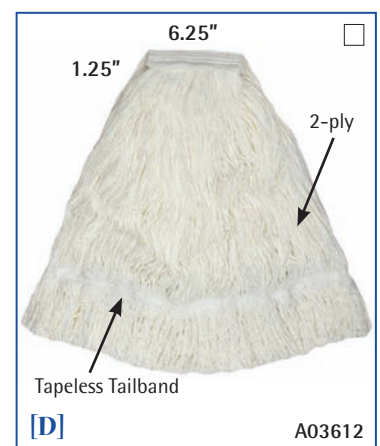

[D] SMOOTHIE™ FINISH

EARTHTONE™

Worker fatigue can be reduced by 20 to 25% due to the incredibly smooth application of the Smoothie™. This 100% nylon 2-ply yarn holds finish with surface tension, not by absorption. As the mop is moved along the floor surface, finish is released more evenly and completely.

FLOOR FINISH APPLICATOR

Even the best floor finish will provide poor results when applied with an inadequate tool. That is why we offer these professional finishing products. Whether you are applying finish, disinfectant, sealer or any other liquid, you will not only get much better results, but also unmatched labor savings.

[A] WAX-O-MATIC®

This professional finish application machine applies both water and solvent based fluids including finishes, sealers, urethanes, restorers and disinfectants, quickly, easily and smoothly. The straight line method, with built-in edge feathering, covers many times the area of conventional methods—without the spills, drips and baseboard splashes! Push button dispensing and replaceable wick pads provide complete control of finish thickness. The Wax-O-Matic® covers about 30,000 square feet per hour and comes with a three gallon tank. Wick pads and manual included. Warrantied for one full year. Some assembly required. Comes standard with one set (two pads) of Ultra Refills.

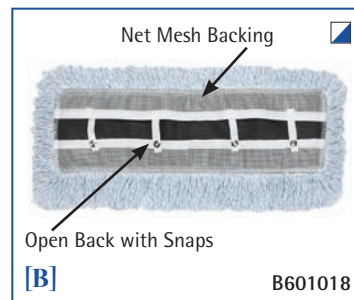

Brand	Item #	Description	Case Pack	Case Weight	Case Cubic Ft.	Stock Item

TOUCHLESS MOPPING SYSTEM

ErgoWorx® is the industry's most innovative, truly touch-less mopping system and is ideally suited for Microfiber mopping. Its patented design eliminates the need to handle soiled mops and breaks the chain of cross contamination. Designed to reduce water and chemical consumption, it makes for a perfect solution to the challenges associated with Green Cleaning. And, its ergonomic benefits improve worker safety by reducing physical stress.

ERGOWORX® TOUCHLESS CLEANING SYSTEM

Continental Commercial Products® has always been focused on developing more effective ways to clean. We've taken the advanced science of Microfiber and created a complete "SYSTEM" which will significantly reduce the risk of cross-contamination when cleaning and disinfecting rooms.

Microfiber cleaning truly offers many health and safety benefits along with tangible cost benefits. This makes the ErgoWorx® Touchless Cleaning System from Continental Commercial Products® the clear choice for your Microfiber cleaning needs.

ERGOWORX® TROLLEY

The newest addition to the ErgoWorx® system, the Microfiber Trolley. This trolley can be added to the SYS-5 to create a mobile cleaning system that is both compact and efficient. The 3" non-marking, all swivel casters provide finger touch mobility, ideal for tight hallways and small rooms. The MFT-5 is designed to accommodate common cleaning tools including a wet floor sign, microflex duster, wipes and RTU trigger sprayer bottles.

ERGOWORX® LAUNDRY NET BAG

Made of 100% polyester net with drawstring lock closure. This bag is perfect for discarding into and transporting dirty Microfiber refills to the laundry. Designed to fit perfectly in the ErgoWorx® Microfiber Discharge Bucket. Available in white.

ERGOWORX® STARTER KITS

We offer two Starter Kits. SYSK-1 includes the following: (1 ea) SYS-5, MFT-5BK, C714000, (2) A80805, (10) C103020, (12) E810016). SYSK-2 includes the following: (1 ea) SYS-5, C714000, (2) A80805, (10) C103020, (12) E810016).

ERGOWORX® ACCESSORIES

A full line of products to use in conjunction with the ErgoWorx® System is shown on pages 24-27.

MICROFIBER MOPS

Mops made of microfiber offer many advantages to today's cleaning challenges. Wilen's line of microfiber mops are made with 100% microfiber of the highest quality, ultrafine synthetic fiber that is very durable, with superior bacteria removal.

WHAT IS MICROFIBER?

Unlike conventional mop yarns, each strand of microfiber is wedge-shaped with sharp edges which makes it very effective for removing, absorbing and accumulating virtually any type of dirt, dust, grease or contaminant. When paired with ErgoWorx® Touchless Cleaning System (See page 23), our system is an important component for a comprehensive Green Cleaning Program as per the US Green Building Council's (USGBC) LEED for Existing Buildings Rating System (LEED-ED:OM), Practice Greenhealth's Green Guide for Health Care and the Healthy Schools Campaign's Quick & Easy Guide to Green Cleaning in Schools.

- **More Cost Effective**
Lasts up to 6 times longer than traditional mops and cleans faster.
- **Healthier**
Superior bacteria removal; improves Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHP) scores and reduces hospital acquired infections. Reduces bacteria on 95% of all hard surfaces.
- **Greener**
Significantly reduce consumption of water and chemicals; Re-usable and can be washed up to 500 times when cared for properly.
- **Safer**
Light weight mops reduce work strain.

LAUNDERABLE REFILLS

[A] THE AGGRESSOR™ **EARTHTONE™**
This innovative combination of Microfiber yarn and synthetic stiff brush fibers is designed to remove debris stuck to the floor that normal "yarn only" Microfiber flat mops cannot.

[B] SUPER PRO™ FINISH FLAT MOP **EARTHTONE™**
The Microfiber Finish Flat Mop is looped-end and constructed of high-wet modulus rayon blend yarn that provides quick, controlled liquid release. The Finish Flat Mop will cover a 20" wide swath. Unlike conventional finish mops, 100% of the floor finish goes onto the floor along with full contact of the refill to the surface allowing better productivity and less chemical wasted in the mop. Should be rinsed after every use.

JANITOR CARTS

Continental's line of janitor carts offers versatile designs with multiple stocking options and accessories.

Our exclusive Derma-Tek™ Smooth Surface makes our carts the easiest in the industry to clean and keep clean! All-plastic construction will not rust, chip, crack, peel or fade ... the color is molded throughout the sturdy structure. The exclusive four-legged design is more stable under heavy loads and actually helps to contain the load when over-stuffing the center collection area. Non-marking, grey, 8" rear wheels and 3" front swivel casters provide maximum maneuverability with minimum effort and prevent floor scuffing. Large oversized wheels and casters provide an effortless ride with minimal noise; ideal for any type of cleaning environment.

[A] COMPACT CLEANING CART

This cart is both space efficient and versatile enough for nearly any job. Designed to accommodate common cleaning items and waste collection, this cart is ideal for use in confined areas with limited storage space. Zippered Vinyl Bag included.

[B] JANITORS' CART

This cart is the workhorse of the industry! Designed to accommodate and organize tools and supplies required by today's stringent facility managers. Over-sized wheels and casters make this cart the logical choice for heavy-duty applications in health-care, airports, convention centers, theaters, shopping centers, office buildings and more! Zippered Vinyl Bag included.

Brand	Item #	Size	Color	Case Pack	Case Weight	Case Cubic Ft.	Stock Item

Optional Wall Hugger™ (23 gallon Receptacle) can be added as rigid plastic liner in place of the vinyl bag – without use of tools or additional hardware. Fits 184 and 186 Carts.

[A] CONVERTIBLE JANITOR CART

The only plastic cart in the industry that has a dual front tray to easily accommodate a combination of cleaning accessories including: 26 or 35 quart Splash Guard™ Mopping Combos, the Unibody® Mopping System, the 32 or 44 gallon Huskee™ and 44 gallon Huskee™ SuperKan™ (with or without the dolly). Zippered Vinyl Bag included.

[B] & [C] ACCESSORIES

Optional locking compartment (187YW) with dual wall construction provides a high level of security where needed. The CCP 184 and 186 Carts will accept two optional locking compartments.

Ergonomic bag (188YW) zips open completely to easily remove heavy contents and avoid back injury. 25 gallon capacity. Fits 182, 184 and 186 Carts.

[D] PORT-A-CART

Structural plastic shelves and a steel frame make this cart durable and economical. Features 3" swivel casters and a four bushel, yellow duck bag. (Shown with a 266-36 combo - not included).

[E] REPLACEMENT DUCK BAG

Heavy-duty replacement bags for our #271 Port-A-Cart. Packed six per case.

Wilens® offers the Best Value in Dust Mops

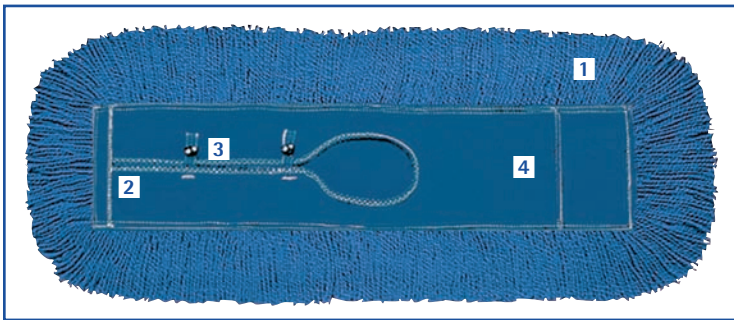

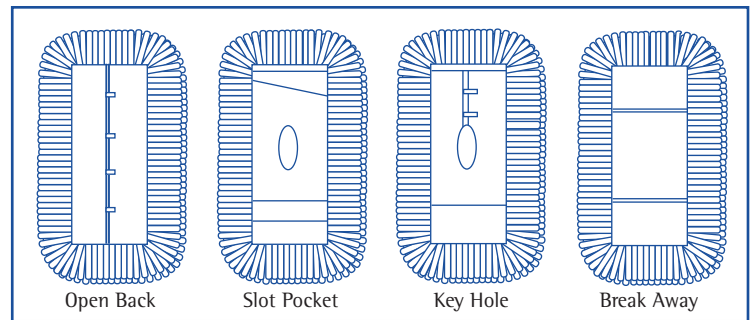

The removal of dust and dirt particles is the first step in proper floor care. A preventative maintenance program using quality dust mops will protect your floor and finish from abrasive dust and dirt particles. To accommodate your needs, we offer a wider variety of dust mops to assist in the efficient removal of dust and dirt. Let the following information assist you in choosing which dust mop is right for your needs.

Yarn

Cotton is the most economical and popular yarn, despite its disadvantages when compared to other fibers. Cotton is often blended with synthetic fibers to add strength and absorbency. Some of these yarns are designed to withstand laundering while others, like disposables, are constructed with bulky, loosely twisted yarn for better dust removal. Our PermaTwist™ cotton yarn combines exceptional durability via a unique fiber bonding process. Nylon, like that used in our Durastat™, has electrostatic properties that attract dust particles without the use of treatment.

Backing

Synthetic backing material has replaced cotton as the industry standard because it dries much faster and absorbs less treatment than cotton. We also offer a variety of backing styles including: Open Back, Key Hole, Slot Pocket and Break-Away (illustrated at right). All four backing styles are available for construction in our Professional Dust Mop category. Ties are also available upon request. Our Swivel Snap category is available with a Key Hole style backing. Our Value Line category is available with an Open Back style. Our Disposable Dust Mops are available with backings as shown. Backing colors include: red, blue, green and white.

- 1 A wide variety of high grade yarns provide maximum durability and performance.
- 2 Extra stitching assures long life, even with laundering.
- 3 Heavy-duty, rust resistant snaps are fast and easy to use.
- 4 Durable synthetic (polyester) backing dries fast and is available in bright colors.

Cut-End

The cut-end dust mop, though more economical at first, tends to fray, unravel and lint. This can decrease its performance and lead to replacement of the mop. Laundering can decrease durability. Our PermaTwist™ solves this problem by bonding the yarn fibers.

Looped-End

By trapping more dust, producing less yarn debris and resisting tangles, the looped-end dust mop delivers maximum performance. Because looped-end yarns withstand heavy use and frequent laundering without fraying and unraveling, linting is virtually eliminated. Looped-end yarn is available in long strands for greater coverage or short loops for hi-tech and health care applications.

Durability

High quality construction standards lead to the best value in a dust mop. Wilens® mops are made with the highest level of professional quality with pre-shrunk backings and top grade yarn to withstand heavy use and repeated launderings. Reinforced stitching at stress points are signs of better mop construction. Innovative yarns, like our Twister Loop™, Durastat™ and PermaTwist™, can provide longer lasting service as well as increased performance.

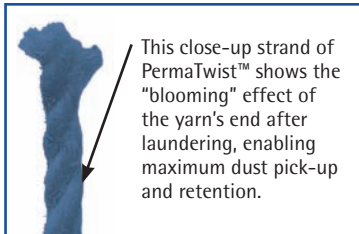

Frames & Handles

To provide free swiveling or rigid handle positions, use a handle with a swivel-snap device attached to the frame. Frames are available from 12" to 72". Our Stick-M™ line uses a flat plastic base for maximum surface contact. Its Velcro® type attachment system allows quick and easy changes. Our Wear Ever™ Frame also provides a wide, flat surface for maximum yarn-to-floor contact, resulting in greater dust mop efficiency.

