### **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

### Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification as hazardous according to Regulation (EC) 1272/2008.

#### 2.2. Label elements

### Label according to Regulation (EC) No. 1272/2008 as amended

| Contains:                      | titanium dioxide [in powder form containing 1 % or more of particles with aerodynamic diameter ≤ 10 μm] |
|--------------------------------|---|
| Hazard pictograms              | None.   |
| Signal word                    | None.   |
| Hazard statements              | The mixture does not meet the criteria for classification.  |
| Precautionary statements       |   |
| Prevention                     | Not available.  |
| Response                       | Not available.  |
| Storage                        | Not available.  |
| Disposal                       | Not available.  |
| Supplemental label information | None.   |

2.3. Other hazards

Carbon black is classified by the IARC as a Group 2B carcinogen (the substance is possibly carcinogenic to humans). Carbon black in this preparation, due to its bound form, does not present this carcinogenic risk.

None of the other ingredients in this preparation are classified as carcinogens according to ACGIH, EU, IARC, MAK, NTP or OSHA. This preparation contains no component classified as Persistent, Bioaccumulative, and Toxic (PBT) or very Persistent and very Bioaccumulative (vPvB) as defined under Regulation (EC) 1907/2006.

Endocrine disrupting properties (Toxicity/Ecotoxicity): This mixture does not contain known components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels above possible trace contaminate levels.

### **SECTION 3: Composition/information on ingredients**

#### 3.2. Mixtures

### **General information**

| Chemical name   | %       | CAS-No. / EC No.        | <b>REACH Registration No.</b> | Index No.   | Notes |
|---|---------|-------------------------|-------------------------------|-------------|-------|
| titanium dioxide [in powder form<br>containing 1 % or more of particles<br>with aerodynamic diameter ≤ 10 µm] | <1      | 13463-67-7<br>236-675-5 | 01-2119489379-17-XXXX         | 022-006-002 |       |
| Classification: Carc  | . 2;H35 | 51                      |                               |             |       |

# **SECTION 4: First aid measures**

| General information   | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.   |
|---|--|
| 4.1. Description of first aid meas  | sures  |
| Inhalation  | Move person to fresh air immediately. If irritation persists, consult a physician.   |
| Skin contact  | Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation develops or persists.   |
| Eye contact   | Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at least 15 minutes or until particles are removed. If irritation persists, consult a physician. |
| Ingestion   | Rinse mouth with water. Drink one to two glasses of water. DO NOT induce vomiting. Get medical attention immediately.  |
| 4.2. Most important symptoms<br>and effects, both acute and<br>delayed                | Difficulty in breathing. Coughing.   |
| 4.3. Indication of any<br>immediate medical attention<br>and special treatment needed | Treat symptomatically.   |
| SECTION 5: Firefighting n   | neasures   |
| General fire hazards  | No unusual fire or explosion hazards noted.  |
| 5.1. Extinguishing media  |  |

| 5.1. Extinguishing media<br>Suitable extinguishing<br>media                      | Dry chemical, foam, carbon dioxide, water fog.  |
|--|---|
| Unsuitable extinguishing media   | Do not use water jet as an extinguisher, as this will spread the fire.                          |
| 5.2. Special hazards arising from the substance or mixture                       | During fire, gases hazardous to health may be formed.   |
| 5.3. Advice for firefighters<br>Special protective<br>equipment for firefighters | Firefighters should wear full protective clothing including self contained breathing apparatus. |
| Special fire fighting<br>procedures  | Move containers from fire area if you can do so without risk.                                   |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.      |

# **SECTION 6: Accidental release measures**

| 6.1. Personal precautions, protective equipment and emergency procedures |  |  |
|--|--|--|
| For non-emergency<br>personnel   | Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during<br>clean-up. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at<br>levels exceeding the exposure limits. See Section 8 of the SDS for Personal Protective Equipment. |  |
| For emergency responders   | Not available.   |  |
| 6.2. Environmental precautions   | Avoid discharge into drains, water courses or onto the ground.   |  |

| 6.3. Methods and material for containment and cleaning up | Avoid the generation of dusts during clean-up. Use explosion proof electric equipment. Collect dust using a vacuum cleaner equipped with HEPA filter. The product is immiscible with water and will spread on the water surface. Stop the flow of material, if this is without risk. Sweep up or vacuum up spillage and collect in suitable container for disposal. |  |
|---|---|--|
| 6.4. Reference to other sections                          | See Section 8 of the SDS for Personal Protective Equipment. See also section 13 Disposal considerations.  |  |
| SECTION 7: Handling and storage                           |   |  |
| 7.1. Precautions for safe                                 | Minimize dust generation and accumulation. Use local exhaust ventilation. Avoid prolonged   |  |

