

MERCURY RDM1150 SHREDDER UK

Overview

Protect your confidential and valuable information from being stolen by shredding any documents that may put your business at risk from identity fraud. The Rexel Mercury RDM1150 departmental shredder is perfect for a shared office of 10-20 users and has the high S4 security level which means that it shreds paper into unreadable, super small micro-cut confetti style particles (sized 1.9 x 15mm) making it ideal for highly sensitive data.

Paper jams in a shredder are time consuming, frustrating, messy and can be costly if you have to call out an engineer. With the RDM1150 shredder, paper jams are a thing of the past. Featuring the revolutionary Mercury Jam Free technology, the RDM1150 has a unique brightly lit LED indicator that warns you whether you are trying to feed too much paper into the shredder in one go.

The RDM1150 is a high security shredder that can shred up to 12 sheets of 70gsm paper in a continuous single feed as well as paperclips and staples. Specifically designed for regular shredding of confidential documents, it features a 50 litre large capacity waste bin that holds up to 500 sheets of 70gsm paper so you have to empty less frequently. The front opening door hides a pull out frame which can contain plastic or paper bags to enable simple and mess free emptying and the shredder cuts off automatically when the bag is full signalling that it needs emptying. The RDM1150 goes into power saving mode after 2 minutes of non use which reduces any unnecessary power usage making it an ideal choice for the environmentally friendly office. Optional 50 litre paper waste sacks are available to encourage you and your colleagues to recycle the shredded paper. With a clear, easy to use LED control panel, castors for easy manoeuvring around the office and quiet operation, the stylish RDM1150 is a practical choice for an office that frequently shreds confidential data.

- Auto opening mechanism full 50 litres capacity after 2 mins