PROFESSIONAL DUST MOPS

DURABLE, LAUNDERABLE MOPS

These high performance dust mops are designed and constructed for industrial launderers, health care facilities and other demanding applications. Innovative yarns, pre-shrunk synthetic backings and heavy-duty construction techniques provide maximum durability and efficiency.

[A] PERMATWIST™ EARTHTONE™

Exclusive bonding process of 100% ring-spun cotton yarn virtually eliminates fraying and linting. Brilliant, permanent colors keep this duster looking new. PermaTwist™ delivers unsurpassed durability and performance and is the best dust mop you can buy. Launderable.

MICROFIBER DUST MOPS

Microfiber Dust Mops take dry mopping to a new level by adding the performance and durability of microfiber. Whether using traditional dust mopping equipment or Velcro® frames, microfiber dust mops offer superior dust collecting properties, attracting and holding dust electrostatically.

These mops are more efficient and last longer than typical cotton/blended dust mops. Available in both conventional keyhole style backing that accepts industry standard frames as well as hook and loop packing for Velcro® frames.

[A] MICROLOOPEDED MICROFIBER

VELCRO® & CANVAS
BACKED DUST MOPS

EARTHTONE™

Microfiber dust mops pick up dirt and dust electrostatically. These mops are more efficient and last longer than typical cotton/blended dust mops. Microfiber dust mops are available with both conventional keyhole style backing that accepts industry standard dust mop frames (18"/Yellow, 24"/Green, 36"/Red, 48"/Blue), as well as hook and loop backing for Velcro® frames.

[C] CHARGER™ DISPOSABLE DUST MOP

EARTHTONE™

The Charger™ Disposable Dust Mop picks up dust, dirt and hair by creating a static charge and trapping the debris within the mop's tiny fibers. Using this inexpensive, disposable dust mop aids in cross-contamination prevention for health care environments. The Charger™ mop comes conveniently packed in 200 pre-cut sheets per box, and attaches easily to the SpringBack™ mop frame. This mop is NOT microfiber, however, it is used with Springback™ Mop Frame, found on page 27.

DUST MOP FRAMES

[A] WEAR-EVER™ PLASTIC FRAME

High-impact plastic frame won't rust or bend and lasts up to ten times longer than metal frames. Flat bottom allows better surface contact with dust mop, resulting in superior performance. Also eliminates the stress points common to wire frames that cause premature mop wear. Use with our Swivel Snap™ handle.

[B] STICK-M™ HOLDER

High-impact plastic frame features Velcro® on bottom for quick and easy attachment of refills. Flat bottom allows total surface contact with dust mop for superior dust collection. Uses Swivel Snap™ handles.

FLOOR SWEEPERS

[C] HUSKEE™ SWEEPER

Our commercial sweeper with horsehair and boar brush agitation has a 180° handle. It has a low profile design and textured paint that resists scratches, while allowing unit to lay flat to go under furniture. Rubber bumpers prevent wall and door damage.

[D] HUSKEE™ POWERROTOR SWEEPER

These sweepers clean hard floors and carpets. The self-cleaning flexible rubber blades beat the floor with high frequency, creating friction and momentum that cleanly transports dirt, food, lint and other debris into the dust compartments. Durable plastic body resists scratches and dents and is easy on walls, doors and furniture.

FLOOR SWEEPERS

Huskee Floor Sweepers are the economic, environmentally friendly cleaning solution you've been looking for! Perfect for any type of cleaning environment, especially food service facilities and restaurants and busy hotel and hospital lobbies. Our sweepers are designed to be an easy to use, silent and effective answer to your everyday cleaning needs.

DUST PANS

Picking up dust and debris has never been easier with our complete assortment of dust pans. We have a wide range of sizes and styles to fit your specific needs. Perfect for industrial, commercial and outdoor use.

DUST PANS

[A] PLASTIC DUST PAN

Constructed of tough, yet flexible, black plastic with thin front edge for maximum dirt pick up. Handle hanger hole for easy hanging.

[B] UTILITY DUST PAN

Constructed of tough, yet flexible, black plastic with a contoured handle that snaps onto standard broom handles for easy storage and accessibility. Rubber lip lets you sweep up dust and dirt that most dust pans miss. Hang hole for wall storage.

[C] JUMBO DUST PAN

This lightweight, yet strong dust pan has an 18" mouth, making it ideal for outdoor maintenance such as picking up leaves and other debris that require a large capacity. Contoured handle has a hang hole and also fits on standard broom or rake handles for easy storage and accessibility. Rubber feet prevent sliding on smooth surfaces.

[D] HEAVY DUTY METAL DUST PAN

This dust pan ribbed for extra strength and powder coated for longer life. Angled front edge for maximum dirt pick up. Handle hanger hole for easy storage.

[E] EXTRA WIDE METAL DUST PAN

Heavy-duty 16" wide metal dust pan is ribbed for strength and powder coated for longer life. Angled front edge for maximum dirt pick up. Handle hanger hold for easy storage.

[F] LOBBY DUST PAN

Durable plastic hopper with vinyl coated steel handle. Pan snap-locks in use and releases to dump or carry. Space saving hanger for storage. The true-edge of pan conforms to floor - no need for repeated sweeping. Serrated yoke provides area to "comb" debris from lobby broom.

[G] METAL LOBBY DUST PAN

Self opening and closing lid with extra long chrome handle. Pan/door are metal with powder coated finish for longer life. Standard is #808 - also available with an "L" grip handle, #808L, for comfort and control.

[H] PICK UP DUST PAN

Metal dust pan with powder coated finish. Chrome handle with hanger.

BROOMS

Our professional grade angle brooms and corn brooms are designed to provide efficient sweeping, reaching into corners, along base boards or into hard-to-reach areas for fast, effective cleaning. Available in sizes for all needs, from small stores to warehouses.

LOBBY BROOMS

[A] ANGLED LOBBY BROOM

Angled lobby broom with flagged polypropylene bristles, black plastic frame and 7/8" diameter wood handle. Bristle length is from 4 to 5 inches.

[B] SYNTHETIC LOBBY BROOM

At 35" high, this broom is perfectly sized for use with our lobby dustpan. Stiff, flagged, polypropylene bristles do an excellent job of collecting debris on floor surfaces ranging from carpet to tile.

CLEAN SWEEP™ BROOMS

Upgrade your corn broom line with Clean Sweep™, the highest quality corn brooms made. For routine or heavy-duty cleaning, these durable upright brooms are designed for long life and efficient sweeping. Most are available with your choice of 100% broom corn or economical blend fibers. All brooms feature double-stitched, nylon cord bound fibers that are wire wrapped onto wood handles.

[C] CORN/CORN BLEND BROOMS

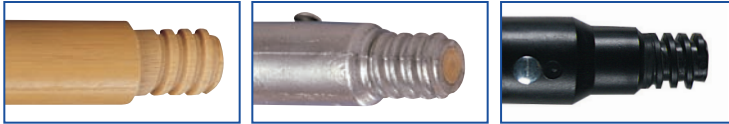

The Clean Sweep™ Corn Broom line features high quality corn brooms made for routine or heavy duty cleaning. These durable upright brooms are designed for long life and efficient sweeping.

ANGLE BROOMS

CONTEMPORARY PLASTIC BROOMS

These brooms accept threaded handles only. Found on page 51

[A] HUSKEE™ SWEEP

Stiff black polypropylene fibers for fine to heavy sweeping. Angled design allows you to sweep into corners and hard to reach places. The sweep has a built-in grip brace that allows you to remove the upright handle and use it as a whisk broom. Perfect for Industrial and Food Service applications.

[B] TRI-ANGLE BROOM

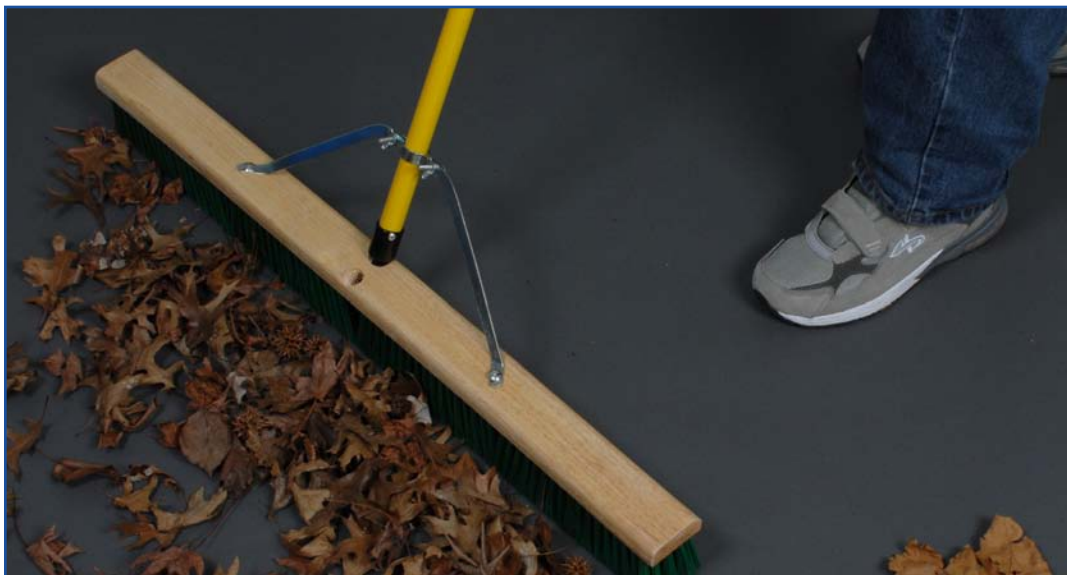

The versatile Tri-Angle may be used as a regular broom, a high duster or a whisk broom. Extend the handle and you have a high duster that reaches 10 foot ceilings. Unscrew the handle and you have an ergonomic whisk broom for smaller sweeping jobs.

[C] ANGLED BROOM

Both sizes feature an angled design for sweeping into corners and tight areas and are attached to a 48" long metal handle. The bristles are available with yellow polypropylene flagged or unflagged tips.

SWEEPS ~ FLOOR & GROUND

Stiffness, durability and cost are just a few characteristics to consider when selecting the right sweep. With a variety of sizes, fibers and choice of lacquered hardwood and structural foam, we offer a sweep for every application. All blocks come with two threaded handle holes. 36" wood sweep also includes handle arm braces for added strength. Sweep handles are sold separately.

Choosing the Best Value in Sweeps

Here's a primer to help you brush up on your bristles! With the abundant number of brush and broom SKUs in this catalog, we can't possibly cover everything - but a good basic understanding of fibers, blocks and construction techniques can go a long way.

The Wilen® Advantage

What makes Wilen brushes better? Everything! From our state-of-the-art, computerized machinery, to our high quality construction, to our breadth of line, you can be assured you'll find the right tool for the job.

Dust It, Spread It, Scrape It, Wash It...

Look to Wilen for products that work. We have the variety and styles for every environment and application.

Nylon

A resilient synthetic fiber that has a high heat tolerance, excellent bend recovery and can be autoclaved. It is available straight, crimped or flagged. Resists acid, heat, oil and most solvents. Used in most scrub brushes.

Polypropylene

A synthetic fiber that is available crimped or straight in a variety of colors. It has a very long life and high resistance to acid and most solvents.

Black Tampico

Comes from the leaf of the cactus-like Lechuguilla plant of Mexico. With a soft to medium texture and good durability, Tampico may be used alone or blended with other materials. Naturally off-white in color, the fibers are dyed black.

White Tampico

Comes from the cactus-like Lechuguilla plant of Mexico. With a soft to medium texture and good durability, Tampico may be used alone or blended with other materials. It has excellent liquid retention and is highly resistant to solvents and chemicals. Original color.

Horsehair

From the tail or mane, has soft to slightly stiff characteristics and offers good texture and resilience. It may be used pure or blended with other materials and is available in black or grey. Used for scratchless cleaning of highly polished areas.

Palmyra

Comes from the base of the leaf stalks of the Palmyra palm of India and Africa. Texture is medium stiff to stiff. Low cost, durability and liquid resistance make it ideal for a wide variety of uses. Comes brown in color.

Palmyra Stalks

Very coarse and durable. Texture is quite stiff. It has the appearance of split bamboo and is primarily used for street brooms.

What does "flagged" mean?

Many brushes have "flagged" (also known as "feathered") bristles. Flagged bristles contain split ends which decrease stiffness and add liquid and dust retention properties. This soft, synthetic fiber is ideal for dusting, fine sweeping of smooth surfaces and washing vehicles without scratching.

Blocks

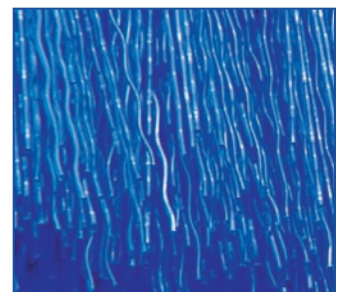

Fibers are set into either structural foam or wood blocks, both have advantages. More and more people are choosing structural foam due to its obvious advantages—durability, water resistance and its non-warping, non-splintering characteristics. Nevertheless, traditional wood is still widely used.