| 7.1. Precautions for safe<br>handling                                   | Minimize dust generation and accumulation. Use local exhaust ventilation. Avoid prolonged exposure. Practice good housekeeping.                   |
|---|---|
| 7.2. Conditions for safe<br>storage, including any<br>incompatibilities | Store in tightly closed original container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS). |
| 7.3. Specific end use(s)  | Not available.  |

# **SECTION 8: Exposure controls/personal protection**

# 8.1. Control parameters

### **Occupational exposure limits**

| UK. EH40 Workplace | Exposure Limits (WELs) |
|--------------------|------------------------|
|--------------------|------------------------|

| Components   | Туре   | Value  | Form  |
|--|--|--|---|
| titanium dioxide [in powder<br>form containing 1 % or<br>more of particles with<br>aerodynamic diameter ≤ 10<br>μm] (CAS 13463-67-7) | TWA  | 4 mg/m3  | Respirable.   |
|  |  | 10 mg/m3   | Inhalable   |
| Biological limit values  | No biological exposure limits noted for  | the ingredient(s).   |   |
| Recommended monitoring<br>procedures   | Not available.   |  |   |
| Derived no effect levels<br>(DNELs)  | Not available.   |  |   |
| Predicted no effect<br>concentrations (PNECs)  | Not available.   |  |   |
| 8.2. Exposure controls   |  |  |   |
| Appropriate engineering<br>controls  | Good general ventilation should be use<br>applicable, use process enclosures, loc<br>maintain airborne levels below recomm<br>established, maintain airborne levels to<br>sufficient to maintain concentrations of<br>(OEL), suitable respiratory protection m<br>operation which may generate dusts, u<br>below the recommended exposure limi | al exhaust ventilation, or othe<br>ended exposure limits. If exp<br>an acceptable level. If engin<br>dust particulates below the C<br>bust be worn. If material is gro<br>se appropriate local exhaust | er engineering controls to<br>osure limits have not been<br>eering measures are not<br>occupational Exposure Limit<br>ound, cut, or used in any |
| Individual protection measures,  | , such as personal protective equipme  | nt   |   |
| General information  | No personal respiratory protective equi  | pment required under normal  | conditions of use.  |
| Eye/face protection  | Wear safety glasses with side shields (  | or goggles).   |   |
| Skin protection  |  |  |   |
| - Hand protection  | Rubber gloves are recommended. Was   | h hands after handling.  |   |
| - Other  | Protection suit must be worn.  |  |   |
| Respiratory protection   | No personal respiratory protective equi  | pment required under normal  | conditions of use.  |
| Thermal hazards  | Wear appropriate thermal protective clo  | othing, when necessary.  |   |
| Hygiene measures   | Keep away from food, drink and anima after handling the product.   | feeding stuffs. Wash hands   | before breaks and immediately   |
| Environmental exposure controls  | Do not allow the spilled product to ente   | r public drainage system or o  | pen water courses.  |

# **SECTION 9: Physical and chemical properties**

### 9.1. Information on basic physical and chemical properties

| Odor           | Odorless           |  |
|----------------|--------------------|--|
| Color          | Black.             |  |
| Form           | Solid. Fine powder |  |
| Physical state | Not available.     |  |
| Appearance     |                    |  |

Material name: W2070A

| Odor threshold                             | Not available.   |
|--|--|
| рН   | Not available.   |
| Melting point/freezing point               | Not available.   |
| Initial boiling point and boiling range    | Not available.   |
| Flash point                                | Not available.   |
| Evaporation rate                           | Not available.   |
| Flammability (solid, gas)                  | Not available.   |
| Upper/lower flammability or exp            | losive limits  |
| Explosive limit - lower (%)                | Not available.   |
| Explosive limit - upper (%)                | Not available.   |
| Vapor pressure                             | Not available.   |
| Density and/or relative density            |  |
| Density                                    | 1.20 g/ml  |
| Relative vapor density                     | Not available.   |
| Solubility(ies)                            |  |
| Solubility (water)                         | Insoluble in water.  |
| Solubility (other)                         | Partially soluble in toluene, chloroform and tetrahydrofuran |
| Partition coefficient<br>(n-octanol/water) | Not available.   |
| Auto-ignition temperature                  | Not available.   |
| Decomposition temperature                  | >392 °F (>200 °C)  |
| Viscosity                                  | Not available.   |
| Explosive properties                       | Not available.   |
| Oxidizing properties                       | No information available.                                    |
| 9.2. Other information                     | Not available.   |
|  |  |

