

# Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

Trade name: Beauty Formulas Charcoal Whitening Toothpaste plus Brush

Product No:

Print date: 16<sup>th</sup> February 2022

Version: 1.0

Page 1 of 8

Revision date: 16<sup>th</sup> February 2025

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### Product identifier:

#### Mixture

**Substance name:** N/A

**Trade Name:** Beauty Formulas Charcoal Whitening Toothpaste 100ml plus Brush

**Synonyms:** N/A

**CAS No.:** N/A

**EC No:** N/A

**REACH Registration No:** N/A

**Other Means of Identification:** N/A

### Relevant identified uses of the substance or mixture and uses advised against:

Charcoal Toothpaste is formulated with the added benefit of Charcoal for a thorough, deep clean. Its fluoride formula helps to protect your teeth leaving you feeling clean, fresh and healthy.

### Uses advised against:

Any other uses

### Details of the supplier of the safety data sheet:

**Name:** Drammock International

**Address:** Tower House, Westfield Industrial Estate, Kirk Lane, Yeadon,  
Leeds, West Yorkshire, LS19 7LX

**Information contact:** Technical Department

**E-Mail (competent person):** enquiries@drammock-int.co.uk

### EMERGENCY TELEPHONE NUMBER:

Emergency Number: National emergency services

## SECTION 2: Hazards Identification

### Classification of the substance or mixture:

Classification according to Regulation (EC) No 1272/2008 [CPL]:

Not Classified

### Label elements:

Labelling according to Regulation (EC) No 1272/2008 [CPL/GHS]:

No labelling applicable

### Other hazards:

Other hazards not contributing to the classification:

None

Hazardous ingredients are listed if they comprise  $\geq 1.0\%$  by weight.

Special Hazardous Substances or Carcinogens are listed if they comprise  $\geq 0.1\%$  by weight.

# Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

## SECTION 3: Composition / Information on Ingredients

### Substance:

Substance Type: Mixture of constituents

### Hazardous Ingredients

Name	Product Identifier	%	Classification according to Regulation (EC) No. 1272 [CPL]
Sodium Lauryl Sulphate	CAS: 151-21-3	1-5	Skin Irrit. 2, H315 Eye Dam. 1, H318 Acute Tox. 2, H412
Aroma	N/A	1-5	Skin Irrit. 2, H315 Skin Sens. 1, H317 Eye Dam. 1, H318 Reprod. Tox. 2, H361 Aquatic Hazard. 3, H412
Benzyl alcohol	100-51-6		Acute Tox. 4, H302 Acute Inh. Tox. 4, H332 Eye Irrit. 2, H319
Trisodium phosphate	7440-44-0	0.1-1	Skin Irrit. 2, H315 Eye Irrit. 2, H319 STOT SE 3 H335
Ingredients determined not to hazardous including water	-	Balance	-

Full list of H-Phrases listed in Section 16.

This mixture does not contain further substances fulfilling the criteria of hazard class "acute toxicity" according to CLP regulation.

## SECTION 4: First Aid Measures

### Description of first aid measures:

#### General information:

Never give anything by mouth to an unconscious person. If you feel unwell, seek medical attention (show label where possible).

#### Following inhalation:

None under normal circumstances. If symptoms develop, remove to fresh air and seek medical attention.

#### Following skin contact:

Not expected to be a hazard. Wash with water. If symptoms develop seek medical attention.

#### Following eye contact:

If in eyes, hold eyelids apart and flush eyes continuously with clean water. Continue for several minutes until all contaminants are washed out completely. If symptoms develop seek medical attention.

# Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

Trade name: Beauty Formulas Charcoal Whitening Toothpaste plus Brush

Product No:

Print date: 16<sup>th</sup> February 2022

Version: 1.0

Page 3 of 8

Revision date: 16<sup>th</sup> February 2025

## Following ingestion:

Do not induce vomiting. Wash out mouth with water. If symptoms develop seek medical attention.

## **Most important symptoms and effects, both acute and delayed:**

May cause skin irritation

May cause eye irritation

## **Indication of any immediate medical attention and special treatment needed:**

Notes for the doctor: Treat symptomatically

---

## **SECTION 5: Firefighting Measures**

### **Extinguishing media:**

Use appropriate fire extinguisher for surrounding environment

### **Special hazards arising from the substance or mixture:**

None

### **Advice for fire-fighters:**

Firefighters should not enter fire area without wearing self-contained breathing apparatus. Water spray may be used to cool down heat exposed containers.

### **Additional information:**

No further information available

---

## **SECTION 6: Accidental Release Measures**

### **Personal precautions, protective equipment and emergency procedures:**

#### **For non-emergency personnel**

##### Protective equipment:

Use appropriate personal protective equipment to minimise exposure.

##### Emergency procedures:

Slippery when spilt. Avoid accidents.

#### **For emergency responders**

##### Personal protective equipment:

Use personal protective equipment as required.

##### Emergency procedures:

Slippery when spilt. Avoid accidents

Ventilate area

### **Environmental precautions:**

Prevent entry into sewers or waterways. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

# Safety Data Sheet

## Methods and material for containment and cleaning up:

### For containment:

If possible contain the spillage. Do not dilute material, simply contain. Place inert absorbent material onto the spillage.

### For cleaning up:

Collect material and place into a suitable labelled container for disposal.

### Other information:

Dispose of waste according to the applicable local and national regulations

## Reference to other sections:

See section 1 for emergency contact information

See section 8 for Exposure controls and personal protection

See section 13 for waste treatment information

---

## SECTION 7: Handling & Storage

---

### Precautions for safe handling:

When handling large volumes, use only in a well ventilated area. Keep containers sealed when not in use. Prevent build-up of mists or vapours in the work environment. Avoid inhalation of vapours and mists and skin or eye contact. Maintain high levels of personal hygiene.