Push It

There are several different types of floor brushes (or push brooms) available: Floor Sweep for indoor surfaces; Garage Sweep for concrete and outdoor use; and Street Broom for sweeping heavy debris on rough surfaces. In addition, each of these categories contain a variety of styles and sizes. For larger sweeps, our handle braces provide added support and keep the sweep from twisting.

Scrub It

Just as there are many different surfaces to clean, there are many different brushes to accommodate these different needs. What to look for: appropriate fiber stiffness for the job; block or handle ergonomics; and surface coverage. To give synthetic fibers better liquid retention while retaining their superior strength, specify "crimped" fibers.

FLOOR SWEEPS

FINE TO MEDIUM FLOOR SWEEPS

Unparalleled quality makes Wilen's floor sweeps the best value. With a variety of sizes, fibers and a choice of lacquered hardwood and structural foam, a sweep is available for every application. All blocks come with two threaded handle holes. 36" wood sweep also includes handle arm braces for added strength. Sweep handles are sold separately.

These brooms accept threaded handles only. Found on page 51

[A] FLAGGED POLYPROPYLENE FINE FLOOR SWEEP

This split-tipped synthetic fiber sweep is excellent for picking up fine particles of dust and dirt on smooth floor surfaces. Grey fibers.

[B] FLAGGED POLYPROPYLENE DOUBLE FILL FLOOR SWEEP

Fine flagged fibers on the outside edge with medium flagged fibers on the inside make this a very efficient sweep for cleaning smooth surfaces like wood, tile and smooth concrete. Water and solvent resistant fibers. Black center fibers with orange casing fibers.

[C] ALL PURPOSE DOUBLE FILL FLOOR SWEEP

Heavy polypropylene center and flagged polypropylene around the outside perimeter to pick up both fine and medium particles. Black center fibers with grey casing fibers.

GARAGE SWEEPS

HEAVY-DUTY, INDOOR / OUTDOOR FLOOR SWEEPS

These medium to heavy sweeps feature coarser fibers than regular floor sweeps. This allows them to sweep heavier debris and perform better on rough surfaces like driveways. Available with lacquered hardwood and structural foam blocks, these long-wearing sweeps are ideal for outside sweeping, basements, warehouses and other rough surface areas. 30" and 36" wood sweeps include handle braces. Sweep handles are sold separately.

These brooms accept threaded handles. Found on page 51

[A] HEAVY POLYPROPYLENE GARAGE SWEEP

This durable, heavy-duty sweep is great for sweeping on wet or dry surfaces. Recommended for places like streets, sidewalks, warehouses, driveways or basements. Also good for sweeping light snow. Green fibers.

[B] PALMYRA GARAGE SWEEP

The ideal sweep for coarse, heavy dirt on wet or dry surfaces. Ideal on driveways, basements, sidewalks and garages. Natural fibers.

[C] CRIMPED POLYPROPYLENE GARAGE SWEEP

Excellent for commercial applications. Recommended for gas stations, food service, plants and other commercial buildings. Solvent resistant fibers add to longer life. Maroon/brown fibers.

STREET & PATIO SWEEPS

COURSE OUTDOOR SWEEP

For extra rough surfaces and heavy debris, these street and patio sweeps are perfect. Coarse, extra long fibers are great for a variety of heavy-duty, outdoor applications. Hardwood blocks have two tapered handle holes. Order handles separately.

Accepts tapered handles.
Found on page 51

[A] PALMYRA STALKS STREET SWEEP

This very coarse, long-lasting and durable fiber is perfect for any rugged sweeping. Ideal for streets, concrete and barns. Can also be used on any wet or dry surface. Natural fibers.

ASSEMBLED FLOOR & GARAGE SWEEPS

These high quality sweeps provide long lasting performance. Features include a heavy-duty zinc cast handle connector, durable 1/8" x 60" hardwood handle and a double-lacquered, smooth finish hardwood block. 12 gauge steel braces stabilize the sweep head. Available in a variety of sizes.

[B] MEDIUM POLYPROPYLENE ASSEMBLED FLOOR SWEEP

This all purpose medium floor sweep is great for indoor/outdoor cleaning in industrial and commercial areas. Blue fibers.

[C] HEAVY POLYPROPYLENE ASSEMBLED GARAGE SWEEP

This heavy-duty assembled sweep is great for sweeping on wet and dry surfaces. Ideal for streets, driveways and basements. Green fibers.

HANDLE BRACES

EXTRA SUPPORT HANDLE HARDWARE

[D] HANDLE BRACE

Braces provide support, reduce breakage and add life to the handles. Angle braces provide extra support for wide sweeps. Available for all 24" wood block floor and garage sweeps. Our 30" and 36" sweeps include angle braces.

POLES & HANDLES

Our selection of professional quality handles includes threaded and tapered styles in a variety of sizes. From lightweight to extra durable, you will find the handle that best fits your needs. Use our Telescopic Poles with our window squeegees, brushes and dusters.

UTILITY HANDLES

[A] THREADED WOOD HANDLE

Bamboo handle stands up to heavy use. Standard threads fit many products.

[B] METAL THREADED WOOD HANDLE

Available in two sizes, this bamboo handle is great for use with sweeps and scrub brushes. Comes in lacquered hardwood.

[C] PLASTIC THREADED FIBERGLASS HANDLE

Ideal for wet mops, sweeps and brushes. Durable handle is for heavy usage. This yellow fiberglass handle comes with a black plastic threaded cap.

[D] TAPERED WOOD HANDLE

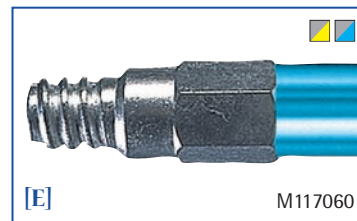

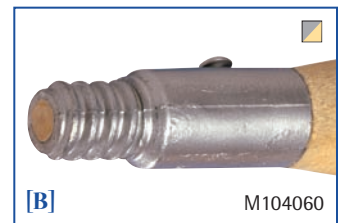

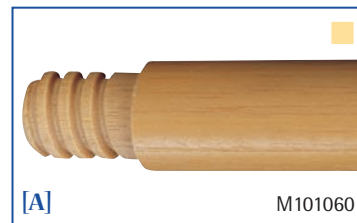

Constructed from bamboo, a natural hardwood, this durable handle is available in two different sizes. Tapered end is great for quick and easy changes.

[E] METAL HANDLES W/ THREADED METAL HEX TIP

Handle stands up to heavy use. Standard threads fit many products.

FLOOR PADS

Glit floor pads are designed to give superior performance based on the application being performed. Low speed, conventional pads are used wet or dry, and are designed to work in a variety of settings including institutional, commercial and industrial applications, while increasing productivity on the job.

GLIT FLOOR PADS

Glit® offers the most diverse and complete line of high quality and functional floor pads in the market, today.

Available in a Variety of Shapes and Sizes:

- Discs
- Rectangles
- Custom, Non-Traditional Shapes
- Many Sizes

Specific Pads for a Variety of Applications:

- Stripping
- Scrubbing
- Deep Cleaning
- Daily Maintenance
- Spray Buffing
- Burnishing
- Polishing ... Glit® does it all!!

A Pad for Every Use!

Today's floor types and the programs used to maintain them are as diverse as ever. Being able to provide any type of floor pad, for any type of application, to fit any type of floor machine is one of many advantages for our Glit® distributors around the globe.

EARTHTONE™

Glit® floor pads are 'green'

Made with 100% recycled fiber; packaged with recycled corrugate, **Glit® floor pads are as 'green' as you will find.** Our focus on sustainability runs throughout our entire organization and manufacturing facility. Our plants exceed the EPA Clean Air Permit requirements and have been modified with in-house water treatment facilities, reducing our water flow by 75%. Our state-of-the-art Regenerative Thermal Oxidizer (RTO) exceeds US requirements for air emissions.

How Glit® Floor Pads are Made

The Glit® manufacturing facility is 100% dedicated to the production of non-woven floor and hand pad material. All Glit® products are made in the USA with high-quality production and performance standards.

Glit's open web design optimizes performance, allowing the floor pads to:

- Hold more chemicals within the pad, limiting surface load
- Cushions the machine and hugs uneven floors
- Ventilate the heat generated with more air flow through the pad

Innovation has brought new floor types, new machinery and new chemicals - and Glit® has continuously brought new floor pads to bring it all together. In addition to standard resins and abrasives used in conventional floor pads, Glit's extensive line features pads with innovative fibers and abrasives for the ultimate choice of floor care delivery.

Conventional Floor Pads

Our floor pads are resilient, long-lasting and easy to clean. Pads are color-coded for easy identification. Manufactured for use with machines that operate at 175 - 350 R.P.M. Glit® offers a variety of options for stripping, scrubbing, cleaning, spray buffing and polishing.

Ultra High Speed (UHS) Burnishing Pads

As a leading supplier of floor pads, we actively research to determine the type of pad needed for the wet-look shine, and how to obtain this look. We know that more than one type of floor pad is needed due to the variety of floor and chemical types. Floor surfaces and preparation procedures are not all the same - they vary with the type of finish used, machine pad weight, pad speed and environmental conditions. A series of specially manufactured pads with varying degrees of aggressiveness should be made available to end users. A selection from our line of pads will produce and maintain the wet-look shine on various floor surfaces utilizing the different types of finishes and machines operating at 1,000 to 3,000 R.P.M.

FLOOR PAD USAGE TIPS

What is a Floor Pad?

There are four main components used to produce any type of floor pad. These include: fiber, binder, abrasives and pigment or color. When you are helping your customers select the best floor care program customized for their situation, it is very helpful to understand the basic components of each floor pad and why some are better suited for different floor types, machine applications, etc. In addition to the information contained in this catalog, contact your Glit® Sales Representative for more detailed information available on our individual Product Specification Sheets.

How do you choose the proper aggressiveness?

This is a key driver for designing a successful floor care program. The proper combination of fiber, resin and abrasives are what determine the aggressiveness of a floor pad. It is always best to use the least aggressive pad necessary to get the job done. Floor care can be both a science and an art. While there are many guiding principles to use when choosing the right floor pad, the best approach is to test more than one pad to find the best fit. The Floor Pad Usage Guide provided on page 55 is a great place to start.

Why do you want floor pads with an open web design?

Floor pads made with an open web design offer many advantages, including but not limited to:

- Holds more stripper or cleaning solution, providing more efficiency
- Cushions the machine better; this helps prevent the machine from bottoming out
- Hugs uneven floors
- Excels at soil removal without clogging, preventing premature surface load

What else should you consider?

Remember that floor pads are not the only determinant of success. The chemicals and equipment used, along with user competence and the floor itself are all factors to consider when developing a floor care program. For assistance, contact your Glit® Distributor or Sales Representative for additional expertise and guidance.

Use our Application Guide (below), to help select the right floor pad for your needs.

CONVENTIONAL THICKLINE / ULTRA VALULINE® PADS

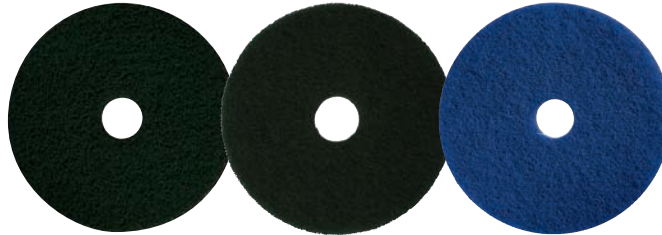

Emerald II Stripping:
Highly abrasive for maximum stripping power.

Safire® 66 Stripping:
Durable and aggressive for tough stripping.

Black Stripping:
For long-lasting, heavy-duty stripping.

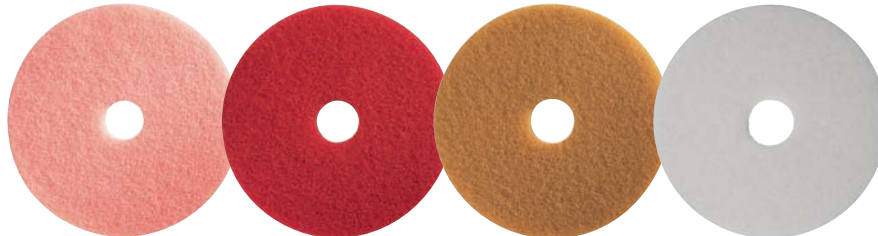

Brown Stripping:
For fast, uniform stripping, wet or dry.

"Green" Floor Prep Pad:
Chemical-free stripping pad, use wet or dry.

Green Scrubbing:
Wet, heavy-duty scrubbing.

Blue Cleaner:
Wet, light-duty scrubbing & cleaning.

Coral Pre-Burnishing:
Multi-use with automatic scrubbers.

Red Buffing:
For dry or spray buffing or light-duty scrubbing.

Tan Buff Polishing:
For dry polishing buffable synthetic finishes.

White Super Polishing:
For dry polishing or with fine water mist to ensure high gloss.

STRIPPING PADS ~ Use on Machines Operating at 175-350 R.P.M.

