RING KIT DELUXE

ASSEMBLY AND ADJUSTMENT INSTRUCTIONS

Before beginning the assembly, check to see that all parts are enclosed.

PART LIST

- 1 long gas lift
- 1 footrest
- 2 plastic bellows (one shorter and one longer)
- 5 glides

ASSEMBLY

1. Insert glides into base.
2. Insert the long gas lift into the base and pull the plastic bellows A (shorter) over the lift.
3. Slide the footrest over the gas lift and tighten the screw knob. Pull the plastic bellows B (longer) over the lift. The screw knob regulates the footrest height.

WARNING

NB: Do not use this RING KIT with castors as to do so would be unsafe & compromise the structure of the chair.

Please note, the use of castors in conjunction with this conversion kit is dangerous as it will render the chair unstable and will invalidate your warranty.