### Conditions for safe storage, including any incompatibilities:

Store in a cool, dry, well-ventilated area, out of direct sunlight. Store in suitable, labelled containers. Keep containers closed when not in use. Ensure that storage conditions comply with applicable local and national regulations.

---

## SECTION 8: Exposure controls/personal protection

---

### Control parameters:

Exposure guidelines are not relevant when product is used as intended in a household setting

### Occupational exposure limits:

Not determined

### Biological limit values:

Not determined

### Exposure limits at intended use:

Not determined

### Exposure controls:

#### Appropriate engineering controls:

Use in good general ventilation. If mists or vapours are produced then local exhaust ventilation should be used.

# Safety Data Sheet

## Personal protective equipment:

Generally not required. For industrial situations, good footwear along with other protection mentioned in this section should be worn as good practice.

## Eye / Face protection:

Generally not required. For industrial situations, safety goggles should be worn as good practice.

## Skin protection:

Generally not required. For industrial situations, gloves and protective overalls should be worn as good practice.

## Respiratory protection:

Generally not required. For industrial situations, if engineering controls are not adequate in limiting airborne exposure then respiratory protection should be worn

---

## SECTION 9: Physical & Chemical Properties

---

### Information on basic physical and chemical properties:

Appearance:	Viscous Paste
Physical state:	Solid
Colour:	Grey
Odour:	That of Mint
Odour threshold:	no data available
pH:	6.8 – 10.0
Relative Evaporation Rate:	no data available
Melting Point:	no data available
Boiling Point:	no data available
Flash Point:	no data available
Solubility In Water:	Soluble
Specific Gravity:	0.9 -1.9 g/ml
Vapour Pressure:	no data available
Vapour Density:	no data available
Kinematic Viscosity:	no data available
Dynamic Viscosity:	no data available
Volatile Component:	no data available
Partition Coefficient:	no data available
Flammability:	non-combustible material
Auto-Ignition Temperature:	no data available
Flammable Limits Lower:	no data available
Flammable Limits Upper:	no data available

### Other information:

No additional information available

# Safety Data Sheet

---

## SECTION 10: Stability & Reactivity

---

### Reactivity:

No additional information available

### Chemical stability:

Stable under normal conditions or storage and handling

### Possibility of hazardous reactions:

Not determined

### Conditions to avoid:

Extreme temperatures

### Incompatible materials:

May react with strong acids, strong alkalis and oxidising agents

### Hazardous decomposition products:

Thermal decomposition may result in the release of toxic and / or irritating fumes

---

## SECTION 11: Toxicological Information

---

### Information on toxicological effects:

No toxicity data available for this product

Ingestion: Ingestion may cause irritation of the gastric tract causing nausea and vomiting.

Inhalation: Not harmful by inhalation under normal circumstances.

Skin: Not harmful by skin contact under normal circumstances.

Eye: May be irritating to eyes. Symptoms may include redness, itching and tearing.

Respiratory Sensitisation: Not expected to be a respiratory sensitizer under normal circumstances.

Germ Cell Mutagenicity: Not considered to be a mutagenic hazard under normal circumstances.

Carcinogenicity: Not considered to be a carcinogenic hazard under normal circumstances.

Reproductive Toxicity: Not considered to be toxic to reproduction under normal circumstances.

Specific Target Organ Toxicity (single exposure): Not considered to cause toxicity to a specific organ under normal circumstances.

Specific Target Organ Toxicity (repeated exposure): Not considered to cause toxicity to a specific organ under normal circumstances.

Aspiration hazard: Not considered to be an aspiration hazard under normal circumstances.

Chronic Effects: No known chronic health effects.

---

## SECTION 12: Ecological Information

---

### Ecotoxicity:

No ecological data is available for this material.

### Persistence and degradability:

Not available

### Bioaccumulative potential:

Not available

### Mobility in soil:

Not available

### Other adverse effects:

Not available

---

## SECTION 13: Disposal Considerations

---

### Waste treatment methods:

Dispose of any waste material in a safe manner and in accordance with applicable local and national regulations.

### Additional information:

Avoid release into drains, sewers and waterways.

---

## SECTION 14: Transport Information

---

### Transport Information:

UN Number:	not applicable
UN proper shipping name:	not applicable
Transport Hazard class(es):	
Road:	Not Dangerous
Air:	Not Dangerous
Sea:	Not Dangerous
Packing Group:	not applicable
Environmental Hazards:	not applicable
Special Precautions:	not applicable

### Additional information:

No further information available

## SECTION 15: Regulatory Information

### EU regulations:

No additional information available

### National regulations:

No additional information available

### Chemical Safety Assessment:

For this substance a chemical safety assessment is not required.

---

## SECTION 16: Other Information

### Further information:

No further information available

### Relevant R-, H- and EUH-phrases (number and full text):

#### Constituents:

H302 Harmful if swallowed.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H318 Causes serious eye damage.

H319 Causes serious eye irritation.

H332 Harmful if inhaled.

H335 May cause respiratory irritation.

H361 Suspected of damaging fertility or the unborn child.

H412 Harmful to aquatic life with long lasting effects.

R22 Harmful if swallowed.

R36 Irritating to eyes.

R37 Irritating to respiratory system.

R38 Irritating to skin.

R41 Risk of serious damage to eyes.

R43 May cause sensitisation by skin contact.

52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment

#### Finished Mixture:

None

#### Disclaimer:

The information declared on this Safety Data Sheet (SDS) is believed to be correct but does not claim to be all inclusive. The information declared should be used as a guide for safe storage, use and disposal. We, the author, assume no liability for any injury and damage resulting from the use of this product.