# **SECTION 10: Stability and reactivity**

| 10.1. Reactivity                          | Not available.   |
|---|--|
| 10.2. Chemical stability                  | Stable under normal storage conditions.  |
| 10.3. Possibility of hazardous reactions  | No dangerous reaction known under conditions of normal use.                                      |
| 10.4. Conditions to avoid                 | Avoid temperatures exceeding the decomposition temperature. Contact with incompatible materials. |
| 10.5. Incompatible materials              | This product may react with strong oxidizing agents.   |
| 10.6. Hazardous<br>decomposition products | Carbon monoxide and carbon dioxide.  |

# **SECTION 11: Toxicological information**

| General information                        | Not available.   |
|--|--|
| Information on likely routes of exposure   |  |
| Inhalation                                 | Dust may irritate respiratory system. Prolonged inhalation may be harmful.                             |
| Skin contact                               | Dust or powder may irritate the skin.  |
| Eye contact                                | Dust may irritate the eyes.  |
| Ingestion                                  | Expected to be a low ingestion hazard.   |
| Symptoms                                   | Not available.   |
| 11.1. Information on toxicological effects |  |
| Acute toxicity                             | Based on available data, the classification criteria are not met.<br>LD50/oral/rat >5000 mg/kg.        |
| Skin corrosion/irritation                  | Based on available data, the classification criteria are not met.<br>Not a known irritant. (OECD 404). |
| Serious eye damage/eye irritation          | Based on available data, the classification criteria are not met.<br>Not a known irritant. (OECD 405). |
| Respiratory sensitization                  | Not a respiratory sensitizer.  |
| Skin sensitization                         | This product is not expected to cause skin sensitization.  |

Material name: W2070A

| Germ cell mutagenicity   | Based on available data, the classification criteria are not met.<br>Negative Ames Test (Test strains: Salmonella typhimurium).  |
|--|--|
| Carcinogenicity  | Based on available data, the classification criteria are not met.  |
|  | Carbon black is classified as a carcinogen by the IARC (possibly carcinogenic to humans, Group 2B) and by the State of California under Proposition 65. In their evaluations of carbon black, both organizations indicate that exposure to carbon black, per se, does not occur when it remains bound within a product matrix, specifically, rubber, ink, or paint. Carbon black is present only in a bound form in this preparation.  |
| IARC Monographs. Overall I   | Evaluation of Carcinogenicity  |
| titanium dioxide [in powde<br>of particles with aerodyna<br>(CAS 13463-67-7) | er form containing 1 % or more 2B Possibly carcinogenic to humans.<br>mic diameter ≤ 10 μm]  |
| Reproductive toxicity  | This product is not expected to cause reproductive or developmental effects.   |
| Specific target organ toxicity - single exposure                             | Based on available data, the classification criteria are not met.  |
| Specific target organ toxicity - repeated exposure                           | Based on available data, the classification criteria are not met.  |
| Aspiration hazard  | Based on available data, the classification criteria are not met.  |
| Mixture versus substance<br>information                                      | Not available.   |
| Other information  | Complete toxicity data are not available for this specific formulation<br>Refer to Section 2 for potential health effects and Section 4 for first aid measures.  |
|  | In a study in rats (H.Muhle) by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of the rats in the concentration(16mg/m3) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4mg/m3) exposure group. But no pulmonary changes was reported in the lowest (1mg/m3) exposure group, the most relevant level to potential human exposures.  |
|  | In 1996, the IARC revaluated carbon black as a GROUP 2B carcinogen (possible human carcinogen). This evaluation is given to carbon black for which there is inadequate human evidence, but sufficient animal evidence. The latter is based upon the developer of lung tumors in rat receiving chronic inhalation exposures to free carbon black at level that induce particle overload of the lung. Studies performed in animal models other than rats have not demonstrated an association between carbon black and lung tumors. Moreover, a two-year cancer bioassay using a typical toner preparation containing carbon black demonstrated no association between toner exposure and tumor development in rats. |