Intended Use:

To remove floor finish and soil prior to applying new floor finish. Can be used on most resilient and stone floors that have a topical coating.

Not Intended for Use:

On linoleum or marble. Always follow proper floor stripping guidelines.

Unless Otherwise Noted in Chart:

Floor pads have a 3.25" Center Hole and come 5 per case pack. Round pads are available in smaller sizes upon request.

[A] GLIT® EMERALD II STRIPPING PAD EARTHTONE™

Aggressive, heavy-duty pad for maximum wet stripping performance. Quickly cuts through old finish, dirt and build-up.

[B] GLIT® SAFIRE® STRIPPING PAD EARTHTONE™

Wet stripping pad. Quickly cuts through old finish, dirt and build-up. Durable and tough for increased efficiency.

Round Black and Brown floor pads have a 3.25" Center Hole and come 5 per case pack. Round "Green" Floor Prep pads have a 3.25" Center Hole and come 10 per case pack. Round pads are available in smaller sizes upon request.

[A] GLIT® BLACK STRIPPING PAD EARTHTONE™

Heavy-duty pad with excellent cutting ability for wet stripping performance. High resiliency helps to conform to uneven floors.

[B] GLIT® BROWN STRIPPING PAD EARTHTONE™

Slightly less aggressive wet stripping pad. Cuts through old finish, dirt and build-up. High resiliency helps to conform to uneven floors.

CHEMICAL FREE STRIPPING PADS ~

Use with Standard Speed Floor Machines, Automatic Scrubbers and Oscillating Floor Equipment.

[C] GLIT® "GREEN" FLOOR PREP PAD EARTHTONE™

Use for dry stripping or scrubbing. Removes 1-3 coats of soiled or abraded floor finish. The pad can also be used wet.

MULTI-PURPOSE, DAILY CLEANING PADS ~
 Use on Machines Operating at 175-1,500 R.P.M.

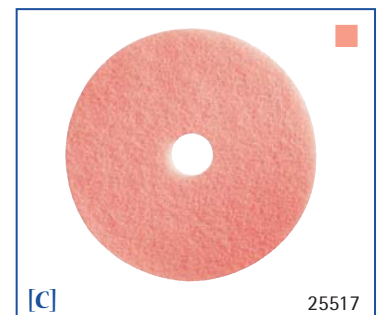

Intended Use:
 The Multi-Purpose Coral Pad can be used for daily light cleaning, dry or wet spray buffing and for polishing applications. A virtual "mistake-free" alternative for daily maintenance programs. Can also be used on Automatic Scrubbers.

Unless Otherwise Noted in Chart:
 Floor pads have a 3.25" Center Hole and come 5 per case pack. Round pads are available in smaller sizes upon request.

[C] GLIT® CORAL PRE-BURNISHING PAD EARTHTONE™
 A great alternative often used to simplify daily maintenance programs by reducing the need for numerous pads. Works well with all floor types.

ULTRA HIGH SPEED BURNISHING PADS

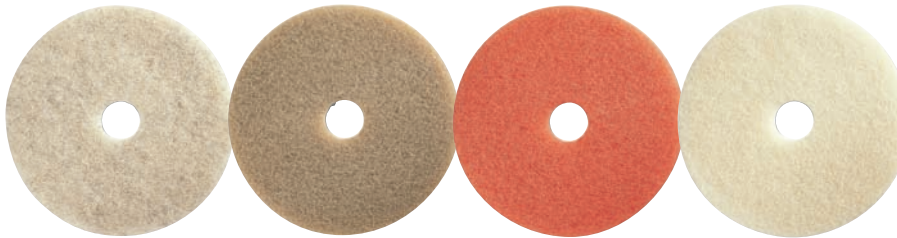

100-D Neutral Poly Thermal:
Aggressive burnishing pad to use on medium to hard finishes.

CocoPad®:
Pad has natural lubricating factors - this pad is both organic and biodegradable.

Buckaroo®:
A natural hair burnishing pad with binder that is hard and aggressive. Ideal for electric and battery powered machines.

Jackeroo®:
A blend of synthetic fibers and natural hair. Pads last longer with the added benefit of the lubricating effect of a hair pad.

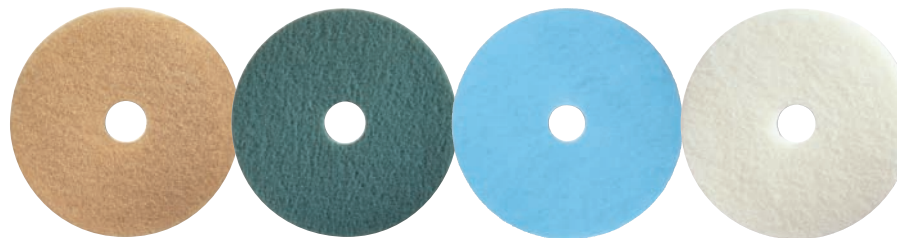

Jackeroo® Lite:
This exceptional floor pad effectively combines natural hair and fiber in a new, advanced way, bringing out the gloss on softer, more buffable floor finishes. It's the ultimate UHS tool.

Champagne:
A soft-textured pad with a rubberized binder for dry burnishing and buffing.

Peach:
A mildly aggressive spray buffing pad that is an excellent cleaner and shiner. Can be used with an automatic scrubber for cleaning.

Beige:
A moderate soft burnishing pad for a high gloss on softer finishes.

UHS Tan:
Minimize machine drag while producing a wet look gloss. Especially effective on medium to hard finishes.

UHS Aqua:
Superior soft pad that lightly polishes the floor for a high gloss appearance.

Blue Ice®:
For deep and lasting shine. Soft binders with fine synthetic fiber create a super soft pad for dry burnishing. Use where burnishing is required on a frequent basis for more time between re-coatings.

Joey® Specialty:
A super soft pad that is designed for soft, buffable finishes.

ULTRA HIGH SPEED BURNISHING PADS

BURNISHING PADS ~ Use on Machines Operating at 1,000-3,000 R.P.M.

Intended Use:

For use with floor finish where frequent (4+ times per week) to moderate (2-3 times per week) UHS burnishing is recommended.

Unless Otherwise Noted in Chart:

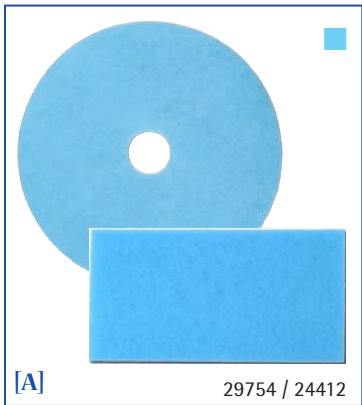

Floor pads have a 3.25" Center Hole and come 5 per case pack.
Round pads are available in smaller sizes upon request.

[A] GLIT® BLUE ICE® BURNISHING PAD EARTHTONE™

This pad is super soft for dry burnishing.

[B] GLIT® BEIGE BURNISHING PAD EARTHTONE™

This pad specially blends fibers, resin and a binder to produce a medium soft pad.

[C] GLIT® UHS AQUA BURNISHING PAD EARTHTONE™

This pad is a special blend of fibers, resin and a binder that produce a soft pad.

[D] GLIT® JOEY® SPECIALTY BURNISHING PAD EARTHTONE™

This pad specially blends fibers, resin and binder to produce a soft pad.

BURNISHING PADS ~ Use on Machines Operating at 1,000-3,000 R.P.M.

Intended Use:

Recommended for use with floor finish where moderate (2-3 times per week) to infrequent (1 time per week) UHS burnishing is required to produce a clean, shiny and safe floor.
 CHAMPAGNE: Infrequent to Moderate
 TAN: Infrequent to Moderate

Unless Otherwise Noted in Chart:

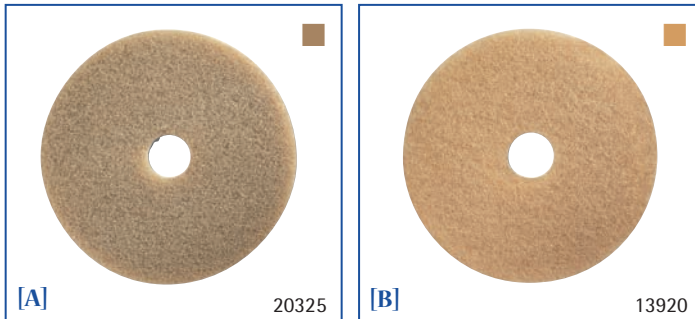

Floor pads have a 3.25" Center Hole and come 5 per Case Pack.
 Round pads are available in smaller sizes upon request.

[A] GLIT® CHAMPAGNE BURNISHING PAD EARTHTONE™

Rubberized resins combine with fine synthetic fibers to create a soft textured floor pad that can be used for dry UHS burnishing or buffing.

[B] GLIT® UHS TAN BURNISHING PAD EARTHTONE™

This pad reduces machine drag for all types of finishes.

STONE CARE FLOOR PADS & CHEMICALS

Glit's Cyclone™ product line is the latest example of our long-standing tradition of bringing new and innovative products to the market. Cyclone™ pads repair scratches, restore the floor's gloss and when used regularly, provide a simple, ongoing maintenance solution.

Cyclone™ offers a complete line of easy-to-use maintenance pads and chemicals that allow you to choose the best option for your customers! The Cyclone™ line offers a choice in performance technology. Our Cyclone-D™ line features diamond abrasives and our Cyclone™ line features a proprietary blend of cost-effective abrasives. Pads are made with 100% recycled fiber - all Cyclone™ pads are environmentally friendly!

STONE CARE FLOOR PADS

CYCLONE-D™ EARTHSTONE™

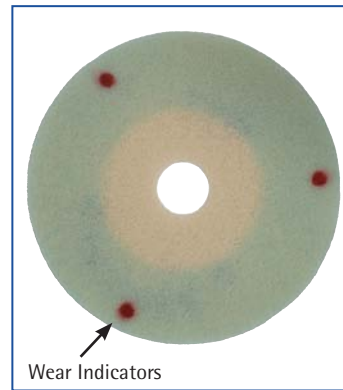

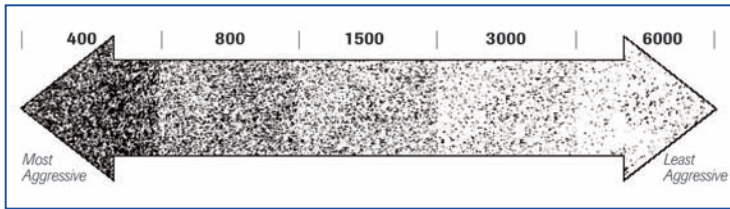

For use on concrete, granite, limestone, marble, terrazzo and travertine. The state-of-the-art technology that produces these pads yields better results with less labor. Even on the hardest surfaces, Cyclone-D™ can be used without heavy-duty grinding equipment and harsh chemicals; and can be carried out daily with your existing custodial staff.

STONE CARE FLOOR PADS

CYCLONE-D™ SERIES EARTHTONE™

Available in five levels of abrasiveness. Pads are available in a variety of shapes and sizes so that they can be easily incorporated with any floor equipment or hand tools. Cyclone-D™ pads contain wear indicators, making it easy to determine when to replace them. They can be used wet or dry.

STONE CARE FLOOR PADS

CYCLONE™ STONE CARE FLOOR PADS EARTHSTONE™

Made with proprietary diamond alternative technology, these pads provide an economical solution to daily stone floor care. With five to ten times the life of regular aluminum oxide, our proprietary blend has now become, as an abrasive, a much less expensive substitute for industrial diamonds in numerous abrasive uses. Cyclone™ pads cut quickly without overheating or burning the material being ground, with high heat resistance and good mechanical strength.

A three-pad-system; color-coded for easy identification:

WHITE CYCLONE™ FLOOR PADS

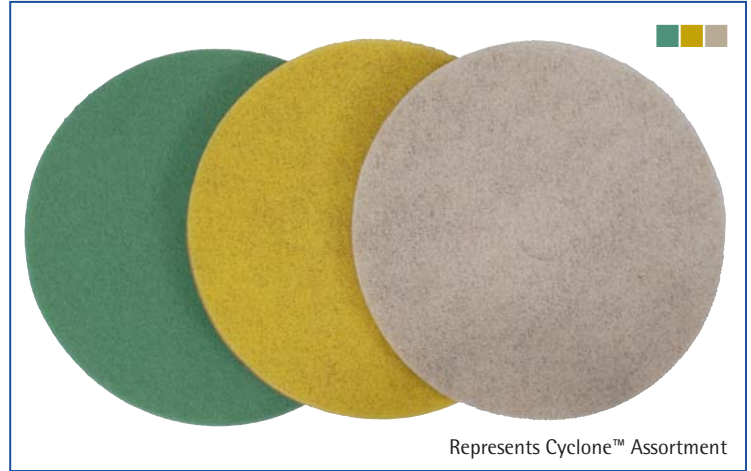

Our most aggressive Cyclone™ pad. Use for deep cleaning and scratch removal. Prepares the surface for micro-polishing.

YELLOW CYCLONE™ FLOOR PADS

Micro polishes the floor to improve gloss and remove light scratches that distort gloss.

GREEN CYCLONE™ FLOOR PADS

Use daily for a clean, safe and shiny floor.

STONE CARE CHEMICALS

The Cyclone-D™ line includes three chemicals which were specially designed to further enhance daily maintenance results when used with Cyclone-D™ floor pads.

[A] CYCLONE-D™ CLEANER / CONDITIONER

A high dilution product for use on natural stone, terrazzo and polished concrete surfaces. Specially formulated to clean as well as enhance the life and performance of the Cyclone™ pad. It is rinse free and, with continued use, will aid in the appearance of the surface while increasing its resistance to soiling.

[B] CYCLONE-D™ CONCRETE CLEANER

Thoroughly cleans polished concrete while also enhancing its appearance. Proprietary ingredients encapsulate and hold soil in suspension for complete removal. Concrete cleaner is film and rinse free.

[C] CYCLONE-D™ GLOSS BOOST

A safe, simple, non-crystallization method to freshen the appearance of limestone, marble, travertine and cement based terrazzo that has been previously polished.

[A] CD101 / CD116

[B] CD102

CARPET BONNETS & MICROFIBER FLOOR PADS

Our carpet bonnets offer a clean and effective method for routine carpet cleaning. Choose high or low pile, absorbent or aggressive.

[A] KING™ BONNET

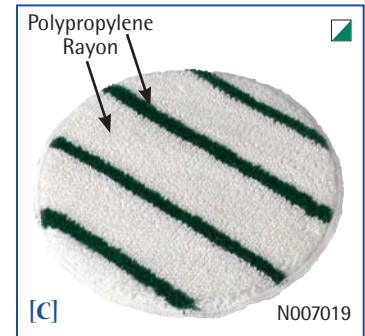

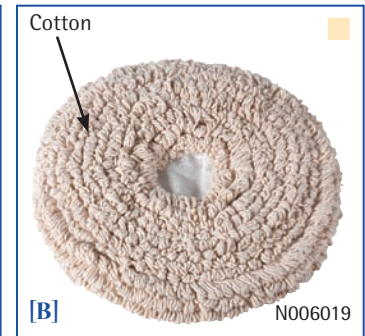

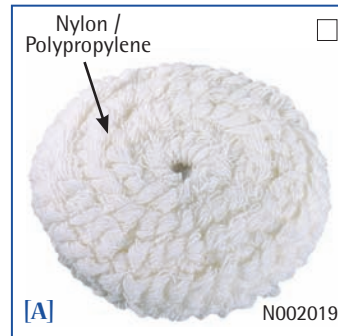

This high profile bonnet has looped nylon/poly yarn for high absorption and durability.

[B] KING COTTON® BONNET

Thick profile pad with looped-end, small diameter cotton yarn provides maximum absorption.

[C] QUEEN™ BONNET

Medium profile pad is constructed of aggressive, yet absorbent, blended looped-end yarn for extra durability. Ideal for medium to thick carpet. Aggressive scrubbing strips.

Brand	Item #	Item	Size	Case Pack	Case Weight	Case Cubic Ft.	Stock Item

CARPET BONNETS

[A] PRINCE™ BONNET

This low profile pad is for maximum agitation and tough jobs. Constructed of looped-end, blended yarn, providing thorough cleaning and stable machine operation.

[B] QUEEN™ MITT

Great tool for cleaning spots, stairs and other small areas of carpet. Looped-end yarn absorbs cleaning solution while the non-damaging cleaning strips agitate the fibers for effective cleaning. Use with any common carpet cleaning solution. Highly launderable.

MICROFIBER FLOOR PADS

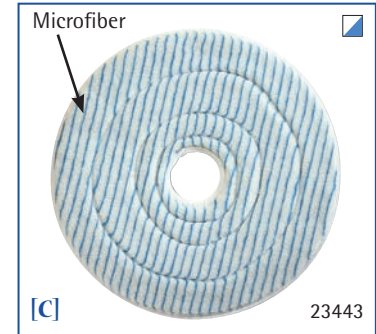

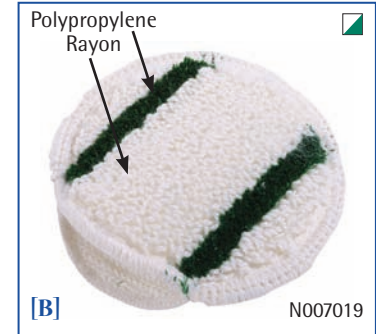

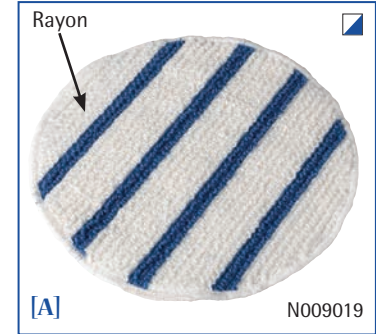

[C] DEEP SCRUB PAD

Use dry or wet on multiple floor surfaces to loosen deeply embedded soils. Use with machines operating at 175-350 R.P.M. Machine washable.

[D] DRY POLISH PAD

Use on any uneven or smooth surface with or without a buffable finish (marble, slate and resilient tile for example). Can also be used on propane machines operating at 1,000-3,000 R.P.M. Machine washable.

HAND PADS & SPONGES

A wide array of hand pads and scrubbing sponges to assist in a variety of markets and segments.

Ultra-Fresh™ is an antimicrobial treatment that has been applied to the products marked with the Ultra-Fresh™ logo. Ultra-Fresh™ protects the binding agent in the product, allowing it to control odors and fungal growth within the binder. This product does not protect users, or others, against bacteria, virus, germs or other disease causing organisms. Always clean and wash the product thoroughly before and after each use.

Revolutionary New Cellulose Alternative!

Made with a revolutionary sponge material, our new line of SpongePro™ and WipeClean Pro™ hand pads and sponges provide excellent cleaning and superior wipe dry performance. Combined with Glit's high-performing, non-woven material, our new line of hand pads offers traditional scrubbing capabilities with an innovative alternative to cellulose sponges!

[A] BLUE WALNUTPAD® SPONGEPRO™ EARTHTONE™

Combines our innovative sponge material with an organic compound which cleans without scratching. Safe to use on virtually any surface. Four "angle points" easily clean corners on counter tops, food pans and equipment. Designed to match the natural shape of your palm. Blue color easily identifies safe versus more abrasive pads that can scratch.

[B] WALNUTPAD® SPONGEPRO™ EARTHTONE™

Innovative sponge material absorbs water while the WalnutPad® helps cleaners work even better. Safe to use on stainless steel, copper, coated cookware and any surface where scratching is a concern.

HAND PADS & SPONGES

[A] MEDIUM-DUTY SPONGEPRO™ EARTHTONE™

Innovative sponge material attached to a medium-duty scouring pad. Absorbs liquid while the abrasive pad helps cleaners work even better. Works well on sinks, countertops, tables, walls, pots and pans. Rinses easily.

[B] LIGHT-DUTY SPONGEPRO™ EARTHTONE™

Innovative sponge material attached to a light-duty scouring pad. Excellent for cleaning countertops, appliances, ceramic tile, laminates, railings, sinks, tubs and showers.

[C] WIPECLEAN PRO™

Innovative sponge material features many advantages over traditional cellulose, with the added features of wipe-dry performance and an anti-microbial agent. Superior liquid holding capacity, softer and more flexible, longer-lasting and better liquid release. Remains odor-free and maintains its color for a longer period of time.

Cellulose Sponges

[D] BLUE WALNUTPAD® SPONGE N' SCRUBBER EARTHTONE™

Utility cellulose sponge with scrubber that contains an organic compound which cleans without scratching. Safe to use on virtually any surface. Four "angle points" to easily clean corners on counter tops, food pans and equipment. Contoured to match the natural shape of your palm. Blue color for easy identification versus heavy and medium-duty pads that scratch.

[E] WALNUTPAD® SPONGE N' SCRUBBER EARTHTONE™

Utility cellulose sponge with a scratch resistant WalnutPad®. Cellulose sponge absorbs water while the WalnutPad® helps cleaners work even better. Safe to use on stainless steel, copper, coated cookware and any surface where scratching is a concern.

HAND PADS & SPONGES

[A] MEDIUM-DUTY SPONGE N' SCRUBBER **EARTHTONE™**

Utility cellulose sponge with medium-duty scouring pad attached. Cellulose sponge absorbs water while the green abrasive pad helps cleaners work even better. Works well on sinks, countertops, tables, walls, pots and pans. Rinses clean easily.

[B] LIGHT-DUTY SPONGE N' SCRUBBER **EARTHTONE™**

Utility cellulose sponge with light-duty scouring pad attached. Excellent for cleaning countertops, appliances, ceramic tile, laminates, railings, sinks, tubs and showers.

[C] CELLULOSE SPONGES

Biodegradable cellulose sponges will hold over 20 times their weight in liquid making them ideal for both pick-up and transfer of fluid. Ideal for countertops and formica surfaces.

[D] POT & PAN SCRUBBER - BLUE **EARTHTONE™**

Hand-size, very abrasive scouring pad made for the toughest jobs, as well as those hard-to-clean areas. Popular for use in processing plants and on pots and pans. Because of its higher abrasion, in many cleaning situations, it can take the place of stainless steel or a metal scrubber.

[E] LIGHTWIPE - WHITE **EARTHTONE™**

Specially designed for cleaning porcelain dinnerware, enamel, stainless steel, brass, plexiglass, leaded glass, sneeze guards and copper cookware. Will not cause scratches that may dull and discolor fine surfaces.

HAND PADS & SPONGES

[A] BLUE WALNUTPAD® EARTHTONE™

Contains an organic compound that cleans without scratching. Safe to use on virtually any surface. Four "angle points" to easily clean corners on counter tops, food pans, and equipment. Contoured to match the natural shape of your palm. Blue color for easy identification versus heavy and medium-duty pads that scratch.

[B] WALNUTPAD® EARTHTONE™

Scratch resistant hand pad with aggressive cleaning action. This unique pad contains crushed walnut shells which makes it safe to clean stainless steel, copper, coated cookware and any surface where scratching is a concern.

[C] HEAVY-DUTY SCOURING PAD - DARK GREEN EARTHTONE™

Very abrasive pad. Effective for removing heavy baked-on deposits, such as rust and corrosive deposits from metal surfaces. Ideal for hard-to-clean utensils and scuff marks on floors.

[D] MEDIUM-DUTY SCOURING PAD - GREEN EARTHTONE™

Our best seller! A general purpose cleaning pad, designed for daily cleaning of pots, pans, utensils, equipment and floors. Great for cleaning fresh vegetables. Not recommended for use on certain soft plastics, fine china or polished stainless steel.

[E] MEDIUM-DUTY SCOURING PAD - GREEN EARTHTONE™

General purpose thick pad for cleaning pots and pans, cooking utensils, equipment, floors, walls and counters. Its small, hand-size eliminates the need to fold or cut the pad.

[F] LIGHT-DUTY SCOURING PAD - WHITE EARTHTONE™

Light abrasive pad for cleaning fine surfaces such as porcelain, non-stick cookware, ceramic tile, plastics, stoves and terrazzo floors.

HAND PADS & SPONGES

The Color Code-It System is specially designed for food processing and preparation, grocery supermarket and healthcare applications, to reduce the likelihood of cross contamination. Hand pads, by color, are designated for specific areas. These color-coded pads will not rust or splinter and easily conform to cracks and crevices. Approved for usage in the meat and poultry industry. Washable for re-use.

[A] COLOR-CODE-IT PADS **EARTHTONE™**

RED HAND PAD: MEDIUM DUTY

For receiving/raw materials and raw meat areas.

GREEN HAND PAD: MEDIUM DUTY

For prep/wash size reduction areas, produce areas and rest rooms.

YELLOW HAND PAD: LIGHT DUTY

For process - non-food contact surface areas, general clean-up of non-food contact surface areas and patient areas.

TAN HAND PAD: LIGHT DUTY

For contaminated surface areas, poultry and general purpose areas.

BLUE HAND PAD: LIGHT DUTY

For packaging and seafood areas and emergency rooms.

WHITE HAND PAD: LIGHT DUTY

For process - food contact surface areas, cooked, processed and prepared food areas.

WALNUTPAD®: SCRATCH RESISTANT

For public areas, bakery areas and for common areas.

FOR USE WITH INDUSTRIAL SOLVENT CLEANERS.

A superior range of non-woven synthetic fiber pads coated with abrasive and bonded together with a special adhesive system to withstand harsh industrial solvents. For industrial use in cleaning, finishing and preparing metals and wood surfaces.

[B] INDUSTRIAL PADS

INDUSTRIAL TAN:

For demanding finishing or cleaning machinery and equipment. Fast removal of rust, oxidation and corrosion.

INDUSTRIAL MAROON:

Great for cleaning machinery or surface preparation for coating and lamination.

INDUSTRIAL GREEN:

For removing deposits of rust or corrosion.

INDUSTRIAL GREY:

For fine cleaning and finishing requirements, and rubbing down primers and sealers.

Removes scratches on metal surfaces, smoothing base wood and rubbing in furniture oils.