# y

| 12.6. Other adverse effects                        | Not available.   |
|--|--|
| 12.5. Results of PBT and vPvB assessment           | Not a PBT or vPvB substance or mixture.  |
| 12.4. Mobility in soil                             | Not available.   |
| Bioconcentration factor (BCF)                      | Not available.   |
| Partition coefficient<br>n-octanol/water (log Kow) | Not available.   |
| 12.3. Bioaccumulative potential                    | Not available.   |
| 12.2. Persistence and<br>degradability             | No data is available on the degradability of any ingredients in the mixture.   |
| 12.1. Toxicity                                     | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. |

# **SECTION 13: Disposal considerations**

| 13.1. Waste treatment methods |                |
|-------------------------------|----------------|
| Residual waste                | Not available. |
| Contaminated packaging        | Not available. |
| EU waste code                 | Not available. |

**Disposal methods/information** Dispose of in compliance with federal, state, and local regulations. Do not shred toner cartridge, unless dust-explosion prevention measures are taken. Do not put toner container into fire; heated toner may cause severe burns. Do not incinerate. Do not allow this material to drain into sewers/water supplies.

HP's Planet Partners (trademark) supplies recycling program enables simple, convenient recycling of HP original inkjet and LaserJet supplies. For more information and to determine if this service is available in your location, please visit http://www.hp.com/recycle.

# **SECTION 15: Regulatory information**

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

### **Retained direct EU regulations**

| Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended<br>Not listed. |
|---|
| Regulation (EU) 2019/1021 On persistent organic pollutants (recast), as amended                                     |
| Not listed.   |
| Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended    |
| Not listed.   |
| Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended    |
| Not listed.   |
| Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended    |
| Not listed.   |

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended Not listed.

# Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA Not listed.

### Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended Not listed.

### **Restrictions on use**

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended Not listed.

### Other EU regulations

### Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

#### Other regulations

HP complies with chemical regulatory requirements in chemical substance notification laws, where applicable. All chemical substances are notified or exempt from notification or listed in the inventory as existing substances in the following countries: US (TSCA), Canada (DSL/NDSL), Australia (AICIS), Japan (ISHL, ENCS), Philippines (PICCS), New Zealand (NZIoC) and China (IECSC). For guidance on importation and/or additional requirements for registration schemes such as EAEU, EU, South Korea, Turkey, UK, India and Taiwan, please contact the Sustainability and Compliance Center (sustainability@hp.com). Not available.

| 15.2. Chemical safety<br>assessment | No Chemical Safety Assessment has been carried out.  |
|-------------------------------------|--|
| Other information                   | This Safety Data Sheet complies with the requirements of Regulation (EU) 2015/830.<br>Classification according to Regulation (EC) No 1272/2008 as amended. |

#### **SECTION 16: Other information**

| References  | Regulation (EC) No. 1907/2006 of December 18, 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) and establishing a European Chemicals Agency (REACH).   |
|---|--|
|   | Regulation (EC) No. 1272/2008 of December 16, 2008 on classification, labeling and packaging of substances and mixtures, and amendments (CLP).   |
| Information on evaluation<br>method leading to the<br>classification of mixture             | The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.  |
| Full text of any statements,<br>which are not written out in full<br>under sections 2 to 15 | H351 Suspected of causing cancer by inhalation.  |
| Revision information  | None.  |
| Training information  | Follow training instructions when handling this material.  |
| Disclaimer  | This Safety Data Sheet document is provided without charge to customers of HP. Data is the most current known to HP at the time of preparation of this document and is believed to be accurate. It should not be construed as guaranteeing specific properties of the products as described or suitability for a particular application. This document was prepared to the requirements of the jurisdiction specified in Section 1 above and may not meet regulatory requirements in other countries.  |
|   | This safety data sheet is meant to convey information about HP inks (toners) provided in HP Original ink (toner) supplies. If our Safety Data Sheet has been provided to you with a refilled, remanufactured, compatible or other non-HP Original supply please be aware that the information contained herein was not meant to convey information about such products and there could be considerable differences from information in this document and the safety information for the product you purchased. Please contact the seller of the refilled, remanufactured or compatible supplies for applicable information, including information on personal protective equipment, exposure risks and safe handling guidance. HP does not accept refilled, remanufactured or compatible supplies in our recycling programs. |