TOUGH SCRUB BRUSHES WITH HANDLES

Our utility Tough Scrub brushes are available in lacquered hardwood, structural foam and molded plastic blocks - all with non-slip handle grips and hang-up holes. These versatile brushes are great for a variety of uses in every environment. Choose the 8.5" size to eliminate knuckle scrapes common with hand scrubs or the 20" size for deep cleaning in vats, pots and buckets.

[A] CRIMPED POLYPROPYLENE TOUGH SCRUB

This utility brush is ideal for general maintenance applications. Crimped fibers provide excellent scrubbing power and chemical resistance. Handle allows easy access to tight places for quick cleaning.

[B] HEAVY POLYPROPYLENE TOUGH SCRUB

This all-purpose brush is great for virtually any scrubbing job in industrial and commercial settings. The flared, sturdy fibers are ideal for cleaning in cramped places and are resistant to most chemicals.

[C] WHITE TAMPICO TOUGH SCRUB

Natural bristles provide excellent liquid retention for general cleaning. Durable, all-purpose brush won't scratch and is highly resistant to cleaners and chemicals.

[D] PALMYRA TOUGH SCRUB

Tough, durable scrubber is ideal for heavy-duty jobs and single use applications. Economical brush features stiff fibers which stand up to rugged scrubbing.

[E] CRIMPED NYLON TOUGH SCRUB

Ideal for kitchen scrubbing and other tough jobs. Fibers are flared to get into tight places and clean quickly. White plastic block is virtually unbreakable.

FLOOR SCRUBS

Use any standard threaded handle on these tough scrubbers to scrub floors, baseboards - even walls.

[A] MULTI-LEVEL SCRUB BRUSH

Crimped polypropylene fibers provide long service even with solvents and other harsh chemicals. The unique shape of this brush makes it easy to clean a wide variety of surfaces like baseboards, under counters and around equipment in many settings. Durable, structural foam block.

[B] SWIVET SCRUB™

Special universal joint allows brush to swivel and lock into any position to clean corners, baseboards and around fixtures. Structural foam block swivels to allow access to hard to reach areas. Available with crimped yellow polypropylene (1/4" trim) or 120 grit (3/4" trim) fibers.

[C] BASEBOARD BRUSH

Designed to ease the tedious task of cleaning baseboards. Angled, crimped polypropylene fibers allow you to easily clean hard to reach corners, baseboards and stairways.

Floor Scrubs accept threaded handles only. Found on page 51

DECK BRUSHES

Our tough scrubbing deck brushes are constructed with a smooth hardwood block with tapered and threaded handle holes. Ideal for a wide variety of surfaces including decks, patios, driveways, garages, drive-thrus and walkways. Handles sold separately.

[D] CRIMPED POLYPROPYLENE DECK BRUSH

These chemical resistant bristles are ideal for scrubbing any dirt on smooth surfaces. Crimped trim provides aggressive action.

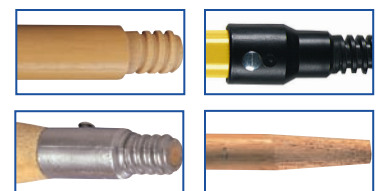

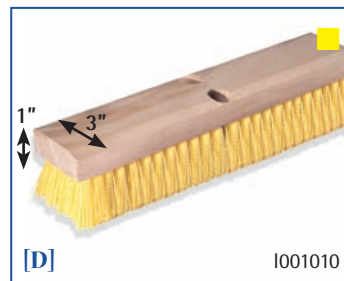

[E] PALMYRA DECK BRUSH

This sturdy and dependable brush is ideal for hard, rugged scrubbing on rough surfaces. Removes the heavy, dried dirt easily.

[F] WHITE TAMPICO DECK BRUSH

These durable, liquid retaining bristles are ideal for all types of scrubbing on smooth and rough surfaces. Makes clean-up quick and easy.

WIRE BRUSHES

This durable wire scratch brush line treats a wide variety of surfaces with strong pressure and tough fibers. Wire scratch blocks are constructed with long-lasting, traditional hardwood and come with a hang-up hole.

[A] CURVED HANDLE WIRE SCRATCH

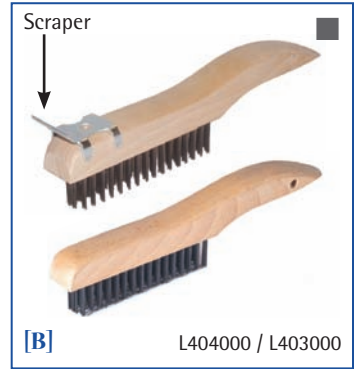

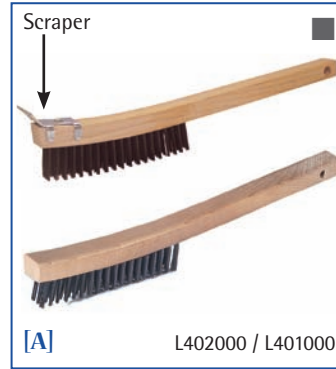

3 x 19 rows of tempered steel wire. This general purpose wire scratch, available with or without scraper, is best in industrial and commercial areas. Designed for scraping all types of surfaces.

[B] SHOE HANDLE WIRE SCRATCH

4 x 16 rows of tempered steel wire. The shoe handle wire scrub provides a strong grip, while the scraper provides extra pressure for difficult jobs. Ideal for removing paint, rust and grease from masonry, wood or pipes.

[C] DETAIL BRUSHES

Available in three fibers with a plastic handle. Brass fibers are static-free, nylon fibers are chemical resilient and add extra durability. Stainless fibers are great for resistance to corrosion and high temperature.

VEHICLE BRUSHES

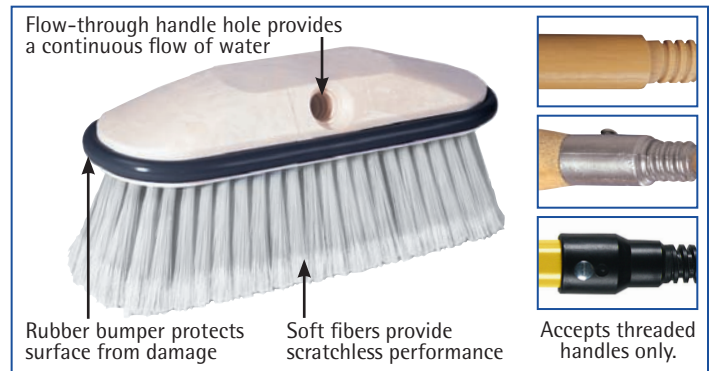

Vehicle washers with scratchless fibers and rubber bumpers keep vehicles in tip top appearance. Blocks are available in structural foam, which will not split or splinter. The threaded handle hole features a flow-through design for attaching to a fountain handle and water hose. Handles sold separately. Also great for windows, siding and awnings.

[D] FLAGGED NYLON WASHER

Tough, white nylon with feathered tips allows scratchless cleaning of exterior surfaces and has exceptional wearing abilities. Fiber is resistant to all common cleaners, detergents, acids or alkalis. Perfect for auto, truck and aluminum siding. Will not mat or absorb odors.

[E] FLAGGED POLYSTYRENE WASHER

Perfect for auto, truck, RV, bus, boat, airplane or any vehicle. Flagged fiber provides non-scratch performance.

[B] Standard Assortment

[C] E850016

DUSTERS

Dust is everywhere, especially in hard-to-reach areas. Reach those tough spots with a choice of brush fiber or yarn based dusters. Our high-reach dusters feature extendable handles for reaching light fixtures, corners, vents, fan blades and window blinds.

HIGH DUSTERS

[A] SUPREMO™ DUSTER EARTHSTONE™

Extendable handle reaches from 26" to 46". Microfiber strands maximize surface area. Removable sleeve can be washed up to 300 times!

[B] COBWEB DUSTER

Synthetic fibers hold dust with electro-static action. Comes complete with plastic coated, metal handle that extends to 60" and features a convenient hang-up hole. Gets in those hard-to-reach high areas, such as corners and vaulted ceilings where cobwebs accumulate. Great for blinds, furniture, vents and baseboards. Easy to keep clean—just swirl in warm sudsy water and air dry.

[C] DELUXE SPLIT DUSTER

Specially designed to clean blinds, fan blades, furniture and other narrow and hard-to-reach objects. Launderable head is constructed of durable cotton yarn. Deluxe Split Duster features threaded, plastic-coated wire frame with Velcro® fastener allows fast and easy attachment of refillable head.

[D] EXTEND-TO-REACH DUSTER

Extend your reach with these versatile and efficient dusters. Metal handle extends from 34" to 60" and locks into place with a simple twist, allowing users to reach out of the way places like corners and vents. Removable yarn heads are secured to handle with Velcro®, and are launderable.

[E] PIPE DUSTER

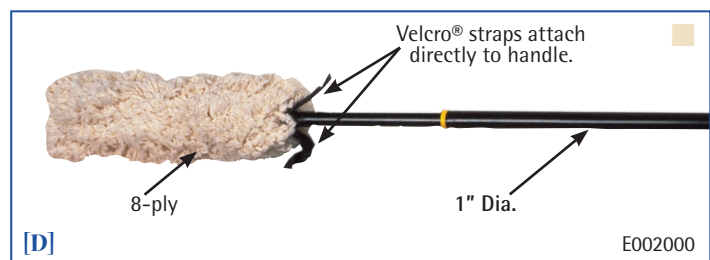

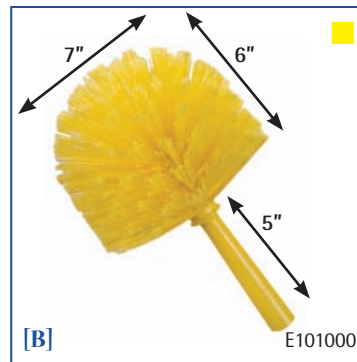

Contoured frame is designed for cleaning overhead pipes, ducts and other hard to reach areas. Long staple cotton yarn head is launderable. Pipe Duster features metal wire frame with 60" fiberglass handle and refill with ties.

[F] MICROFLEX™ DUSTER EARTHSTONE™

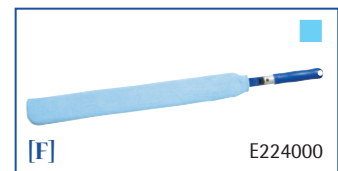

The latest in Microfiber technology. Flexible thin foam frame allows effective cleaning in tight, hard-to-reach areas. Frame accepts a hand held handle or either one of our Pro Flat mop handles for high area cleaning. Microfiber refills provide durability and long product life. Simply rinse away dirt with water after every use. Duster refill available separately.

A-C High Dusters accept threaded handles only. Found on page 51

COUNTER DUSTERS

Our quality dusters help keep counters, table tops, shelving, cupboards and equipment clean. Blocks are available in a structural foam that will not split or splinter. Blocks come with hang-up hole.

[A] FLAGGED POLYPROPYLENE

The flagged tips of this bristle make it the ideal tool for fine dust and dirt removal on smooth surfaces. It is great for shops, light industrial and commercial uses.

[B] BLACK TAMPICO

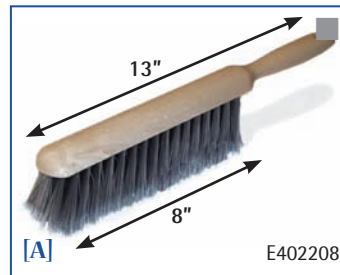

Great all around duster with full body, flexibility and long wearing quality. Black tampico is the premier all-purpose fiber for smooth and rough surfaces. Most commonly used to dust equipment and pick up metal chips and dirt.

[C] POLYPROPYLENE

Medium stiff fibers are great for all-purpose dusting. 8" structural foam block.

DUST CLOTHS, TOWELS & MITTS

Our specialized dust cloths and wipes make cleaning fast and easy. These durable and economical tools are designed to pick up dust and dirt instead of scattering.

[D] HEAVY-DUTY DUSTING MITT

EARTHTONE™

Microfiber strands maximize surface area, making this tool ideal for dusting contoured surfaces. Dusting can be done using either side.

[E] UTILITY DUST & WASH MITT

Versatile hand mitt which can be used for washing and dusting. Constructed of permatwist yarn for maximum durability. Great for dusting furniture and equipment as well as washing cars, outdoor furniture and other items requiring hand cleaning.

[F] TREATED DUST CLOTH

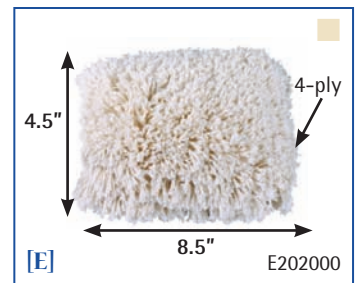

Treated flannel dust cloth is great for common dusting chores. Treatment allows maximum dust collection and retention. Available as individual poly-bagged cloths or economical rolls.

[G] MAGNA THIRSTY TOWEL

Economical alternative to rental towels. 18" x 22" towels absorb better than cotton and are very launderable. Lint free material makes them useful for high-tech, health care and food service use, as well as for users who demand extra durability and absorbency. Bulk packed 50 in dispenser case.

WALL WASHERS

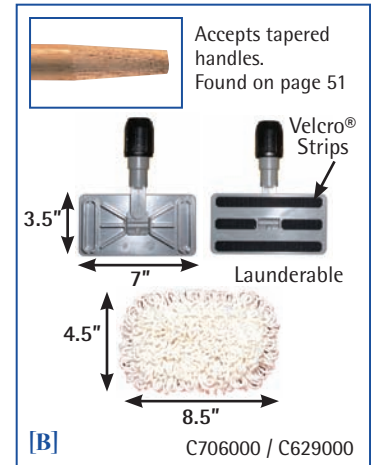

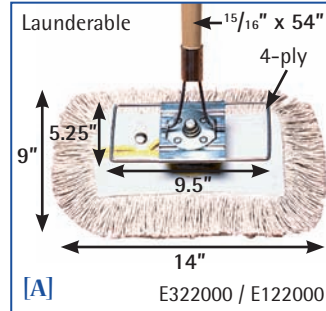

Our convenient and economic dust collection tools are perfect for offices, schools, stores and other commercial environments. These products are designed to pick up dust and dirt instead of spreading it along the surface.

[A] UNIVERSAL WALL WASHER

Great for washing walls and for use as a duster for out-of-the-way areas. Free swiveling Universal frame features notches for locking in angles. Detachable head for laundering.

[B] STICK-M™ WALL WASHER

Hi-wet modulus rayon looped yarn is highly absorbent and launderable. Velcro® attachment to high-impact plastic holder assures easy changes. Holder may be used in any standard side-squeeze wringer. Holder also features 360° swivel action.

BUCKETS

Our buckets and pails feature heavy-duty, thick-wall construction. Easy to clean surfaces, rugged handles and molded-in graduations make these products easy to use. Choose from several styles and types.

[C] HUSKEE® BUCKET

Features durable steel handle and built-in pour spout. Available in ten and 14 quart capacities. Graduations are molded inside.

[D] PREPRINTED HUSKEE® BUCKETS

Same features as the traditional Huskee™ Buckets, but hot stamped with either of two messages: "Broken Glass" or "Sanitizer." Ideal for restaurants and required by HACCP Standards.

SPRAYERS

[A] PLASTIC BOTTLES

Continental® bottles are molded of high density polyethylene. All bottles are standard with a 28/400 neck finish and molded in graduations.

[B] HIGH OUTPUT SPRAYER

The largest capacity trigger sprayer available today. Outputs 3.3cc per stroke. Adjustable from a fine mist to a jet stream and has a full "off" position. Completely leak proof, even if overturned. Oversized ergonomic trigger reduces operator fatigue and provides comfort and control. Comes standard with a 28/400 closure and dip tube filter.

[C] SPRAY-PRO SPRAYER

Designed for heavy-duty, long-term industrial applications ranging from car care to window cleaners. The Continental® 902 Trigger Sprayer is capable of delivering a consistent spray pattern that is adjustable from a full "off" position to a fine, atomized mist to a powerful jet stream. Completely leak proof, even if overturned. Our Spray-Pro Sprayers are also available in a chemical resistant model (902PW9).

DRUM PUMPS

[A] PLASTIC SIPHON DRUM PUMP

Fits 55 gallon drums with a 1 1/2" or 2" openings. Five gallon per minute flow rate. Polyethylene construction resists acid, caustic, alkaline, light oils, waxes, cleaners and insecticides.

[B] SELF-PRIMING NICKEL PLATED PUMP

Fits 15, 30 and 55 gallon drums with a 1 1/2" or 2" openings. Dispenses 22 ounces per stroke. Nickel plated pump resists chemical action of non-corrosive liquids.

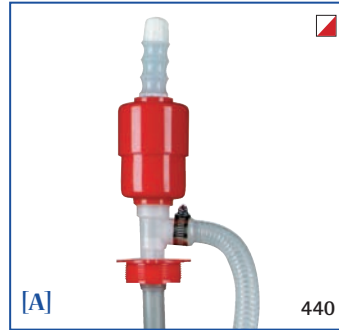

[C] ADJUSTABLE PLASTIC DRUM PUMP

Fits five to 30 gallon drums with a 1/2" or 2" openings. Adjust to dispense two, four, six or eight ounces per stroke. Chemical and acid resistant design.

[D] PUMP DISPENSER

The unique threaded body disassembles quickly for sanitary cleaning. The body and head are polypropylene for maximum chemical compatibility. Use with cleaners, waxes, food products, cooking oils, hand soap, shampoo and germicidal detergents. Standard with Poly Flap Valve (HDPE), made from FDA and USDA approved materials. The 10BC (38mm) Buttress Cap allows use of the 10HL on a five gallon pail with a flexi-spout.

SAFER BECAUSE OF VENTS!

The National Safety Council puts the total cost of work injuries at \$121 billion annually, and the cost per disabling injury at \$26,000, and growing. Back injuries are 20% of all claims. The Huskee® BackSaver uses internal, ergonomic lift vents to break the vacuum created when removing a polyliner, resulting in reduced effort and reduced risk of back injury.

[D] HUSKEE® CADDY BAG

Add this adjustable nine pocket caddy bag to a Round or Square Huskee® on a dolly for a durable cleaning system that is ready to make the rounds. Made of nylon reinforced PVC for years of reliable service.

RECEPTACLES, LIDS & ACCESSORIES

The Colossus® Receptacle is available with four openings, or with two spring loaded doors. Both versions are available as a 45 or 56 gallon receptacle, to meet any capacity requirement. Dual vinyl-coated cable lid stays hold the lid in a vertical position for safe, easy emptying, and help eliminate tipping of the base. Heavy-duty poly liner retainer straps allow the user to secure a poly liner within the container for a clean, professional appearance.

[A] COLOSSUS®

The Colossus® Receptacle with four openings has two large front openings (17½" x 9½" high) and two large side openings (13⅜" x 8½" high), which can easily accommodate bulky debris like pizza boxes, 32 ounce cups and food service trays – this unit is truly designed for high volume applications! The contoured lid's top surface prevents accumulation of debris and water while providing a unique and visually appealing style.

The Colossus® Receptacle with spring-loaded doors is Factory Mutual Approved, because of its doors' tight fit to the lid and the lid fit to the base. The heavy-duty door springs keep doors closed tight to keep odors in and pests out.

 Available in a Recycle model, see page 109 for details.

The sturdy step pedal enables hands-free opening and closing of the receptacle lid, which makes it more sanitary. Aids in conforming to the OSHA regulation 1910.1030 known as "Occupational Exposure to Bloodborne Pathogens." Additionally, this line of receptacles is Factory Mutual (FM) and California State Fire Marshal (CSFM) approved for fire safety. Lid closes securely to receptacle base, which keeps odors contained. Lid attachment is covered on top so dirt does not collect in hinge. 23 gallon version has covered wheels for mobility and cleanliness. Unique "key-way" notch holds standard size poly liners.

[B] STEP-ON

Allows for convenient and hygienic disposal of waste. Step pedal provides hands-free use. Can be used with standard poly liners. 23 gallon version has wheels and wire frame for ease of mobility.

[A] WALL HUGGER™

Continental® Wall Huggers have a sleek and attractive design that holds either 16 or 23 gallons of waste, but protrudes less than one foot from the wall! The smooth, seamless design provides prolonged life and promotes easy cleaning. The line includes a version with built-in handles which provide ease of transport and a secure area to grasp when lifting and dumping. The addition of a Wall Hugger™ Drop Shot Lid helps to conceal waste while providing an inviting, enlarged opening for waste disposal. The 8 1/4" x 16 3/4" opening is the largest available in a Wall Hugger™ style receptacle!

RECEPTACLES, LIDS & ACCESSORIES

[A] HALF ROUND WALL HUGGER™

The Half Round completes the popular Wall Hugger™ Line. Its smaller footprint and impressive 21 gallon capacity is ideal for today's space-efficient workplace. The rounded front and sides allow use where other square or rectangular containers would interfere with traffic. The Half Rounds may be suspended off of the floor with our 8319 Mounting Bracket, below.

Available in a Recycle model, see page 111 for details.

Brand	Item #	Size	Color	Case Pack	Case Weight	Case Cubic Ft.	Stock Item
Continental	8321BE	21 gal.	Beige	2	15.20 lbs.	8.780	✓
Continental	8321GY	21 gal.	Grey	2	15.20 lbs.	8.780	✓

[B] WALL HUGGER™ MOUNTING BRACKET

Securely mount any Wall Hugger™ receptacle to the wall, suspending it above the floor. Elevating the receptacle allows easy cleaning of the floor under and around it. Use with 8321, 8322, H8322, 8316 and H8316 models.

WASTE BASKETS

Indoor wastebaskets in every shape and size are ideal for schools, offices, healthcare and more. From UL classified products to economic desk side waste-baskets, these sleek and simple products provide solutions to meet all of your needs.

[C] SWINGLINE™

Square Swingline™ containers provide 25% more capacity which equates to labor and poly liner savings. The rolled rim provides strength and a convenient area to lift or pull. Reinforced base will take rough commercial use and they nest for easy storage. Compatible with the T1700 Tip Top, 1600 Swing Top or 1702 Drop Shot lids.

Available in a Recycle model, see page 111 for details.

WASTEBASKETS

[A] DROP SHOT LID

Two door, center drop design with counter-weighted flippers opens easily and closes automatically. Large opening will accommodate up to a 16" pizza box, perfect for high volume areas.

[B] SWING TOP LID

Swing Top's opening makes refuse disposal easy. Peaked design is counter-weighted and automatically closes to hide trash. Sloped surfaces discourage cigarette and waste accumulation.

[C] TIP TOP LID

Gravity, hands-free opening encourages use and automatically closes to hide trash. No metal parts to rust or break.

[A] STEELINE™

Steeline™ Wastebaskets are built for strength and beauty, exceeding industry standards for durability and performance. Fire safe steel adds an additional dimension of safety for protection against fire escalating or spreading. The rolled wire rim, double lock seams, embossed side panels and heavier gauge metal provide extra strength and superior dent resistance. The polyester powder coating process prevents scratches, chipping and rust. With the recessed bottom and metal construction, these containers will not burn or transfer heat to the floor.

[A] WALL HUGGER™ RECYCLE RECEPTACLES **EARTHTONE™**

Built of durable plastic, these newly designed receptacles work efficiently in tight spaces. Their sleek, attractive design holds either 16 or 23 gallons of recyclables, but protrude less than one foot from the wall. Molded-in bag cinch eliminates the need to tie knots in poly liners. The base features molded-in hand grips which provide a secure area to grasp when lifting or dumping. Designed with smooth, seamless construction for easy cleaning and prolonged life. The 23 gallon size is 30" tall, making it ideal for placement under standard work tables.

CARTS & ACCESSORIES

Choose from our diverse line of utility and service/bussing carts to fit your specific need. Our carts and accessories are durable, easy to clean and highly maneuverable ... and are designed to optimize storage and increase productivity. Pneumatic casters, available on some models, provide quiet operation on rough surfaces.

[A] ECONOMY LODGING CART

The Economy Lodging Cart has ergonomic aluminum handles to grab and turn from any position. Vacuum cleaner ledge and handle notch are standard. Built-in tool holders for common cleaning items as well as 'well-type' pockets to hold standard quart cleaning bottles. Shelf is adjustable (without tools) and can be moved to one of two standard locations. Center wheel design allows for a 360° turning radius. Vinyl bag included.

[B] DELUXE LODGING CART

This cart offers all the features of the above Economy model, plus sliding doors with a lock, which creates a secure area. Ideal for health care or other areas where security is necessary.

[C] LODGING CART DOOR SET

Doors come standard on the Deluxe model, and can be ordered for the Economy model. Door Set comes complete with lock and key.

[D] LODGING CART REPLACEMENT VINYL BAG

This six bushel Vinyl Replacement Bag is great for wet linens. Zippered for easy waste or linen removal.

[E] LODGING CART ADJUSTABLE SHELF

One adjustable shelf comes standard on both models. Both will accommodate two shelves.

DERMA-TEK®
is a smooth, nonporous finish that is tough, durable and seamless – making it easy to clean and keep clean, while providing a professional appearance. Plus, Derma-Tek® will not absorb chemicals, liquids or odors and will not rust, dent, chip or corrode.

CARTS & ACCESSORIES

[A] SILVERWARE & REFUSE BINS

These durable polyethylene silverware and refuse bins complete the popular Continental® bussing cart. Both bins fit all the popular style bussing carts resulting in a collection system that can be used for a multitude of applications. The Silverware Bin easily holds 100 complete place settings of flatware to service the clean up of a small meeting or party. Compatible with the 5810 Service/Bussing Cart.

BUSS TUBS

These tubs are durable, easy to clean and are NSF Listed, Std 2 Direct Food Contact (white and grey). These items are ideal for food preparation and storage, as well as for traditional food service and bussing applications. Tubs are commercial freezer and dishwasher safe (-40° to 150°F).

[B] BUS TUBS & COVERS

Heavy-duty, reinforced rolled rim increases strength while reducing distortion and breakage, protecting costly dishes and glassware. Comfortable hand-holds in both the short and long sides of the tubs ensure a solid and comfortable grip! Recessed lid design allows the bus tubs to be stacked securely for transport or storage.

DUNNAGE RACKS

Food storage solutions that meet NSF, FDA and USDA requirements.

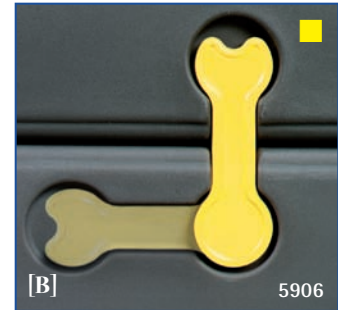

[A] DUNNAGE RACK

These racks are the best solution for your storage needs. Made of durable polyethylene construction, these units won't rust, dent, chip or corrode like metal units. The light textured surface is easy to wipe-off or steam clean. The Dunnage-Key connector storage slot allows for storage when not in use and is sloped to allow for drainage when cleaning. Ventilation slots allow air to circulate under stored goods, promoting longer shelf life. Racks can be joined together in end-to-end, back-to-back or in a L or U shape, to accommodate all storage needs. 12" height meets NSF®, FDA and USDA requirements and meets food codes and H.A.C.C.P.'s food storage requirements. Two keys are furnished with each rack. Additional keys available.

[B] DUNNAGE RACK KEY

INGREDIENT BINS

[A] MOBILE INGREDIENT BINS

The two-piece clear polycarbonate lid and unique sloped front let you see exactly what's inside and then open easily. You have access to your ingredients without having to move the bin from under the counter. Two-piece lids are removable for easy filling, tilt up or slide back for convenient access. Units are equipped with four 3" non-marking casters, two swivel for fingertip maneuverability and two are fixed. The Ingredient Bin body is constructed of durable Derma-Tek® smooth surface plastic. The seamless walls and round corner design make cleaning simple and thorough. Poly-clear lid lets you see exactly what is inside.

The 9321, 21 gallon Ingredient Bin holds 160 lbs. (71kg) of sugar and 126 lbs. (56 kg) of flour, while the 9326, 26 gallon Ingredient Bin holds 179 lbs. (80kg) of sugar and 140 lbs. (62 kg) of flour.

ICE BINS

Safely transport ice to serving bars, ice dispensers, portable bars, etc. NSF Listed for direct food contact (Standard 2).

[C] CONSERV ICE BIN

Metal free bin and lid are designed to eliminate unsightly rust and corrosion. The patented multi-position, self-storing lid allows for greater access to bin contents while preventing lid contamination. Built-in, front assist handle allows for easy vehicle loading and unloading. The easy to access and leak-proof drain faucet is nested within the profile of the body to prevent accidental damage. These units provide efficient storage and functionality with a reduced and common footprint design. Both the 125 and 200 lb. Ice Bins share interchangeable lids and faucet. The ergonomic handles and large dolly-style rear wheels allow units to be easily rolled and maneuvered over grass, tile or up curbs or steps.

SCOOPS, MEASURES & PITCHERS

BEAUTY, CONVENIENCE AND STRENGTH

Once you try our 60 ounce Tri-Pour Pitcher, you'll never use another pitcher again! The Continental® Tri-Pour puts an end to awkward, messy serving problems. Don't let the surprisingly light weight fool you, this pitcher is 20% heavier than any competitive product in the market today. What does that mean? Increased wall thickness equals increased strength and prolonged life.

The Tri-Pour Pitcher resists chipping, scratches and breakage. Designers have provided an attractive cut crystal appearance, a look similar to Waterford at a fraction of the cost, to provide an elegance appropriate for any décor.

[A] TRI-POUR PITCHER

The unique drip-proof spout with three-lip design allows servers to use the front when pouring liquids only, or out of either side when ice is also desired. Tri-Pour Pitchers are manufactured of durable poly-clear. Temperatures rated safe from -40°F to 212° F (-40°C to 100°C).

PLATFORM TRUCKS

Continental® offers three grades of platform trucks in two popular sizes. Removable handles enable them to be used in a variety of hauling situations.

[B] PLATFORM TRUCKS

Structural plastic construction and rounded corners protect against accidental wall and door damage. No bumpers required. Plastic construction will not rust, dent, crack, chip, peel or splinter unlike conventional metal or wood. All platform trucks come in charcoal grey and feature a heavy-duty, reinforced steel handle.

TILT & CUBE TRUCKS

Tilt Trucks are available in various sizes and capacities - all come standard with heavy gauge, enamel-coated steel frames. Featuring zinc-plated caster housings and hardware, these units are designed to last. The metal frames are tucked into the profile of the units to support heavy loads and to prevent bulging and tub distortion.

Cube Trucks are so agile that they can literally turn on a dime! Their 400 pound capacity is ideal for a variety of industrial and commercial uses.

[A] 5/8 CUBIC YARD TILT TRUCKS

All models feature one-piece extra strong seamless industrial plastic construction. Inset wheel placement prevents wall/door damage and allows for nesting in shipment and in storage. Fits through standard office doorways. Optional domed, center-hinged lid helps to contain odors and keep pests out. Stainless steel piano hinge will not rust.

Available in a Recycle model, see page 112 for details.

[B] 1.1 CUBIC YARD TILT TRUCKS

All models are equipped with deluxe roller bearing wheels and heavy-duty casters. Wheels are inset to fit standard office doorways and to reduce wall and door damage. This Tilt Truck is easily handled by one person and can be easily cleaned with steam or high pressure hot water. Optional domed, center-hinged lid helps to contain odors and keep pests out. Stainless steel piano hinge will not rust.

[C] 1.5 CUBIC YARD TILT TRUCKS

All models are equipped with deluxe roller bearing wheels and heavy-duty casters. This Tilt truck is easily handled by one person and is ideal for industrial/commercial applications. Optional domed, center-hinged lid helps to contain odors and keep pests out. Stainless steel piano hinge will not rust.

[F] KLEEN AIRE™ INSTANT ABSORBENT

Transforms liquids into a manageable gel. Contains both a biocide and quat to eliminate odors on contact. Absorbs 60 times its weight in liquid instantly; soaks up vomit, blood, urine and other spills, saving clean-up time. Ideal for restaurants, grocery, health care, day care, schools and institutions.

[G] KLEEN AIRE™ CARPET & ROOM DEODORIZER & ABSORBENT

Eliminates carpet and room odors while freshening the entire area. Use with regular vacuuming or directly on a spill. Light weight and non-abrasive; will not harm carpets or vacuums. Contains sodium bicarbonate to eliminate smoke, must and pet odors. Absorbs and deodorizes oil, vomit, urine, blood and many other spills.

URINAL MATS & SCREENS

Guard against unpleasant odors and protect your floors with our complete line of floor mats and screens. These functional products offer a variety of benefits, including cost savings for daily maintenance.

[A] KLEEN SCREEN URINAL SCREENS

Four ounce enzymatic deodorant block contains surfactants and chelating agents to clean and deodorize for 30 days (up to 2,000 flushes)- coloring agents are released with each flush so you know that it's working. Increased ventilation reduces potential splash back and flexible screen traps more debris to prevent costly drain clogs.

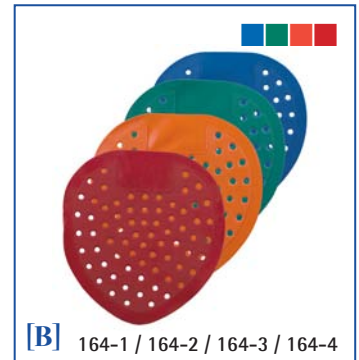

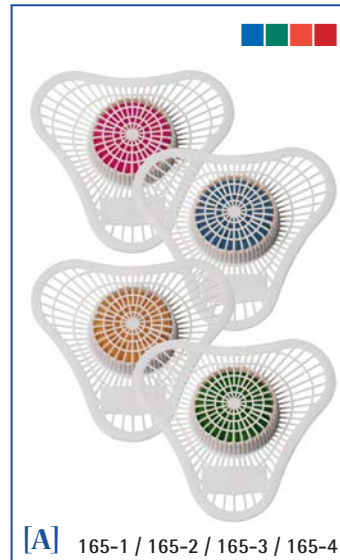

[B] DEOD-O-SCREEN

Vinyl urinal screen has 30-45 days of built-in deodorant. Universal shape fits most urinals. Available in four popular fragrances: Floral, Pine, Citrus and Strawberry. Disposable poly-glove included. Each screen is individually packaged.

[C] CONTOURED URINAL SCREEN

100% vinyl screens contoured fit for most urinals. Non-scented.

RESTROOM MATS

Kleen Mats will save hundreds of maintenance dollars every year, while providing a safer, more sanitary way to deal with the problems of urine splash and drips around urinals and commodes. Super absorbent material reduces moisture on restroom floors, thereby reducing slippery conditions. Because our product stays where it's put, it presents no safety hazard itself. When scheduled daily maintenance calls for wet mopping, these mats can be mopped over or removed for total floor cleaning.

TOWEL & TISSUE DISPENSERS

Our line of dispensers is durable, easy-to-install and easy-to-use. Universal design will work with any paper supplier. Our selection of touchless dispensers allows hygienic, hands-free dispensing, reducing cross-contamination.

[A] MULTI-FOLD TOWEL DISPENSER

Touch-free to reduce the risk of cross-contamination! Dispenses one towel at a time, conserving paper. Compatible with towels up to 9 1/2" x 3 1/2". Includes key lock for security.

[B] CENTER PULL TOWEL CABINET

Self-adjusting nozzle allows smooth towel delivery. Dispenses all common sizes of center pull towels. Fully lockable and easy to load.

[C] LEVER ACTION ROLL TOWEL DISPENSER

Features a long push level for easy use - each push provides 5 1/2" of paper. Automatic transfer feature maximizes capacity with no roll waste.

[D] AUTOMATIC ROLL TOWEL DISPENSER

Touch-free to reduce the risk of cross-contamination! Multiple settings for paper saving, sheet length and time delay. Automatic transfer feature maximizes capacity with no roll waste.

[E] MECHANICAL ROLL TOWEL DISPENSER

Touch-free to reduce the risk of cross-contamination! Automatic transfer feature maximizes capacity with no roll waste.

SOAP DISPENSERS

We offer several soap dispensers to round out our restroom cleaning product line. These standard, easy-to-install dispensers offer a variety of styles and sizes.

[A] BULK SOAP DISPENSER

Large push button is ADA compliant, when properly installed. Dispenses 1cc per stroke.

[B] KLEEN HANDS SOAP DISPENSER

With large push button actuation and five pound ergonomic push spring, this dispenser meets the ADA standards for use. The Kleen Hands Dispenser has a removable 27 ounce refillable reservoir, allowing units to be filled without the use of a funnel. Dispenses 2.2cc per stroke, handling a wide range of viscosities. External sight glass allows user to check the soap level at a glance. Sloped top and ABS body prevents cigarette burns and vandalism.

[C] ROUND SOAP DISPENSER

Tamper and theft proof, top fill with service key. Plastic reservoir.

[D] POWDER SOAP DISPENSER

One hand delivery, vandal proof. Large 4" top fill opens with service key. Chrome plated steel.

[E] RECTANGULAR SOAP DISPENSERS

Tamper and theft proof. See through gauge and top fill with service key, for soaps, detergents or lotions. Stainless Steel. Horizontal - V333SS / Vertical - V444SS.

[F] ALL PURPOSE SOAP DISPENSER

Oblong plastic tank, pump action dispenser for liquid lotion and synthetic detergents.

[G] LIQUID SOAP DISPENSER

Gravity feed with replaceable metal valve and plastic globe.

INFANT CARE

Our baby changing stations are safe, versatile and compliant with applicable regulations. They feature easy-to-clean surfaces, non-absorbent safety straps, bag hooks, dual liner dispensers and pneumatic shocks that allow one hand opening and closing.

Continental Commercial Products is pleased to introduce an expanded line of Infant Care Products. All products are A.D.A. compliant when properly installed. Changing Stations are available in either Horizontal or Vertical style to meet size and space requirements. The expanded line features a Child Safety Seat that can be either wall or partition-mounted.

[A] DIAPER CHANGING STATION

The concave shelf design provides a deep area for the child to lay, preventing them from rolling around. Heavy-duty safety straps provide an additional level of child security. Safety belt with cam-buckle is adjustable with one hand for safety and convenience, belt is non-absorbent. *Designed to hold a static load of 250 lbs., with little or no deflection.

Derma-Tek® high-density polyethylene naturally inhibits bacterial growth (tested to ASTM G21 Anti-Bacterial and ASTM G22 Anti-Fungal), which provides a safe, convenient and hygienic platform. Easy to read ANSI compliant labels (ANSI Z535.3 and ANSI Z535.4). Plastic lined bed liners create a barrier between your child and the changer. Liners unfold to 13" x 18". Molded-in, dual liner dispensers will each accommodate approximately 50 bed liners.

Designed for easy mounting, the molded-in hang holes allow the unit to be attached to the standard 16" on-center studs, or hung on a hollow wall - all required hardware is included. Concealed rear pneumatic strut provides smooth opening/closing power while concealed hardware maintains appearance and prevents tampering.

Each Horizontal and Vertical changer comes with a self-adhesive placard for the rest room door, to indicate a changer is located inside.

[B] CHILD'S SAFETY SEAT

The Child's Safety Seat provides a means for keeping a child safely off the rest room floor. Unit folds flat so it's out of the way when not in use, and the three point safety harness and concave seat area secures a child, freeing your hands. ADA Compliant when properly installed.
